Medical Director

SUBJECT: ACTIVATION OF KAISER FOUNDATION HOSPITAL - FONTANA AS AN ICEMA NEUROVASCULAR STROKE RECEIVING CENTERS (NSRC)

We are pleased to announce that effective Monday, January 12, 2015, at 8:00 am, Kaiser Foundation Hospital - Fontana (KHF) has been designated as a Level II Neurovascular Stroke Receiving Center (NSRC) for ICEMA.

KHF is located at 9961 Sierra Avenue, Fontana, CA 92335. KHF's Stroke contact nurse is Cathy Watrous at (909) 302-6900.

Per Reference #6100 - Stroke "NSRC" Receiving Centers Criteria and Destination Policy:

- NSRC base hospital contact is **mandatory** for all patients identified as a possible stroke patient.
- The NSRC base hospital is the only authority that can direct a patient to a NSRC. The destination may be changed at NSRC base hospital discretion.

EMS providers with extended transport times to NSRC must make early contact with NSRC base hospital for destination decision. NSRC base hospitals will be responsible for contacting receiving hospitals if the patient is not transported to a NSRC.

If you should have any questions, contact Chris Yoshida-McMath, RN, at (909) 388- 5823 or via e-mail at c.yoshida-mcmath@cao.sbcounty.gov.

Please join us in welcoming KHF into our Stroke system.
