Most Common Violations – January 2012 to April 2013

Critical Violations vs. Non-Critical Violations

January 2012 to April 2013

- 29% of all pool/spa violations written were for critical violations
 - Critical violations were written 3,852 times in the last year out of the 13,455 total violations written
- 896 pools/spas were closed during this same time period
 - Pools/spas are closed when critical violations are not corrected while the inspector is onsite at the facility
