Businesses open during Crest Forest Drive construction

CRESTLINE, Calif. – The County of San Bernardino has started construction on the repair of the sidewalks along Crest Forest Drive between State Highway 18 and South Village Lane.

The project also includes paving a new parking area adjacent to the fire station. This project addresses issues related to pedestrian safety, lack of parking, and economic enhancement to small businesses.

The County received funding from the federal Community Development Block Grant program. All business shops are open during construction. Questions regarding the project can be answered by the San Bernardino County Department of Public Works at (909) 387-7920.
