JOB DESCRIPTION:

*Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are **not** intended to reflect all duties performed within the job; however, any additional duties will be reasonably related to this class.*

SUMMARY DESCRIPTION

Provides laboratory assistance to students and faculty within Emergency Medical Services (EMS).

SUPERVISION RECEIVED AND EXERCISED

Receives general direction from appropriate supervisor; checks with supervisor regarding non-routine assignments. May provide technical and functional direction to assigned student workers.

REPRESENTATIVE DUTIES

The following duties are typical for this classification.

1. Collaborates with instructional faculty to provide instructional skills laboratories for Emergency Medical Services (EMS) students, faculty, and staff; working from the knowledge of the subject area, reference materials, course outline, and without specific instructions, sets up and prepares class demonstrations and experiments working in the EMS program.
2. Demonstrates the safe and effective operation and use of tools and equipment.
3. Assembles and sets up materials, supplies and equipment used in class demonstration such as mannequins, cardiac monitors, and rhythm generators based on the syllabus.
4. Issues and maintains records on supplies, materials, and equipment loaned to students, instructors, and other departments, issues and maintains records on lockers; facilitates the return of supplies and equipment checked out to students.
5. Assists in demonstrations of assessment/treatment techniques, role-play presentations, and preparation of interventions such as CPAP, 12-Lead EKG, IV piggyback, and advance airway adjunct placement.
6. Operates, adjusts and makes minor repairs on equipment such as mannequins, IV arms, intubation heads, and laryngoscope handles.
7. Provides assistance to students and instructors in the preparation of props and equipment for campus visitations and outreach events.
8. Keeps storerooms and work areas orderly and clean.
9. Conducts and maintains inventory records of supplies, material and equipment and prepares inventory reports.
10. Places orders to vendors, inspects deliveries for accuracy of type and quantity, receives, and stocks materials, supplies, and equipment for laboratory use.
11. Assists in maintaining the security of laboratories, laboratory equipment, supplies, and materials; sets and monitors biohazardous waste refrigerator temperatures as specified in campus safety plan.
12. Works with instructional faculty to, review and update Standard Operating Procedures (SOP's) related to laboratory safety and control measures.
13. Maintains expenditure records and provide data for budget estimates.
14. Performs other duties related to the primary job duties.

The following generally describes the knowledge and ability required to enter the job and/or be learned with a short period of time in order to successfully perform the assigned duties.
