#### IMAGETREND SOFTWARE

The purchase of ImageTrend Software was approved by the ICEMA Governing Board in November 2011.

Patient Registry - ICEMA continues to receive data from its Trauma, Stroke and STEMI registries.

Trial Studies and Pilot Programs - ICEMA developed and deployed specific forms for documentation related to the TXA Trial Study.

Community Paramedicine Pilot Program went live August 17, 2015. ICEMA is currently receiving ePCRs. Community Paramedicine documentation will remain on Field Bridge V2 after January 1, 2017.

ICEMA will be transitioning to NEMSIS V3 as required by both National and State requirements beginning January 1, 2017. ICEMA continues to hold meetings to discuss the move to NEMSIS V3 with providers.

With the passage of AB 1129 LEMSAs can no longer mandate a provider to use the LEMSA's data system or its vendor. ICEMA is in the process of releasing a data policy outlining the requirements of AB 1129 that mandates data reporting to the LEMSA. ICEMA will work with any provider to make the transition as smooth as possible, while ensuring patient continuity is maintained. It is ICEMA's desire to keep the process as close to the current process and not add any additional work to the downstream providers.

#### STATE DATA REPOSITORY

Total ePCRs has exceeded 5.4 million.
