

**1. 2012-13 San Bernardino County Grand
Jury Report**

a. Excerpt Regarding Newberry CSD

Attachment 1a

NEWBERRY COMMUNITY SERVICES DISTRICT

BACKGROUND

The Grand Jury received multiple citizen complaints regarding Newberry Community Services District. Issues reviewed were regarding practices, Policy and Procedures and Board actions of the agency.

Due to the numerous issues involved and the detailed information to review, the Grand Jury requested the assistance of an outside consultant. The report that follows is a combination of the Grand Jury and the outside consultant's efforts.

RECOMMENDATIONS

- 13-26. The recommendations within the following report in the Governance Section, numbered 1-3 be responded to appropriately.
- 13-27. The recommendations within the following report in the Accounting and Financial Management Section, numbered 4-7 be responded to appropriately.
- 13-28. The recommendations within the following report in the Internal Controls Section, numbered 8-15 be responded to appropriately.

Introduction

Purpose

The Grand Jury received multiple citizen complaints regarding Newberry Community Services District's (NCS D or District) activities.

Background

Community Services Districts are special districts provided for in the State Government Code by the California Legislature to enable residents and property owners in California's diverse communities to achieve local governance, provide needed public facilities, and supply public services. Community Services Districts may be any of the following:

1. A permanent form of governance that can provide locally adequate levels of public facilities and services;
2. An effective form of governance for combining two or more special districts that serve overlapping or adjacent territory into a multifunction special district;
3. A form of governance that can serve as an alternative to the incorporation of a new city; or,
4. A transitional form of governance as the community approaches cityhood.

Community Services Districts are legal entities, defined within State Government Code, with powers:

1. To adopt and enforce rules for administration, operation, and services;
2. To sue and be sued;
3. To acquire real and personal property;
4. To appoint employees, define their qualifications and duties;
5. To engage counsel and other professional services; and,
6. To enter into contracts and joint powers agreements

Community Services Districts are required to have an elected Board of Directors. The Board of Directors are responsible for making policies that ensure District's staff are providing chartered services in a responsible, regulatory compliant, and cost effective manner. State Code prescribes rules governing the manner in which a Board must post public notices of meetings, conduct their meetings, and record actions taken at meetings. Community Services District Board of Directors and their meetings are subject to the Ralph M. Brown Act which requires all Board business, but for specific exemptions such as personnel matters and legal advice, to be conducted in public along with certain other conduct related provisions.

NCS D consists of a five member elected Board of Directors. Current Board makeup consists of three men and two women each living within the Districts boundaries. The Board meets monthly to review Districts Operations and Financials in an open public format. Responsibilities of the

Board include oversight of the NCSF Fire Department, public street lighting, and parks and recreation upkeep and maintenance.

In order to execute their responsibilities, a Community Services District's Board of Directors has the ability to:

1. Obtain legal counsel on matters such as:
 - a. Brown Act compliance.
 - b. Employment related laws.
 - c. Bidding and procurement laws.
 - d. Advice on contracts and memorandums of understanding.
2. Obtain financial advice on planning, investments, accounting, and taxes issues.
3. Hire auditors to:
 - a. Ensure an accurate accounting of all District monies.
 - b. Review the District's system of internal controls.
4. Hire subject matter experts for advice on areas of specific concern.
5. Attend training specifically designed for Special District Board members.
6. Raise revenues via special taxes, benefit assessments, and by charging certain fees.
7. Direct the hiring of qualified staff in sufficient quantities, such that: State and county code requirements are met; a system of internal controls and checks-and-balances are in place; minutes of meetings are taken; bills are paid on time and accurately recorded; and to ensure the services, with which the District has been empowered to provide, are adequately provided. Positions may include a Treasurer, a Board Secretary, and administrative and functional department staff as required.

The Newberry Community Services District was formed on December 15, 1958. The District has been specifically empowered by the County of San Bernardino and the County's Local Agency Formation Commission (LAFCO) to provide the following services:

1. Water, including for management, domestic use, irrigation, sanitation, fire protection, and recreational purposes.
2. Fire Protection, including structural, watershed, suppression, and prevention.
3. Street lighting.
4. Parks and Recreation, including local park development, operation, and maintenance.
5. Sewers, including planning and engineering.

Scope

Utilizing the regulatory framework established for Community Services Districts, as outlined above, the Grand Jury took the following actions to evaluate the issues raised in the citizens' complaints:

1. Subpoenaed financial documents, Board of Director's Meeting Minutes, District Bylaws, District Policy and Procedure manuals, banking records, and certain other district records.
2. Observed District Board of Directors' meetings.
3. Inspected certain facilities.

4. Conducted interviews.
5. Reviewed documentation provided by the District for compliance with State and County code, with its own policies and procedures, and for the adequacy of a system of internal controls.
6. Retained a management consulting firm with expertise in public agency matters and public agency accounting requirements.

Financial Period Reviewed

Financial information reviewed was based primarily upon the District's 2011-2012 fiscal year, which ended on June 30, 2012 and utilized information from the District's General Ledger as of that date.

Acknowledgements

The Grand Jury would like to thank the personnel from the Newberry Community Services District and others for their insight into the finances and operations of the District. In particular, we would like to thank the immediate past General Manager and staff for their efforts in compiling and indexing the many documents required for this review.

Executive Summary

The Grand Jury received multiple citizen complaints of activities conducted by the Newberry Community Services District.

To accomplish these objectives, the Grand Jury reviewed various District documents and records; observed Board of Directors' meetings; inspected certain facilities; conducted interviews; and, retained a management consulting firm with expertise in public agency matters.

A summary of the findings and recommendations contained in this report are presented on the pages that follow, by report section number.

Section 1. Governance

Newberry Springs Community Services District (NCS D) Board meetings are not conducted in accordance with rules of order or professional conduct recognized as best practices in public sector organizations. In addition, the NCS D does not consistently record or post official minutes in a timely manner, in violation of the District's own policies, and compromising the ability of Board members to recall official actions when reviewing the minutes for accuracy. A clear violation of California's Open Meeting Law, also known as the Brown Act, was observed by the Grand Jury and has been the topic of concern by members of the Newberry Springs community.

Further, members of the Board have attended mandatory ethics training. However, expanded trainings on leadership and effectively chairing public meetings are available through the California Special District Association, the Special District Leadership Foundation, the California State Association of Counties, and other bodies.

The Board should attend such trainings, and adopt and adhere to expanded, formal policies and rules regarding conduct at public meetings. In addition, NCS D management should take steps to ensure that records of official Board action are routinely recorded, approved for accuracy, and indexed for timely access by the public.

Based on these findings, the NCS D Board of Directors should:

1. The NCS D Board should direct the General Manager to develop proposed policies and rules for conducting public meetings, based on *Roberts Rules of Order* and other accepted standards for parliamentary procedure.
2. Seek to attend courses offered by the CSDA and CSAC on the roles and functions of elected officials, including those offered on leadership and conducting public meetings.
3. Direct the General Manager to begin and maintain a process to record, transcribe, post and safeguard official Board minutes within two weeks of any Board meeting, in accordance with the District's current policy.

Section 2. Accounting and Financial Management

The NCSO has not completed annual financial audits for the previous three fiscal years (2009-2010, 2010-2011, and 2011-2012). State Government Code requires public agencies, including special districts, to conduct annual financial audits within 12 months of the end of each fiscal year. The Board of Directors failure to execute this responsibility is in noncompliance with California Government Code at Section 26909 and 61118 for 2009-2010 and 2010-2011. Further, while State Code requires the County Auditor-Controller to ensure such audits are completed, efforts to monitor and enforce this provision have had limited effectiveness.

Financial reports required by State Government Code to be filed with the State Controller's Office have been submitted by NCSO, but were based upon unaudited and unverified data. Contrary to State code requirements, the District's FY 2011-12 annual report of financial transactions to the State Controller has not been reviewed by an independent public accountant to ensure that it agrees with the official records of the District. The financial information that has been provided, while unaudited, indicates some financial instability, which further underlies the need for regular financial audits.

