Statement from the County of San Bernardino

The county will need time to digest the information presented today by the District Attorney and the Attorney General, as well as the information yet to come, and perform legal analysis before embarking on a specific course of action.

It is important to keep in mind that the county has a proven and successful track record of aggressively recovering public funds lost to criminal corruption. The county has been awarded more than \$35 million in connection with the Hlawek/Mays scandal of 1999.

In the meantime, the County of San Bernardino's 19,000 honest, hard-working employees will continue to provide the residents of this county with the high-level of vital services that they deserve and to which they have become accustomed.
