			ACTION: 03 - REINSPECTION REQUIRED	

MOSQUITO AND VECTOR CONTROL - Poultry Ranch Permit ALL

No Violations Cited

Overall Inspection Comments

Inspection found flies light outside of ranch at time of inspection.

Adult flies moderate on ranch with a noticed decrease from prior inspection. Pesticide log not used, discussed with operator to record all pesticide applications.

Larval breeding also decreased. Only found active breeding at cage break in middle of house 8 and at cup leak at house 4. Ranch operator fixed cup during inspection. Spot treated for active breeding.

Misters on during inspection. Water present throughout ranch however all wet manure has been treated and no active larva found.

Dead birds collected and placed in barrels with lids. No active breeding found in barrels.

No new violations observed.