NCSO lacks basic accounting procedures and controls. Specifically, District does not have: (1) a hierarchical account numbering system; (2) a financial or accounting manual; or, (3) a consistent system to classify expenditures carried out by the District. Further, the District lacks a consistent method for authorizing, classifying, and documenting expenditures from purchase cards.

Based on these findings, the NCSO Board of Directors should direct the General Manager to:

4. Re-adopt a numerical and hierarchical account numbering structure for use in the District's general ledger and income statement.
5. Work with the Board, County Auditor, and utilize resources such as the California Special Districts Association to develop a basic accounting manual.
6. Create purchase card procedures that require District staff to include documentation showing the purpose and justification for all expenditures.

The Auditor Controller should:

7. Revise *Outside Audit Report* procedures to include corrective actions for special districts that do not comply with State audit requirements for an extended period of time. Such corrective actions could include conducting audits and billing the districts for Auditor-Controller staff time or hiring an outside certified public accountant to conduct the audit and billing the district for the accountant's work.
8. Work with the Newberry Community Services District General Manager to determine a feasible approach to comply with audit requirements established in State Government Code Section 26909. Such approaches could, with the *unanimous* request of the Board of Directors and the *unanimous* approval of the Board of Supervisors, include:

- (a) A biennial audit covering a two-year period;

- (b) An audit covering a five-year period, if the District's annual revenues do not exceed an amount specified by the Board of Supervisors; or,
- (c) An audit conducted at specific intervals, as recommended by the County Auditor-Controller, which shall be completed at least once every five years.

Section 3. Internal Controls

The District has By-laws and a Policy Handbook that contain some internal controls to help protect the District's financial and capital assets against the potential risk of loss or misuse. However, these policies remain insufficient for minimizing risk exposure to potential fraud and abuse. For example, the District's policies on purchase cards do not include spending and transaction limits to ensure that there are sufficient funds to pay for expenditures, segregate duties of purchase approvals and reconciliation to prevent potential fraud, or provide mechanisms for handling disputes and unauthorized charges.

In addition, the policies adopted to establish internal controls are not consistently implemented by Board members and District personnel, further exposing the District to unnecessary costs and potential misuse of District tax dollars for personal benefits. Violations of policies that indicate weak internal controls include:

- The lack of documentation for purchase card expenditures;
- Significant expenditures made with purchase cards without required Board approval;
- Lack of timely payments for purchase card billing statements to avoid potential penalties and fees;
- Reimbursement of expenses without sufficient documentation to ensure they were for District business; and,
- The lack of several key documents and tools such a log of all communication with District Counsel, a policy handbook for the Fire Department, and a catalog of retained District records.

Multiple resignations and terminations by the Board of key personnel within the organization during the audit period coincided with breakdowns in internal controls and the ability of the organization to respond by reassigning functions or implementing compensating controls is limited.

Finally, the District does not have an adequate Capital Management Asset System to control inventory and record key information central to making maintenance and replacement decisions.

Based on these findings, the NCSB Board of Directors should:

9. Revise its purchase card policies to:

- (a) Exclude Board members from the use of purchase cards in order to be in compliance with the State Master Services Agreement for purchase cards,

subsequently relinquish any purchase cards currently issued to Board members, and

- (b) Include additional policies to ensure that there are sufficient funds for paying authorized purchase card transactions, prevent potential fraud and abuse through unauthorized and/or inappropriate purchases, and avoid unnecessary penalties and fees from late payments, such as:
 - (i) Spending and transaction limits for each cardholder;
 - (ii) Clearly segregated duties for approving, executing, and reconciling purchases among the General Manager, Treasurer, and other purchase cardholders;
 - (iii) A process for handling disputes and unauthorized purchases; and,
 - (iv) A requirement that purchase cardholders use personal funds to pay for transactions that lack the timely submission of sufficient documentation of the transaction and purpose, as well as any subsequent penalties and fees that result from the delay in submitting such documentation.

10. Diligently review the list of disbursements to be approved on the consent agenda prior to scheduled Board meetings and (a) discuss questionable disbursements with the General Manager and/or (b) request to pull questionable disbursements from the consent agenda for public discussion and review.

The General Manager should:

- 11. Train all participants in the purchase card program on the new and revised policies and procedures for purchase cards.
- 12. Review consultants or vendors with a single invoice over \$5,000, or multiple invoices that, together, exceed \$5,000 to ensure that they have a contract or total expenditure approved by the Board of Directors at a meeting. If the contract was not approved by at least two Board members, or no contract exists, steps should be taken to bring the purchase(s) into compliance with the Policy Handbook.
- 13. Carefully review all requests for reimbursements, including supporting documentation, against the policies and procedures in the District Policy Handbook prior to approval.
- 14. Establish the following to ensure that the District is in compliance with the Policy Handbook and maintains adequate internal controls:
 - (a) District Legal Counsel Log;
 - (b) Policy handbook for the Fire Department; and,
 - (c) Catalog of all retained District records.

15. Establish a Capital Asset Management System that records capital asset information such as the purchase date, condition it was in at the time of purchase, warranties, maintenance history, usage statistics, original useful life, remaining useful life, and replacement costs.

The Local Agency Formation Commission (LAFCO) should:

16. Review suggestions made in its 2009 report and include more robust analysis of governance and reorganization options for the next Service Review of the District, scheduled for 2014.

1. NCSO Governance

As a public entity, the NCSO is bound by various laws embedded in the California State Government Code, which establish rules for open meetings and the retention of official records. In addition, best practices are employed by government entities around the world to ensure that the deliberations of public bodies are clearly communicated, and actions are well articulated and accurately recorded. Further, best practices establish various protocol for members of the public to be provided with the opportunity to comment on matters before elected bodies or on matters of general concern, in an orderly, respectful and efficient manner.

NCSO Public Meetings

Because the NCSO is a public entity that derives its authority from the voters, it is incumbent upon members of the elected Board of Directors to establish policies, procedures and rules that govern the manner in which it conducts the public's business. Based on a review of records, testimony from individual Board members and observations at public meetings, the Grand Jury found that: (1) the Board has not formalized a robust policy framework, rules or protocol for conducting public meetings; (2) individual members of the Board and other persons often exhibit inappropriate behavior during public meetings; and, (3) records of official action are not consistently prepared or otherwise completed in a timely manner.

Open Government Policy Framework and Rules Are Weak

NCSO Policy 5070 establishes the "Rules of Order for Board and Committee Meetings." Although loosely based on well-regarded rules defining parliamentary procedures, Section 5070.1.1 states that "These rules of order are intended to be informal and applied flexibly. The Board prefers a flexible form of meeting and, therefore, does not conduct its meetings under formalized rules – Roberts Rules of Order." Subsection 5070.1.1.1 further states that "If a Director believes order is not being maintained, then he/she should raise a point of order – not requiring a second – to the President. If the ruling of the President is not satisfactory to the Director, then it may be appealed to the Board. A majority of the Board will govern and determine the point of order."

The intended flexibility of these Rules of Order is emphasized in other sections of the policy. Subsection 5070.5.1 states that "The President shall take whatever actions are necessary and appropriate to preserve order and decorum during Board meetings, including public hearings. The President may eject any person or persons making personal, impertinent or slanderous remarks, refusing to abide by a request from the President, or otherwise disrupting the meeting or hearing." Further, Subsection 5060.6.1 states that "By motion made, seconded and approved by a majority vote, the Board may, at its discretion and at any meeting: a) temporarily suspend these rules in whole or in part; b) amend these rules in whole or in part; or, c) both." The remainder of the Policy addresses procedures for individual Directors to obtain the floor; and, offering, commenting and moving motions to a vote.

Although different parliamentary procedures have been developed over the years, *Roberts Rules of Order* are generally considered to be the standard for local government entities in the United

States. The *Institute for Local Government*¹ states that formalized rules of order are necessary to “guide the discussion and decision-making process.” Although following parliamentary procedure is not required in California, it is considered to be a best practice, makes public meetings more efficient, and reduces the chances of official actions being declared illegal or challenged for procedural deficiencies.

