MOSQUITO AND VECTOR CONTROL - Poultry Ranch Permit ALL

40K988 City of Yucaipa - MMP

Compliance Date: Not Specified

Inspector Comments:

Not In Compliance

Reference - CCR - 216

Description: This poultry ranch is in compliance with the City of Yucaipa Ordinance Number 216.

Overall Inspection Comments

Inspection found:

Adult fly population was medium to heavy at the time of inspection.

The pesticide log showed only Larvadex last applied on 5/7/15 and no other products being used. An adulticide needs to be used daily until fly population is light. The pesticide log needs to show product name, application date, name of applicator, amount used and total square footage applied to or which houses were treated.

No water system leaks were observed but many wet manure areas were present. The wet areas need to be treated with lime and a larvacide. The large piles of manure outside were heavily breeding around their base from the last rain. Be sure you treat these areas after any rain and tarp them during any rain.

The adult fly bait stations still are not working or adequate for the ranch. No flies were observed in them. It is important that they are working at full potential.

The ranch is in compliance at this time but the above concerns must be addressed if it is to remain so. I'll be reinspecting next week.
