SUBJECT: **ICEMA/REMSA REGIONAL REDIRECTION PILOT PROGRAM
CONTINUATION**

The Regional Redirection Pilot Program that began on May 1, 2015, has been extended from August 1, 2015 through October 31, 2015, for Ambulance Patient Offload Delays (APOD) cases exceeding 90 minutes with the same parameters as the original pilot program.

Extending the pilot program will allow the regional workgroup comprised of representatives from ICEMA, REMSA, hospital executives, the Hospital Association of Southern California (HASC) and EMS transport provider organizations, both public and private, additional time to analyze the results and determine other long-term solutions to this complex problem.

If you have any questions, please contact me.