Further, the League of California Cities, in the organization’s publication *Open and Public IV*, has made the observation that there are certain key principles and goals that should be considered when government bodies develop their policies regarding public meetings:

- A legislative body's need to get its business done smoothly;
- The public's right to participate meaningfully in meetings, and to review documents used in decision-making at a relevant point in time;
- A local agency's right to confidentially address certain negotiations, personnel matters, claims and litigation; and,
- The right of the press to fully understand and communicate public agency decision-making.

Although prepared in the context of the State’s Open Meeting Law (i.e., the “Brown Act”), these principles support the concept that in order to operate effectively, meetings require rules and procedures to ensure orderly, efficient, and productive sessions in a calm, professional setting. The limitations of the District’s current policy, including the desire for “flexibility” embedded in the policy foundation, do not support the accomplishment of these goals. The League of California Cities continues by stating, “An explicit and comprehensive public meeting and information policy, especially if reviewed periodically, can be an important element in maintaining or improving public relations. Such a policy exceeds the absolute requirements of the law . . . A narrow legalistic approach will not avoid or resolve potential controversies. An agency should consider going beyond the law, and look at its unique circumstances and determine if there is a better way to prevent potential problems and promote public trust.”

As will be discussed below, the public trust appears to have been damaged in the NCSD, in part by the manner in which public meetings are conducted, the behavior of Directors during public meetings and inconsistencies with the preparation and maintenance of official records of action. As a first step toward improving public access and communication, the NCSD should adopt more robust policies regarding parliamentary procedure, adhering to the basic principles of *Roberts Rules of Order*, which have been in existence and used by local government agencies in the United States for well over 100 years. When developing these policies, the District should consult with the California Special District Association (CSDA), which can provide resources and make suggestions regarding best practices for special district organizations.

Members of the Board Exhibit Inappropriate Behavior at Public Meetings and May Have Acted in Violation of California Law

¹An affiliate of the California State Association of Counties (CSAC) and the League of California Cities.

As part of the Grand Jury's investigation, members attended NCSB Board meetings and listened to numerous tape recordings of other meetings to assess the effect of the weak policy foundation on proceedings. The following observations were made:

- Before the start of Board meetings, members of the public who wish to address the Board fill out a "Request to Be Heard" card and are provided with three minutes to voice their concerns. Although this is a typical practice in government organizations, members of the public were also permitted to engage in discussions at any time during the meeting, without filing the required Request to be Heard Card. Often, members of the public spoke to individual directors without going through the President and, although some persons would raise their hand to be recognized, in many instances other persons would simply begin to speak without being recognized. Sometimes, multiple conversations occurred simultaneously and discussions between persons in the audience were conducted separately while the Board merely watched and listened.
- In several instances, members of the Board engaged in arguments with one another and members of the public. During these exchanges, the meetings were disrupted as people talked over one another and made sarcastic and snide remarks. In some instances, the arguments between Board members became overly heated, causing some members to walk out while the meeting proceeded. In another instance, a Board member challenged a member of the public who had just finished addressing the Board. This resulted in a brief shouting match between the two. In another instance, a member of the public was talking loudly during the meeting and, when asked by a Board member to be silent, the person responded with an obscene gesture.
- Some Board members were seen slouching in their chairs, keeping their heads down and speaking in voices that could barely be heard by the audience. Such behavior gives the impression that these members are indifferent and/or disinterested in the proceedings, is disrespectful and unprofessional.
- The unprofessional behavior of the Board has been observed for some time by previous employees and members of the public. In March 2012, the resignation letter submitted by a former Fire Chief, stated that his departure was due, in part, to ". . . the public fights and bickering so prevalent on the NCSB Board."
- At the February 26, 2013 meeting of the Board, an argument started regarding whether the Board member could remove an agenda item without a vote of the Board. The item in question concerned an accusation that a sitting member of the Board had committed fraud and conspiracy. During recess, three members of the Board (a quorum) were observed talking together in private, which is a clear violation of the Brown Act. The Newberry Springs Community Alliance, which describes itself as a ". . . grassroots organization of residents and property owners fostering an improvement of Newberry Springs through the engagement of educating the community" regularly blogs critical comments about the Board. In March 2013, this organization blogged "The CSD Board has had a hard time holding a single meeting that doesn't contain a Brown Act violation."

These examples of poor behavior by Board members, and the inability of the President to control both Board member and audience interaction, suggest that the individual members of the Board

have not yet developed the necessary skills to lead or participate in public meetings in a professional manner. Combined with more robust policies, procedures and rules defining parliamentary procedures, Board members should be provided with training on duties, responsibilities and behavior as elected officials.

Further, it is clear that members of the Board may not be familiar with the requirements of the California Open Meeting Law or Records Retention Act, as discussed in the section, below. Accordingly, the City Attorney should be requested to develop and lead workshops on these topics to ensure that current and future Board members have the background and knowledge to adhere to these laws.

Board Members Have Not Been Provided With Appropriate Training

Assembly Bill 1234 requires that all board members of special districts complete a two-hour, on-line Ethics Compliance Training Course after joining the Board. Based on records maintained by the District, all Board members have received this training. The California Special District Association (CSDA) provides training for elected officials and managers of special districts, including various orientation trainings, leadership summits, and related topics such as human relations and resource management. Other courses are provided through the Special District Leadership Foundation, and guides are available through the State Board of Equalization and other bodies. In addition, other trainings are offered by Statewide organizations, such as the California State Association of Counties (CSAC) that may be helpful to the District's leadership. For example, CSAC has an agreement with California State University Northridge to provide special courses for elected officials and managers that can be attended to obtain credit towards a Master Degree in Public Administration. In addition, CSAC offers courses through the *Institute for Excellence in County Government*, which may be beneficial to the District directors, including:

- The Art and Practice of Elected Leadership;
- Getting Things Done: Working Effectively to Achieve Objectives;
- Chairing and Managing Effective Public Meetings;
- Making Impressions: Media Interviewing;
- Negotiation and Collaboration in Complex Environments; and,
- Advanced Practice in Negotiation.²

Although these courses are designed for County elected officials, the topics and content can also be applied to the operations of the NCSO. The members of the Board should explore the opportunity for attending selected courses, with the goal of improving the conduct of public meetings and interactions with each other and members of the public.

Records of Board Actions Are Not Complete or Prepared in a Timely Manner

² Go to http://www.csac.counties.org/sites/main/files/file-attachments/2013-winter-spring-publish_3.pdf to view a complete description of available courses for the Spring 2013 schedule.

NCSD Policy 5060.1.1 states that:

Copies of a meeting's minutes shall be posted for a minimum of 10 days on the NCSD website within 14 (days) of NCSD meeting for public review. Copies of meeting minutes shall be distributed to Directors as part of the information packet for the next regular meeting of the Board, at which time the Board will consider approving the minutes as presented or with modifications. Once approved by the Board, the official minutes shall be kept in a fireproof vault or in a fire-resistant cabinet.

The NCSD does not adhere to this policy.

During the period of this review, the Grand Jury found that Board minutes were not being consistently recorded, posted and secured in the manner prescribed by Policy 5060.1.1. Minutes were generally not transcribed promptly and were not ready for approval at the next regularly scheduled Board meeting. When copies of minutes were requested, the current General Manager reported that she had to look in several locations before they were located. A number of Board minutes were audio recorded but not transcribed for weeks or months later, resulting in some Board members not recalling what actions were taken on agenda items when presented with the written notes for approval.

Members of the Grand Jury reviewed the written notes and listened to numerous audio recordings of Board meetings. The background noise on some recordings made it difficult to hear or understand who was speaking and, in some cases, what was being said. Some audio recordings were started after the meetings were called to order and no references to the dates of the meetings were heard. This creates difficulties with providing an accurate written record of Board proceedings, even when the audio recordings are transcribed. For example, the Board minutes from the August 28, 2012 meeting included a typed side-note that stated the notes “. . . are not transcripts of the meetings; only the hi-lights and hopefully accurate.”

