Chino Airport to Host Public Workshop

Citizens interested in the future of the Chino Airport are invited to attend a public workshop on Oct. 27.

The workshop is part of the current update to the Airport Master Plan and affords interested community members the opportunity to review and discuss the future plans for the airport. The workshop will be held at the Preserve Parkhouse Multi-Purpose Room, 15800 Main Street in Chino from 5:30 to 7 p.m.

The Airport Master Plan is a comprehensive planning effort initiated by the County of San Bernardino, Department of Airports to identify the future usage and update the development direction of the airport so it can best serve the needs of the local community. The Airport Master Plan provides insight in how the airport can best serve the ever-changing air transportation industry. The goal of the Master Plan is to accommodate the needs of the airport and its surrounding communities in an environmentally and fiscally responsible manner while adhering to applicable safety standards.

"The County of San Bernardino encourages citizens interested in the Chino Airport to participate in this process," said Director of Airports Mike N Williams, A.A.E..

Documents prepared as part of the plan are available for viewing at www.chinomasterplan.airportstudy.com. Individuals are also able to submit comments on the plan via this Internet site.

About Chino Airport:

Located minutes from Los Angeles County and Orange County, the County of San Bernardino's Chino Airport is a preferred destination for general aviation and corporate aviation in Southern California. The historic airport, which once trained World War II pilots as Cal Aero Field, is home to unique aviation museums, an acclaimed air show and excellent facilities for private and business aviation.
