Pilot dies in crash of small plane

Inland News Today

Posted: November 22, 2016

UPLAND – (INT) – The **San Bernardino County fire department** says crews reached the site of a plane crash early Tuesday.

The pilot and single occupant of the small plane was dead.

The crash occurred in San Antonio Heights, a small unincorporated community north of here.

Low clouds covered the foothill area below Mt. Baldy. Weather may have been a contributing factor for the crash.

The FAA said the pilot took off from Upland's Cable Airport enroute to Riverside.

County Firefighters Collecting Toys For TLC

Z107.7 News

Posted: November 22, 2016

San Bernardino County Professional Firefighters have been busy throughout Morongo Basin this week. They've been placing collection boxes at area businesses, including Z107.7 studios in Joshua Tree as part of the Tender Loving Christmas event. The hope is to fill the boxes with new, unopened toys and help bring Christmas to families in need. The toys will be distributed at the TLC event in Yucca Valley on Christmas Day. Tax deductible donations toward the purchase of other toys are also being sought. Arrange your contribution by emailing DFaller@sbcfire.org or JHaddock@sbcfire.org.
