16. Discuss different mechanisms of injury associated with electrical burns
17. Describe management of electrical injury
18. Know the normal anatomy and function of the skin
19. Identify and classify burns
20. Understand the goals and principles of wound care
21. Identify various dressing materials and techniques

Approved by the California Board of Registered Nursing. Provider #437 for 6.00 contact hours.

This course eligible for 4.00 hours

The Edward G. Hirschman
Burn Center Presents:

Burn Symposium

December 4, 2019

OAK Room 8am to 3 pm
Arrowhead Regional Medical Center
400 North Pepper Avenue
Colton, California

Critical Education Making Critical Differences for the Critically Ill

At Arrowhead Regional Medical Center, we value our resources, and believe that one of the most important resources are the people who provide the care. We are dedicated to saluting your pursuit of knowledge and excellence in practice by providing courses that support those endeavors. The Edward G. Hirschman Burn Center Symposium is a presentation of timely topics that challenge us in the care and management of the burn patient from the moment of injury to time of discharge. It is provided by a multidisciplinary team that collaborates to provide the best available state of the art care to our patients.

Who should attend:

Paramedics, Nurses, Emergency Room Personnel, Respiratory Therapists, Rehab Personnel, and Physicians will all find benefit in this dynamic and informative course.
