Review extended on County General Plan Update

The Board of Supervisors has conducted two workshops on various aspects of the General Plan Update Program on December 5 and 12. A third workshop has been scheduled for January 23, 2007. The Board canceled a public hearing scheduled for December 19, 2006, and continued review of the Update to a third workshop in January. This will allow time for final consideration of the Program by the County Planning Commission on January 11, 2007.

After three and a half years of work, the San Bernardino County General Plan Update Program is nearing completion. The Program consists of an update of the County General Plan text, several minor revisions to zoning designations within the unincorporated areas of the County, the preparation of 13 community plans, a complete update of the County Development Code, and an Environmental Impact Report (EIR).

All documents for this project and the hearing schedule for both the Planning Commission and the Board of Supervisors are posted on the Land Use Services Department web page at www.sbcounty.gov/landuseservices. Follow the links under "General Plan Update Program" on the left-hand side of the web page under "Our Documents."