To ensure that there are accurate records of official actions, the Board should direct the General Manager to begin and maintain a process to record, transcribe, post, and safeguard official Board minutes within two weeks of any Board meeting, in accordance with the District's current policy.

Conclusions

NCSD Board meetings are not conducted in accordance with rules of order or professional conduct recognized as best practices in public sector organizations. In addition, the NCSD does not consistently record or post official minutes in a timely manner, in violation of the District's own policies, and compromising the ability of Board members to recall official actions when reviewing the minutes for accuracy. A clear violation of California's Open Meeting Law, also known as the Brown Act, was observed by the Grand Jury and has been the topic of concern by members of the Newberry Springs community.

Further, members of the Board have attended mandatory ethics training. However, expanded trainings on leadership and effectively chairing public meetings are available through the California Special District Association, the Special District Leadership Foundation, the California State Association of Counties, and other bodies.

The Board should attend such trainings, and adopt and adhere to expanded, formal policies and rules regarding conduct at public meetings. In addition, NCSD management should take steps to

ensure that records of official Board action are routinely recorded, approved for accuracy, and indexed for timely access by the public.

Recommendations

The NCSB Board of Directors should:

- 1 The NCSB Board should direct the General Manager to develop proposed policies and rules for conducting public meetings, based on *Roberts Rules of Order* and other accepted standards for parliamentary procedure.
- 2 Seek to attend courses offered by the CSDA and CSAC on the roles and functions of elected officials, including those offered on leadership and conducting public meetings.
- 3 Direct the General Manager to begin and maintain a process to record, transcribe, post and safeguard official Board minutes within two weeks of any Board meeting, in accordance with the District's current policy.

Costs and Benefits

There would be minimal cost for the members of the Board to attend leadership and other training offered by CSDA and CSAC.

Parliamentary procedures recognized throughout the world would be followed by the NCSB Board, and the Board members would receive the training necessary to provide leadership and ensure a more professional atmosphere at public meetings. The risk of Directors violating California Open Meeting Laws and the California Records Act would be reduced.

2. Accounting and Financial Management

NCSO Lacks State-Mandated Financial Audits

NCSO has not completed annual financial audits for fiscal years 2009-2010, 2010-2011, and 2011-2012. NCSO is therefore not in compliance with State Government Code Section 26909 for 2009-2010 and 2010-2011, which requires annual audits of financial condition for all special districts within 12 months of the end of a fiscal year.

The State Controller's Office prescribed minimum auditing requirements for special districts, set out in Title 2, Section 1131.2 of the California Code of Regulations, consist of 17 general statements that county auditors or independent accounting firms should consider in preparing an audit program. These 17 statements include the following important steps, among others:

- A proper study and evaluation of the existing internal control and the financial organizational structure;
- A review of the district's report of financial transactions to the State Controller to see that it agrees with official records of the district for the period. The State Controller should be informed of any material difference;
- A determination that expenditures were properly documented, authorized and incurred and are proper charges to the fund and appropriation against which they have been charged; and,
- A verification of all assets and liabilities in accordance with generally accepted auditing standards.

The failure to follow these and the other requirements set out by the State Controller has led to negative consequences for NCSO including: (1) putting NCSO out of compliance with State Code; (2) leaving residents and taxpayers without a reasonable assurance that financial statements are presented fairly and accurately; and, (3) putting the District at greater risk of waste, fraud and abuse due to the absence of any review of internal controls.

The lack of audited financial statements is also not consistent with industry best practices, such as those promulgated by the *Institute for Local Government*, which notes that "audited financial reports alert governing body members if there are irregularities in financial practices and financial reporting."³

³ The Institute for Local Government is an affiliate of the California State Association of Counties and the League of California Cities. The best practices information can be found online at this address: http://www.ca-ilg.org/sites/main/files/file-attachments/resources_3r_Financial_Reporting_and_Accounting.pdf

Auditor-Controller Monitoring of Audit Requirements Has Had Limited Effectiveness with NCS D

State code places responsibility on the County Auditor-Controller for making sure special districts are audited annually or on a different frequency under certain restrictions. Specifically, Section 26909 of the State Government Code requires county auditors to:

Either make or contract with a certified public accountant or public accountant to make an annual audit of the accounts and records of every special district within the county for which an audit by a certified public accountant or public accountant is not otherwise provided.

The Internal Audits Section of the County Auditor-Controller, which is responsible for performing operational and financial audits of special districts, has taken steps to monitor special districts' compliance with State auditing requirements. However, these efforts have not been successful with NCS D.

The Auditor-Controller has procedures that call for repeated, increasingly assertive correspondence with general managers and district boards that have not completed a financial audit on time. In the case of NCS D's FY 2011-12 audit, the Auditor-Controller relied on the District's general manager's and its certified public accountant's assertions that a contract was in place to conduct audit services. However, as noted later in this section, the work performed by the certified public accountant does not comply with State audit requirements.

The enforcement of Section 26909 is somewhat complicated by the Code's requirement that any costs incurred by the county auditor, including any contracts with accountants, be borne by the special district. County Auditor-Controller management staff has asserted to our audit team that there has been some hesitancy to enforce the annual audit requirement on NCS D due to the District's budgetary constraints. However, there has been no formal steps taken or analysis conducted by the Auditor-Controller to determine the most cost effective method of complying with State audit requirements.

NCS D and Auditor-Controller Have Not Pursued Potential Alternatives to Annual Audits

Neither NCS D nor the Auditor-Controller have studied or pursued potential alternatives to annual audits allowed for in the State Government Code under certain restrictions. Specifically, Government Code Section 26909 allows for the following three alternatives if requested unanimously by the special district's governing board and unanimously approved by the Board of Supervisors:

1. A biennial audit covering a two-year period;
2. An audit covering a five-year period, if the special district's annual revenues do not exceed an amount specified by the Board of Supervisors; or,
3. An audit conducted at specific intervals, as recommended by the County Auditor, which shall be completed at least once every five years.

Given the District's relatively small budget of approximately \$250,000 per year, the Auditor-Controller and District Board members should consider these alternatives, which would require fewer resources to be devoted to financial audits, but would still be in compliance with State requirements.

2011-12 Financial Review Did Not Meet Minimum Audit Requirements

Financial reports required by State Government Code to be filed with the State Controller's Office have been submitted by NCSA, but were based upon unaudited and unverified data. Contrary to State code requirements, the District's FY 2011-12 annual report of financial transactions to the State Controller has not been reviewed by an independent public accountant to ensure that they agree with the official records of the District.

In September 2012, NCSA contracted with a certified public accountant for audit services covering financial transactions in FY 2011-12. The Auditor stated the District did not provide adequate or sufficient documentation to complete an audit and express an audit opinion. However, these services did not meet the minimum requirements prescribed by the State Controller's Office for audits of special districts. Rather, in his transmittal letter to the District's Board of Directors the certified public accountant stated that his work was limited to putting together the financial report that must be filed annually with the State Controller. Further, the letter states that "I have not audited or reviewed the financial statements referred to above and accordingly do not express an opinion or any other form of assurance on them."

The State Controller's prescribed minimum audit requirements are contained in the California Code of Regulations (Title 2, Section 1131.2). As previously mentioned, these minimum requirements include the statement that:

the district's report of financial transactions to the State Controller should be reviewed to see that it agrees with the official records of the district for the period. The State Controller should be informed of any material difference.

The General Manager should prepare the District's financial statements on an annual basis before they are reviewed by the Auditor-Controller or a certified public accountant to ensure they are an accurate reflection of the District's financial condition.

