

2020 KAISER PERMANENTE NATIONAL STROKE CONFERENCE ONLINE

Location: Online Virtual Platform

Platform: WebEx

*This two-day conference will open at 7:30 am and promptly start at 8:00 am to allow for attendees to work through any technological issues that may arise as our platform this year is completely virtual. We have renowned speakers and panelists from across the globe who will be addressing high priority neurological issues. Each session will have a chat Q&A box to allow for questions from the audience. Due to the high volume of attendees and limited time for each session, all questions may not be addressed during the session, but will be responded to by the speaker at their earliest convenience. We are excited to bring this virtual platform to each of you to provide current up-to-date issues in neurological and stroke care. **September 23 & September 24, 2020***

Keynote speakers:

Dr. S. Clay Johnston
Michelle Camicia PhD, RN

Sample topics include:

AVERT trial - Dr. Julie Barnhardt
Posterior Circulation and stroke - panel discussions
COVID-19 and Stroke
TNK

Door-In-Door-Out
Palliative Care
Pediatric Stroke Care Pathways
Moyamoya Disease

Post-Stroke Anticoagulation Therapy
Neuro Embolectomy
