Not In Compliance

Reference -

Description:

Overall Inspection Comments

Inspection found adult fly population moderate to heavy on ranch. Weather 83 degrees humid and overcast. Pesticide log recorded continued twice daily adulticide spraying. No active water system leaks. Cooling system not being used at time of inspection. Areas of wetness from prior leaks need to be treated with Neporex. Observed new breeding in wet spots. Drying pad is drying well. Manure is being thin spread and turned often. Minimal breeding observed on pad. Vector Control spot treated areas with breeding.

Continued twice daily adulticiding and spot treat wet areas in houses for new breeding.
