### CLASS SIZE IS LIMITED 20

The primary focus of the Emergency Medical Responder (EMR) is to initiate immediate lifesaving care to critical patients who access the emergency medical system. This individual possesses the basic knowledge and skills necessary to provide lifesaving interventions while awaiting additional EMS response and to assist higher level personnel at the scene and during transport. EMR function as part of a comprehensive EMS response, under medical oversight. EMR's perform basic interventions with minimal equipment.

This course is a manipulative and technical training course in emergency care procedures, including, examining cardiopulmonary resuscitation, controlling bleeding, treating cerebrovascular injuries, treating shock, treating seizures, childbirth. Performing manual lifts and carries, triage, oxygen therapy, diagnostic vitals signs, WMD awareness and improvising and arranging/transportation. This course meets present public safety emergency care requirements for fire service personnel as outline in CCR Title 22, Division 9, Chapter 1.5 " First Aid Standards for Public Safety Personnel."

Persons who successfully complete program will receive course completion certificate in order to apply for EMR certification through the local EMSA.
