SUBJECT: Special Mileage Rate Increase

The San Bernardino County Board of Supervisors approved today a special rate increase for ambulance provider's mileage from \$18.26 per mile to \$19.37 per mile to compensate for the dramatic increase in fuel costs. The mileage rate applies for each patient mile or fraction thereof from point of pick up to destination.

These rates shall be in effect within ten (10) days after having been published in a newspaper of general circulation within the effective service areas(s), once a week for two (2) weeks. Please forward copies of the newspaper publications to ICEMA.

If you have any questions regarding this, please do not hesitate to contact me.
