## **Downloadable Audiobooks Available At County Library**

San Bernardino County Library has added a new dimension to the online collection--- Downloadable Audiobooks. NetLibrary, the leading provider of eBooks, has partnered with Recorded Books, the world's largest independent publisher and distributor of unabridged audiobooks, to launch a new subscription program that will bring the latest best-sellers, book club favorites, award-winning authors, and more to your library.

Available in an easily accessible format, Downloadable Audiobooks integrate seamlessly into our existing collection, providing patrons with a single access point for audiobooks, eBooks, and more. With automatic checkout and return, there is no physical inventory to manage, no re-shelving, and you'll never have to worry about damaged or missing tapes or CDs. *"...and since the Audiobooks are a subscription database there is unlimited patron access to any title in the collection—no more holds or waiting for the latest audio bestseller!"*, adds Collection Development Coordinator Nannette Bricker-Barrett.

When downloading audiobooks, patrons can select from radio-quality or CD-quality files. Radio quality provides faster download speeds and is ideal for patrons with dial-up connections. CD quality offers high-fidelity playback for patrons with high-speed Internet access.

Audiobooks can be downloaded or played on your home desktop, laptop or portable device

supporting Windows Media Player version 9 and above. You can also transfer your favorite titles to a wide range of portable devices, including portable music players, portable media centers, Pocket PCs, and even select smartphone devices.

Go to the San Bernardino County Library web page [www.sbcounty.gov/library](http://www.sbcounty.gov/library), click on any of the NetLibrary or Downloadable Audiobook links, enter your library card and pin numbers and follow directions to create a NetLibrary account. Patrons with existing NetLibrary e-book accounts can access the NetLibrary website from home and download from our audiobook collection to their personal computers.
