RE: Development of a Wastewater Treatment System

Honorable President and Board of Directors:

This letter is to advise you that the Town Council of the Town of Yucca Valley fully supports the construction of a Wastewater Treatment System in Yucca Valley.

Water is a precious commodity in our community, and protecting this scarce resource is of the utmost importance. With this in mind, the Council determined that its Number One Strategic Priority is development of a wastewater treatment system. In addition, at the joint meeting between the Town Council and Board of Directors, a majority of the Council voted to allow the Water District to take the lead in development of the system, with the Town lending its support in every way possible, including formation of a Joint Powers Authority between the Town and District.

The Town Council and staff look forward to working with you on this very important project in our community.

Sincerely,

BILL NEEB
Mayor
