Overall Inspection Comments

Inspection found:

Adult fly population was medium to heavy at the time of inspection.

Pesticide log showed something used on 5/19/15 and that's all.

Many wet spots in the manure were present with no lime being used.

Adult fly bait stations aren't working and are not adequate for the ranch.

The ranch is not in compliance and this inspection will be billed at the county rate of \$245/ hr. I'll be reinspecting on 6/1/15. These issues must be fixed right away before the flies are out of control again.