Financial Data Reported to State Controller Indicate Financial Instability and Structural Deficits

Although the data provided to the State Controller's Office is unaudited, a review of such data indicates financial instability, which further underlies the need for regular financial audits. As seen in Table 2.1 below, the District appears to have run a deficit in FY 2009-10 of approximately \$18,000 or about 8 percent of total revenues. Further, the lighting and lighting maintenance function has run deficits ranging from \$41,142 to \$5,011 from FY 2008-09 to FY 2010-11 and the Recreation and Park Function has run deficits of approximately \$25,000 in FY 2009-10 and about \$2,300 FY 2010-11. NCSA management has been unable to identify the cause(s) of these deficits. Additionally, the District's methodology for assigning district-wide costs such as Director's fee, office costs, and accounting and legal fees between the three functional departments is not documented, and therefore cannot be verified.

Table 2.1**NCSD Expenditure Data Reported to State Controller**

Activity	FY 2008-09 Revenues	FY 2008-09 Expenditures	FY 2009-10 Revenues	FY 2009-10 Expenditures	FY 2010-11 Revenues	FY 2010-11 Expenditures
Fire Protection	\$152,701	\$119,179	\$124,762	\$112,437	\$136,411	\$109,611
Lighting and Lighting Maintenance	3,434	44,576	2,141	7,152	2,210	8,698
Recreation and Park	155,645	142,136	98,935	124,115	100,563	102,910
Total	\$311,780	\$287,891	\$225,838	\$243,704	\$239,184	\$221,219

Source: State Controller's Office

NCSD Lacks Sufficient Accounting Procedures and Controls

NCSD lacks sufficient accounting procedures and controls. According to State Government Code 61053, NCSD must:

adopt a system of accounting and auditing that shall completely and at all times show the district's financial condition. The system of accounting and auditing shall adhere to generally accepted accounting principles.

However, the District does not have: (1) a hierarchical account numbering system; (2) a financial or accounting manual; or, (3) a consistent system to classify expenditures carried out by the District. Further, although the State Controller requires special districts to use the modified accrual basis of accounting, it is not employed at NCSD.

NCSD Lacks Account Numbering System and Financial Manual

Beginning in FY 2012-13, the District abandoned utilizing its numerical and hierarchical account structure in favor of an accounting scheme based on account titles. A fundamental objective of accounting is to accurately classify transactions such as expenditures and receipts into proper "buckets" or accounts. Accounts are generally identified utilizing a numeric or alpha-numeric scheme. Accounting identifiers are usually broken down into some type of hierarchical components to accommodate data correlation and reporting activities. The numerical assignment of an accounting identifier also facilitates system to system and intra-system exchanges of data, such as from a Purchase Order system to the General Ledger. The abandonment of account numbers inhibits accurate and efficient hand-offs of accounting data for establishment and performance measurement of budgets and future growth into new and more sophisticated computer system interfaces.

NCSD lacks a financial or accounting manual, which would provide guidance to the General Manager and other staff on how to create and maintain District accounts and prepare the District's income statement, general ledger, and annual financial statement. In addition, a

financial or accounting manual would assist the staff in using modified accrual based accounting, which is required by the State Controller for non-enterprise funds.

The lack of a financial or accounting manual may have led to the following odd general ledger and income statement entries observed by the Grand Jury from FY 2011-12:

- On the District's Income Statement, a revenue line title "Deposits Not Recorded" shows a value of \$121,248.76, which is 47 percent of the District's fiscal year revenue. No explanation was found for the purpose or intended usage of this account.
- Account 5100 titled "Directors Stipend" reflects amounts that are not in increments of \$50 even though Directors are paid \$50 per authorized meeting.
- Account 5101 titled "Secretary Salary" reflects payments made to five individuals ranging from \$39.67 to \$12,640.02. However, the District did not have five secretaries during FY 2011-12.

Expenditures Not Consistently Classified to Support Proper Accounting

NCSD does not consistently classify or document expenditures to allow for proper accounting of the various functions carried out by the District. For example, approximately \$20,000 of purchase card expenditures was placed in a general ledger clearing account because the former General Manager, lacking documentation, could not determine the appropriate cost account. Additionally, a 4,000 gallon Water Tender Truck was acquired via a capital lease, but is being accounted for as an operating lease. This misstates both the District's assets and liabilities. The failure to properly classify expenditures leaves the District non-compliant with the State Code requirement to adopt a system of accounting and auditing that shall completely and at all times show the District's financial condition. It also affects the accuracy of the District's State-mandated financial reporting.

District Has Weak Check Reconciliation Process

NCSD's check reconciliation process has been deficient. The District's FY 2011-2012 account for workers' compensation insurance was overstated by the value of one extra quarterly payment in the amount of \$2,172, which resulted from a voided check not being reversed off the books. This is an indicator of a weak check reconciliation process.

Reconciling bank statements to check registers and to General Ledger account balances is a fundamental management practice and a basic internal control process. This process ensures the bank's records are in-line with the District's records, and that any voided or un-cashed checks are identified for follow-up and corrective action if needed. A check that has been voided must also have its charged reversed on the accounting ledgers. Failure to reverse an entry in the accounting ledger will overstate expenditures and under-state the District's actual cash position. The General Manager has indicated that improvements to the check reconciliation process have been implemented. Identifying any additional prior year problems requires the completion of outstanding audit work.

Conclusions

The Newberry Community Services District (NCS D) has not completed annual financial audits for the previous three fiscal years (2009-2010, 2010-2011, and 2011-2012). State Government Code requires public agencies, including special districts, to conduct annual financial audits within 12 months of the end of each fiscal year. The Board of Directors failure to execute this responsibility is in noncompliance with California Government Code at Section 26909 and 61118 for 2009-2010 and 2010-2011. Further, while State Code requires the County Auditor-Controller to ensure such audits are completed, efforts to monitor and enforce this provision have had limited effectiveness.

Financial reports required by State Government Code to be filed with the State Controller's Office have been submitted by NCS D, but were based upon unaudited and unverified data. Contrary to State code requirements, the District's FY 2011-12 annual report of financial transactions to the State Controller has not been reviewed by an independent public accountant to ensure that it agrees with the official records of the District. The financial information that has been provided, while unaudited, indicates some financial instability, which further underlies the need for regular financial audits.

NCS D lacks basic accounting procedures and controls. Specifically, District does not have: (1) a hierarchical account numbering system; (2) a financial or accounting manual; or, (3) a consistent system to classify expenditures carried out by the District. Further, the District lacks a consistent method for authorizing, classifying, and documenting expenditures from purchase cards.

Recommendations

The Newberry Community Services District Board of Directors should direct the General Manager to:

- 4 Re-adopt a numerical and hierarchical account numbering structure for use in the District's general ledger and income statement.
- 5 Work with the Board, County Auditor, and utilize resources such as the California Special Districts Association to develop a basic accounting manual.

The Auditor Controller should:

- 6 Revise *Outside Audit Report* procedures to include corrective actions for special districts that do not comply with State audit requirements for an extended period of time. Such corrective actions could include conducting audits and billing the districts for Auditor-Controller staff time or hiring an outside certified public accountant to conduct the audit and billing the district for the accountant's work.
- 7 Work with the Newberry Community Services District General Manager to determine a feasible approach to complying with audit requirements established in State Government Code Section 26909. Such approaches could, with the *unanimous* request of the Board of Directors and the *unanimous* approval of the Board of Supervisors, include:

- (a) A biennial audit covering a two-year period;
- (b) An audit covering a five-year period, if the District's annual revenues do not exceed an amount specified by the Board of Supervisors; or,
- (c) An audit conducted at specific intervals, as recommended by the County Auditor-Controller, which shall be completed at least once every five years.

Costs and Benefits

The costs of implementing with these recommendations would include District staff time to draft and adopt policies and procedures.

The benefits of implementing these recommendations would include stronger controls over accounting and management of the District's finances and greater transparency in the reporting of the District's financial condition. The benefits would also include compliance with State Government Code audit requirements for special districts.

3. Internal Controls

According to the Government Finance Officers Association (GFOA), the purpose of internal controls is to protect government's financial and capital assets against the potential risk of loss or misuse. Further, internal controls are needed to ensure that all financial transactions are properly authorized and data in financial reports are reliable. Although there are references to internal controls in the NCSO By-laws and Policy Handbook, they are (1) insufficient for ensuring that the District's assets are protected against potential loss or misuse and (2) are not consistently implemented by District Board members and personnel.

