

12-Lead EKG Interpretation For Experienced Providers

NOVEMBER 20, 2019

From 0800-1000

In the Aita Auditorium

Presented by:

Suraj Rasania, MD, FACC, FSCAI
Interventional Cardiologist

****Calling Critical Care, Telemetry, Emergency Department and Pre-Hospital Care Providers, NPs, PAs, RNs, LVNs, EMTs, CVTs, ERTs and interested Healthcare Professionals!****

This class provides an excellent opportunity to review and test your knowledge as well as learn some advance interpretation techniques. The class will cover the EKG fundamentals, quick interpretation of rhythms that require your immediate attention, interventions associated with specific rhythms and tools to build your foundation to 12-lead interpretation and injury pattern recognition. This will be a straight forward presentation that is sure to give you tools to bring back to the bedside!

Objectives

Upon completion the participant will be able to:

- Identify components of the EKG waveform and function associated with the heart.
- Deploy a systematic process to evaluate and analyze EKG rhythm strips.
- Recognize common EKG dysrhythmias.
- Understand the foundation of 12-lead EKG interpretation.
- Recognize specific injury patterns associated with STEMI.
