**Subject: Potential Activation of Additional Services**

Dear Mr. Martinez,

In a letter dated August 20, 2010, you inquired if Lake Arrowhead Community Services District (LACSD) would consider activating additional services to absorb a couple of street lighting districts and several road maintenance districts currently wholly within its current service boundaries.

At its meeting on September 14, 2010, the Lake Arrowhead Community Services District Board of Directors considered the request and determined that because the street lighting and road maintenance districts were so small, it would be uneconomical for LACSD to attempt to operate these districts.

Therefore, Lake Arrowhead Community Services District declines to activate any additional services to pursue consolidation of the smaller districts.

Please contact me if I can provide additional information.

Best regards,

John E. Hoagland  
General Manager  
Lake Arrowhead Community Services District