Deficient Internal Controls for District Expenditures

NCSO revenues are used to procure materials, supplies and services for District business through purchase cards, contracts with outside contractors and consultants, and reimbursement of expenses made by District Board members and personnel. The Policy Handbook requires various protocols for approval of such expenditures, along with sufficient documentation to ensure that expenditures were appropriately tied to District business. However, sufficient documentation of required approval and/or explanations for the appropriateness of the expenditures were not always provided to the Grand Jury.

CAL-Card Purchase Cards

The California Department of General Services has a Master Services Agreement (MSA) with U.S. Bank for purchase card services. Local tax funded agencies such as the District are able to participate in the MSA and obtain CAL-Cards (purchase cards) by submitting required documentation, including a signed Local Agency Addendum to the MSA. Advantages of participating in the CAL-Card program include: (1) no cost for participation; (2) rebates for average transactions, volume sales and prompt payment; and, (3) streamlined purchases by eliminating the need for extensive advertising, bidding and contracting procedures.⁴

Insufficient Internal Control Policies and Procedures

In accordance with the U.S. Bank CAL-Card Program Administrator Guide, the District adopted purchase card policies on July 26, 2011.⁵ However, based on a comparison with GFOA recommended internal control best practices for purchase cards, these policies are not adequate to ensure that the District can minimize the risk of costly, unnecessary, and/or inappropriate purchases. Table 3.1 below illustrates that the District lacks a few key internal control policies such as spending and transaction limits, reconciliation procedures, and a process for handling disputes and unauthorized purchases.

⁴ California Department of General Services, CAL-Card (Purchase Card), <http://www.dgs.ca.gov/pd/Programs/CALCard.aspx>

⁵ District Policy Handbook: Policy Number 3075.

Table 3.1**Government Finance Officer Association (GFOA) Best Practices vs. District Purchase Card Policies**

GFOA Best Practices	District Policy Number 3075	Grand Jury Comments
Clear guidelines on the appropriate use of purchasing cards	3075.3.2 All purchasing card expenses shall be reasonable and necessary to the furtherance of District business. No personal expenses shall be charged on a District purchasing card.	
Spending and transaction limits for each cardholder, both per transaction and on a monthly basis		Spending and transaction limits ensure that the District has sufficient funds to pay for expenditures. The Policy Handbook fails to mention spending limits. The District did not provide the Grand Jury with additional internal usage guidelines for purchase cards.
Review and approval process	3075.3.3¹ The Treasurer shall review and approve purchasing card transactions by the cardholders.	
Timely reconciliation by cardholders and supervisors		Reconciliation includes verifying that purchased goods and services were received, acceptable, and charged appropriately in the purchase card statement. The Policy Handbook fails to mention reconciliation policies and procedures.
Retention of sales receipts and documentation of purchases	3075.3.3¹ All purchase card expenses shall have third-party documents (receipts) attached and the District purpose annotated by the cardholder.	
Segregation of duties for payment approvals, accounting, and reconciliation	3075.3 A purchasing card shall be issued to the General Manager and the Treasurer. Purchasing cards shall not be issued to members of the Board of Directors without a majority vote of approval by the Board. 3075.3.3¹ (Above)	Although both the General Manager and Treasurer are issued a purchase card, only the Treasurer shall review purchases. This is a failure to segregate approval of use from actual use. The Policy Handbook fails to mention reconciliation policies and procedures.
Procedures for handling disputes and unauthorized purchases		If reconciliation occurs on a consistent basis and errors are identified, there should be a process for preventing payment for unauthorized or incorrect charges. The Policy Handbook fails to mention procedures for handling disputes and unauthorized purchases.

Source: "GFOA Best Practice: Purchasing Card Programs," Approved February 2011 and District Policy Handbook, 2012.

¹3075.3.3 is listed twice in the District Policy Handbook.

Segregation of Duties

The District is in violation of the State MSA by allowing District Board members to be purchase cardholders, with a majority vote of approval by the Board.⁶ The MSA explicitly states that the CAL-Card Program is available for use by individual government employees. Pursuant to California Government Code 6140, Board members are responsible for determining policies such as budgets and programs, while the General Manager, a government employee, is responsible for implementing them.

Despite the segregation of duties between policy making and implementation of those policies, such as making purchases, two District Board members⁷ were issued purchase cards and incurred \$10,059 and \$7,985, or a total of \$18,044 in expenditures in FY 2011-12. This represents approximately 25 percent of the total FY 2011-12 expenditures of \$70,767 incurred through purchase cards. When District Board members make purchases of this magnitude, the General Manager and/or Treasurer, as government employees, are placed in an awkward position of approving expenditures for those with the power to terminate their employment. Such conditions diminish the District's ability to effectively implement internal controls.

The State Master Services Agreement and U.S. Bank CAL-Card Program guides identify at least four distinct roles and their respective duties within any agency participating in the purchase card program. The segregation of duties prevents any single person from taking advantage of the purchase card program to make unauthorized and/or personal purchases. In contrast, the District Policy Handbook identifies the General Manager, Treasurer, and any other potential cardholder, but the duties of each are not as clearly defined or segregated.

According to the MSA participating agencies should have the following:

- **Program Coordinator/Administrator:** An individual responsible for management and oversight of the purchase card program, including following contract terms, ensuring timely payment of invoices, developing and enforcing agency policy, procedures and training. A Purchasing Officer or equivalent typically maintains this position.
- **Approving Official:** An individual responsible for monitoring, reviewing, and approving the purchases of assigned cardholders. A Budget Manager for which the funds are to be expended by the assigned cardholders typically maintains this position.
- **Billing Officer:** An individual responsible for the timely management and oversight of the invoice reconciliation and payment process. An Accounting Officer or equivalent typically maintains this position.
- **Cardholder:** An individual designated by the Program Coordinator/Administrator and Approving Official to receive a purchase card and make purchases.

⁶ Approval by the Board of Directors assumes a "yes" vote by at least two Board members, the minimum number of members to achieve a majority when there are three Board members present to establish quorum and take action.

⁷ As of the writing of this report, the Grand Jury could not verify if the two Board members received the necessary approval from other Board members to receive purchase cards.

The District is violating the best practice of segregating duties because the Treasurer appears to serve in at least three of the above roles and perform the following duties simultaneously: (1) recommending internal usage guidelines for the purchasing cards to the Board for approval (Program Coordinator/Administrator duty), (2) approving purchases of assigned cardholders (Approving Official duty), and (3) making purchases on behalf of the District with an issued purchase card (Cardholder duty). Additionally, no personnel are explicitly assigned invoice reconciliation and payment responsibilities (Billing Officer duty) in the District Policy Handbook. It is more appropriate for the General Manager to serve in the function of Program Coordinator/Administrator and Approving Official while the Treasurer serves as the Billing Officer.

Because of the small size of the District, it may be acceptable to issue purchase cards to both the General Manager and Treasurer. However, approving and reconciling purchases should be conducted by someone other than the person making purchases, as recommended by GFOA best practices. Therefore, if both the General Manager and Treasurer continue to make purchases with issued purchase cards, the Treasurer should approve and reconcile the General Manager's purchases and vice versa.

The District should revise its Policy Handbook to (a) exclude Board members as purchase cardholders and (b) include internal controls such as (i) spending and transaction limits; (ii) clearly segregated duties for approving, executing, and reconciling purchases among the General Manager, Treasurer, and other purchase cardholders; and, (iii) a process for handling disputes and unauthorized purchases. Purchase cards issued to Board members should be subsequently relinquished. Additionally, the General Manager should train all staff involved in the purchase card program of the new and revised purchase card policies.

Inconsistent Implementation of Policies and Procedures

In addition to lacking key internal controls for purchase card expenditures, the District has failed to provide consistent documentation to ensure that the internal controls that do exist are executed and serving its purpose(s).

