**SUBJECT: HEALTHWARE SOLUTIONS ACQUISITION**

On March 18, 2009 Intermedix Corporation, an established emergency services software vendor, announced its acquisition of HealthWare Solutions, the software provider for ICEMA's EMS MISS project. ICEMA is working closely with both Intermedix and HealthWare Solutions management to ensure the continued uninterrupted service and support of all providers utilizing or interfacing with HealthWare Solutions software. We have been assured that Intermedix intends to retain the HealthWare Solutions staff and that they are committed to the completion of the EMS MISS project. Providers should not expect any change in day-to-day operations as both ICEMA and Intermedix will continue to provide support and press toward a paperless reporting system.
