Apple Valley Airport to Host Public Workshop

Citizens interested in the future of the Apple Valley Airport are invited to attend a public workshop on Oct. 28.

The workshop is part of the current update to the Airport Master Plan and affords interested community members the opportunity to review and discuss the future plans for the Airport. The workshop will be held at the Town of Apple Valley Conference Center, located in the Development Services Building at 14975 Dale Evans Parkway from 5:30 to 7 p.m. There is no cost to attend the workshop.

The Airport Master Plan is a comprehensive planning effort initiated by the County of San Bernardino, Department of Airports as a timely reassessment of the development direction of the airport and how it can best serve the needs of the local community. The Airport Master Plan provides insight in how the airport can best serve the dynamic needs of general aviation. The goal of the Master Plan is to accommodate the needs of the airport and its surrounding communities in an environmentally and fiscally responsible manner while adhering to applicable safety standards.

"The Department of Airports looks forward to meeting citizens interested in the Apple Valley Airport and encourages their participation in this process," said Director of Airports Mike N Williams, A.A.E..

Documents prepared as part of the plan are available for viewing via the Internet at www.apvmasterplan.airportstudy.com. Individuals are also able to submit comments on the plan via this Internet site.