Lack of Receipts make it Difficult to Conclude Appropriate Expenditures

The District spent \$70,767 in FY 2011-12, but the District did not provide receipts explaining what individual charges on the U.S. Bank statements were for. Without such documentation, it is impossible to verify if the charges met the Policy Handbook's criteria of "reasonable and necessary" expenses for District businesses or if personal expenses were charged to the purchase cards and paid for with District tax dollars. For example, typical purchase card expenditures in FY 2011-12 included fuel at a gas station. However, there was an instance when one cardholder made three separate fuel purchases on the same day. Without documentation and further explanation, it is difficult to determine if significant travel for district business occurred on the same day, requiring multiple fueling, or if multiple cars, including personal cars, were fueled with the same District purchase card. Going forward, the Treasurer or General Manager should not approve payment of purchase card transactions without the submission of sufficient documentation demonstrating the appropriateness of the purchase(s). If a cardholder fails to timely submit receipts and other documentation, the cardholder should be held responsible for paying the purchase with their own funds and any subsequent late fees or penalties caused by delays in submitting receipts and/or payment.

Significant Expenditures Occurred without Board Approval

In September of 2011, a single transaction totaling \$11,277 was charged for a purchase from NUVAIR. Three additional purchases from NUVAIR occurred on the same date, resulting in a total of \$12,587 charged to the same purchase card. The initial transaction and aggregate transactions for the same vendor exceed \$5,000. District Policy 3040.2 states that any purchase or expense greater than \$5,000 must be submitted to the Board of Directors for approval. However, approval for the NUVAIR purchase was not recorded in Board meeting minutes. Therefore, internal controls are insufficient to ensure that purchase card transactions comply with other District expenditure policies.

Lack of Timely Payments of Billing Statements

Although the Policy Handbook requires that all purchase card bills shall be paid in a timely manner to avoid late fees and finance charges, half of the billing statements in FY 2011-12 showed that a payment was not previously submitted. The District was not charged any late penalties or fees because their subsequent payments still met the terms of the purchase card agreement. According to the State MSA, the full amount of each participating agency's monthly balance or billing cycle, with the exception of reported fraud or disputed items, is due within 45 days⁸ from the billing cycle date of the invoice. According to District personnel and Board members, payments for a billing statement were made after receiving the subsequent billing statement(s) due to the lack of verification of expenditures.

The General Manager should be designated the role of Program Coordinator/Administrator and ensure that purchase cards are paid in a timely manner. By (a) imposing spending and transaction limits and (b) requiring either the General Manager or the Treasurer approve all purchases prior to incurring actual costs based on the (i) appropriateness of the purchase and (ii) availability of funds, the District can ensure that there are sufficient funds available to pay for all expenditures. By requiring cardholders to pay for any charges that do not have sufficient documentation to justify and verify purchases on the bank statement, the District should have sufficient documentation to reconcile and pay the bank statements in a timely manner and/or have an additional source of revenue, other than District tax dollars, to pay for disputed or unauthorized purchases.

Outside Contracts and Consultants

Requiring Board approval for consultant contracts and expenditures over \$5,000 is an essential internal control to ensure that significant funds are not committed to consultants or vendors that are unqualified, unnecessarily costly, and/or participants in fraud or abuse. Open, public discussions among Board members regarding contracts and expenditures could provide a control to help prevent Board members from personally benefiting from the selection of particular contractors or consultants. The General Manager should diligently review consultants or vendors with a single invoice over \$5,000, or multiple invoices that, together, exceed \$5,000 to ensure that they have a contract or total expenditure approved by the Board of Directors at a meeting. If the contract was not approved by at least two Board members, or no contract exists, steps should be taken to bring the procurement into compliance with the Policy Handbook.

⁸ The total number of days could be adjusted depending on the postmark date of the invoice and/or payment.

Reimbursements

While the Policy Handbook may allow reimbursements of expenses directly related to District business, the Board appears to have violated its policies by allowing a Board member to be reimbursed for a personal cell phone and internet bill on May 26, 2012. Policy 2270.3.18 states that the District is not responsible for maintaining or payment of personal internet accounts or related software. Additionally, the District By-laws state that Board members may authorize reimbursement for expenditures made for “operating supplies, or new and replacement items for office use and also for travel expenses.”⁹ The Board members approved the disbursement and the General Manager issued a check equivalent to the entire amount of a personal cell phone and home internet bill. Even if some of the personal cell phone and home internet services were used for District business, there was no additional documentation to justify what portion of the cell phone and home internet bill justified reimbursement.

To improve enforcement of District policies and enhance internal controls against inappropriate use of District funds, the General Manager should review all requests for reimbursements, including supporting documentation, against the policies and procedures in the District Policy Handbook. Further, all Board members should carefully review the list of disbursements to be approved on the consent agenda prior to the scheduled Board meeting and (a) discuss questionable disbursements with the General Manager and/or (b) request to pull questionable disbursements from the consent agenda for public discussion and review.

Violations of other Policies Indicate Weak Internal Controls

The Board of Directors has approved District policies to ensure efficient, effective and economical District operations and use of tax funds. However, violations of these policies expose the District to the risk of misuse of tax funds through poor and weak operations.

Lack of a District Legal Counsel Log

In 2009, the Board of Directors adopted a policy to maintain a log of all communication with District Legal Counsel, including the date of the communication, method of communication, and approximate length of time for communication for telephone and in-person communications. However, District personnel reported that no such log was available. The log is supposed to serve as a tool for District personnel to verify District Legal Counsel invoices and expenditures. The Policy Handbook restricts communication with District Legal Counsel to the President of the Board or his/her designee. Therefore, the log also serves as a tool for other District personnel and Board members to be aware of the frequency of District Legal Counsel communication and question any possible misuse of District Legal Counsel for personal benefit, *before* receiving a bill. The District should immediately establish a District Legal Counsel Log to be in compliance with the Policy Handbook and maintain an important control over legal expenditures.

Lack of a Policy Handbook for the Fire Department

A policy handbook, specifically for the operation of the Newberry Springs Fire Department, has not been adopted by the Board, even though a Board policy adopted in 2009 requires one. A

⁹ District By-laws, Article III, Internal Organization, #15.

draft policy handbook for the Fire Department was initiated in 2012, three years after the adoption of the policy. However, approval of the policy is not recorded in Board meeting minutes in 2012 or 2013, as of the writing of this report. The GFOA recognizes that establishing policies and procedures is a critical element of creating and maintaining internal controls. Without policies and procedures, the District cannot ensure that the Fire Department is operating efficiently, nor can it adequately evaluate the performance of Fire Department personnel, including the Fire Chief. The District should immediately adopt a policy handbook for the Fire Department.

Poor Implementation of Record Retention Policies

Despite having guidelines in the Policy Handbook for record retention, the manner in which District records are stored and maintained make it difficult to ascertain whether the District is: (i) providing for the identification, maintenance, safeguarding and disposal of records in the normal course of business; (ii) ensuring prompt and accurate retrieval of records; and, (iii) ensuring compliance with legal and regulatory requirements.

During the course of the investigation, the Grand Jury experienced significant delays in retrieving critical documents. For example, a subpoena was issued in September, 2012 for the latest version of Board approved By-laws and Policies and Procedures. Board approval was initiated on January 24, 2012, although items were not fully remitted to the Grand Jury until March 5, 2013, after a subsequent request in February 2013. However, according to the District's retention record policy, adopted pursuant to California Government Code 60201,¹⁰ these records should be with District personnel and maintained to ensure "prompt and accurate retrieval." Grand Jury members observed several unmarked cardboard boxes in various locations throughout the District office that contained District records, and there was no central log describing the contents of each box and their location, potentially contributing to the delay in record retrieval.

The lack of a proper records management system impedes any third party's ability to determine if the District has been complying with laws and regulations. In contrast, the Secretary of State's guidelines on record management state that proper record management is beneficial because it improves customer service, increases staff efficiency, and allocates scarce resources. The District should catalog all remaining records by category and the catalog should remain in a central location that is easily accessible by District personnel. Any records that exceed the retention periods adopted in the District's policies should also be disposed of.

