Statement from Board of Supervisors Chairman James C. Ramos

The Board of Supervisors met with County Chief Executive Officer Greg Devereaux today to evaluate the CEO's performance, and I am happy to say that the Board is pleased with the manner in which the CEO is managing the organization under the Board's direction and interacting with the Board of Supervisors.

The Board believes County Government is effectively addressing the needs of the County Community, operating in an efficient and business-like manner, and we are optimistic about the future with Mr. Devereaux continuing to serve us and the County as CEO.

The Board and the CEO agreed earlier this year to conduct these evaluations more frequently than the previous practice of once per year in order to facilitate increased communication. Today's evaluation focused on feedback from the Board. The feedback was very positive. Mr. Devereaux:

- Clearly defines the basic purpose and mission of County Government.
- Ensures accountability at all levels of the organization.
- Communicates effectively with internal and external stakeholders.
- Has established an effective organizational structure.

The Board and the CEO today discussed building upon our success, and some areas where improvement would ensure the County continues to move in a positive direction.

As a lifelong resident of San Bernardino County, I can say that County Government has never been more effective than it is today, and we look forward to working together to accomplish even more and progress further toward realizing our County's full potential.