Staff Vacancies Contribute to Weak Internal Controls

The management staff of the NSCD has been unstable in recent years, with multiple resignations and terminations by the Board of key personnel within the organization. This pattern has been particularly apparent in 2012, as follows:

- The previous General Manager, who also performed the functions of Board Secretary and Treasurer due to vacancies, resigned and was rehired twice during 2012. A third resignation,

¹⁰California Government Code 60201 states that the legislative body of districts may adopt a record retention schedule that complies with guidelines provided by the Secretary of State. It also prohibits districts from destroying certain records, including minutes of any Board meetings.

in July 2012, resulted in the hiring of the current General Manager in October 2012, who resigned on May 22, 2013. The position was vacant at the time this report was finalized.

- The Treasurer position has been vacant since April 2012 and the duties have been assumed temporarily by a member of the Board.
- The Fire Chief, who had been employed by the District since at least 2007, was dismissed by the Board in March 2012. An Interim Fire Chief, hired shortly after the previous incumbent, was dismissed six months later in September 2012. His replacement, a second Interim Fire Chief hired in September, was dismissed by the Board five months later in February 2013. The position of Fire Chief remains vacant, as of the writing of this report, with day-to-day management duties being assumed by a Fire Captain.

With only eight authorized positions, this amount of turnover at the highest levels of the organization is disruptive to operations and result in short-term weaknesses in internal control.

According to testimony received during the Grand Jury's investigation, the Board generally terminated employees due to performance concerns expressed by some members. Conversely, some resignations have reportedly occurred because of the dysfunction of the Board and an environment where individuals feel as though they have been treated unfairly. This was alleged by the Fire Chief in his March 2012 resignation letter, who stated that his resignation was, in part, due to ". . . the public fights and bickering so prevalent on the Board."

According to other testimony, it is sometimes difficult to recruit employees because of the remote location of the NCSO, the small size of the organization, the limited number of hours and pay offered to employees, and other factors. In addition, given recent turnover history and the culture of the organization, some prospective employees may be reluctant to apply. For example, statements were made that hiring a new Fire Chief has been difficult because of the limited number of potential applicants and the recent history of terminations.

Although a close examination of these factors could not be conducted, given the limited resources available to the Grand Jury, the impacts on the organization have been substantial. As stated separately in this section, the breakdown in internal controls has been significant in some instances and the ability of the organization to respond by reassigning functions or implementing compensating controls is limited.

In July 2009, the Local Agency Formation Commission (LAFCO) of San Bernardino County issued a *Service Review and Sphere of Influence Update for the Newberry Community Service District*. Among the various observations made in that report, it was suggested that possible improvements should be examined, including: (1) removing the NCSO fire protection powers from the District and reassigning them to the County; or – more substantially – (2) consolidating the NCSO with two adjacent community services districts, to allow for "economies of scale and provide the opportunity for streamlined governance and compliance with CSD law." These two suggestions merit further review, and more robust analysis of governance and reorganization options should be included in LAFCO's next Service Review of the District, scheduled for 2014.

NCSD Needs an Adequate Capital Asset Management System

The District's management of capital assets is weak compared to GFOA best practices to ensure that entities assess assets, appropriately plan, and budget for any capital maintenance and replacement needs. According to District personnel, an inventory of capital assets only occurs at the time, and with the assistance, of the annual audit. There is no Capital Asset Management System to record the date an asset was purchased, the condition it was in at the time of purchase, warranties, maintenance history, usage statistics, original useful life, remaining useful life, and replacement costs. Such information is important for District personnel and the Board to review when making key decisions, such as whether to approve an agreement for the consignment and sale of a water tender that was obtained in 2009, or to pursue the various repairs for equipment charged to purchase cards in FY 2011-12. In addition, an adequate Capital Asset Management System should prevent loss or misuse of capital assets through central recording and inventory control. The District should establish a Capital Asset Management System.

Conclusions

The District has By-laws and a Policy Handbook that contain some internal controls to help protect the District's financial and capital assets against the potential risk of loss or misuse. However, these policies remain insufficient for minimizing risk exposure to potential fraud and abuse. For example, the District's policies on purchase cards do not include spending and transaction limits to ensure that there are sufficient funds to pay for expenditures, segregate duties of purchase approvals and reconciliation to prevent potential fraud, or provide mechanisms for handling disputes and unauthorized charges.

In addition, the policies adopted to establish internal controls are not consistently implemented by Board members and District personnel, further exposing the District to unnecessary costs and potential misuse of District tax dollars for personal benefits. Violations of policies that indicate weak internal controls include:

- The lack of documentation for purchase card expenditures;
- Significant expenditures made with purchase cards without required Board approval;
- Lack of timely payments for purchase card billing statements to avoid potential penalties and fees;
- Reimbursement of expenses without sufficient documentation to ensure they were for District business; and,
- The lack of several key documents and tools such a log of all communication with District Counsel, a policy handbook for the Fire Department, and a catalog of retained District records.

Multiple resignations and terminations by the Board of key personnel within the organization during the audit period coincided with breakdowns in internal controls and the ability of the

organization to respond by reassigning functions or implementing compensating controls is limited.

Finally, the District does not have an adequate Capital Management Asset System to control inventory and record key information central to making maintenance and replacement decisions.

Recommendations

The Board of Directors should:

- 8 Revise its purchase card policies to:
 - (a) Exclude Board members from the use of purchase cards in order to be in compliance with the State Master Services Agreement for purchase cards, subsequently relinquish any purchase cards currently issued to Board members, and
 - (b) Include additional policies to ensure that there are sufficient funds for paying authorized purchase card transactions, prevent potential fraud and abuse through unauthorized and/or inappropriate purchases, and avoid unnecessary penalties and fees from late payments, such as:
 - (i) Spending and transaction limits for each cardholder;
 - (v) Clearly segregated duties for approving, executing, and reconciling purchases among the General Manager, Treasurer, and other purchase cardholders;
 - (vi) A process for handling disputes and unauthorized purchases; and,
 - (vii) A requirement that purchase cardholders use personal funds to pay for transactions that lack the timely submission of sufficient documentation of the transaction and purpose, as well as any subsequent penalties and fees that result from the delay in submitting such documentation.
- 9 Diligently review the list of disbursements to be approved on the consent agenda prior to scheduled Board meetings and (a) discuss questionable disbursements with the General Manager and/or (b) request to pull questionable disbursements from the consent agenda for public discussion and review.

The General Manager should:

- 10 Train all participants in the purchase card program on the new and revised policies and procedures for purchase cards.
- 11 Review consultants or vendors with a single invoice over \$5,000, or multiple invoices that, together, exceed \$5,000 to ensure that they have a contract or total expenditure

approved by the Board of Directors at a meeting. If the contract was not approved by at least two Board members, or no contract exists, steps should be taken to bring the purchase(s) into compliance with the Policy Handbook.

- 12 Carefully review all requests for reimbursements, including supporting documentation, against the policies and procedures in the District Policy Handbook prior to approval.
- 13 Establish the following to ensure that the District is in compliance with the Policy Handbook and maintains adequate internal controls:
 - (a) District Legal Counsel Log;
 - (b) Policy handbook for the Fire Department; and,
 - (c) Catalog of all retained District records.
- 14 Establish a Capital Asset Management System that records capital asset information such as the purchase date, condition it was in at the time of purchase, warranties, maintenance history, usage statistics, original useful life, remaining useful life, and replacement costs.

The Local Agency Formation Commission (LAFCO) should:

- 15 Review suggestions made in its 2009 report and include more robust analysis of governance and reorganization options for the next Service Review of the District, scheduled for 2014.

Costs and Benefits

Implementing these recommendations will require additional staff time, but should be done with existing resources.

Proper internal controls over District expenditures through purchase cards, contracts, and reimbursements should prevent subsequent unauthorized, inappropriate or unnecessary costs. Additionally, a good records management system would help the District (i) increase staff efficiency when key documents are easily accessible and (ii) ensure compliance with legal and regulatory requirements.
