

SUPPLEMENT SPHERE OF INFLUENCE CHANGE

INTRODUCTION: The questions on this form are designed to obtain data about the specific sphere of influence change proposal to allow the Commission, staff and others to adequately assess the project. You may also include any additional information that you believe is pertinent. Use additional sheets where necessary, and/or include any relevant documents.

1. Please provide an identification of the agencies involved in the proposed sphere of influence change(s):

SPHERE EXPANSION

Option 1 : Coterminous with Inland Empire
Utilities Agency sphere

SPHERE REDUCTION

Option 3: Zero Sphere of Influence

Option 2: Encompass Chino Groundwater Basin
in San Bernardino County

2. Provide a narrative description of the following factors of consideration as outlined in Government Code Section 56425. (If additional room for response is necessary, please attach additional sheets to this form.)

The present and planned land uses in the area, including agricultural and open-space lands.

Land uses include the full range including but not limited to residential, parks,
institutions, commercial, industrial, office, open space, transportation, and utilities.

The present and probable need for public facilities and services in the area.

The Chino Basin WCD has long provided water conservation sustainability services to its
constituents through demonstration and education. Expanding the sphere would bring the educational
opportunities to a much broader constituency. Continuing recharge activities in concert with IEUA and
County Flood Control District are necessary for ongoing sustainability of the water supply.

The present capacity of public facilities and adequacy of public services that the agency to be expanded provides or is authorized to provide.

The district's basins from FY 2005-06 through FY 2012-13 captured and recharged an average of 9,848 acre-feet
of water. Of the 9,848 acre feet of water captured, the annual average includes 2,411 acre-feet of storm and nuisance
water ; 1,058 acre-feet of recycled water; and 6,378 acre-feet of imported water. The Chino Basin WCD has long
provided water conservation sustainability services to its constituents through demonstration and education

The existence of any social or economic communities of interest in the area.

Communities of interest include the cities of Chino, Chino Hills, Fontana, Montclair, Ontario ,
Rancho Cucamonga, and Upland, and unincorporated areas of San Bernardino County.

The present and probable need for public facilities or services related to sewers, municipal and industrial water, or structural fire protection for any disadvantaged unincorporated community, as defined by Govt. Code Section 56033.5, within the existing sphere of influence.

This factor is not applicable to the services that the district provides.

3. If the proposal includes a city sphere of influence change, provide a written statement of whether or not agreement on the sphere change between the city and county was achieved as required by Government Code Section 56425. In addition, provide a written statement of the elements of agreement (such as, development standards, boundaries, zoning agreements, etc.) (See Government Code Section 56425)

4. If the proposal includes a special district sphere of influence change not considered to be minor, provide a written statement: (a) specifying the function or classes of service provided by the district(s) and (b) specifying the nature, location and extent of the functions or classes of service provided by the district(s). (See Government Code Section 56425(i))

Function - Water Conservation. Service Description - Groundwater replenishment and
water conservation activities, which include water conservation education functions

Education services are provided throughout the district, and water replenishment is provided
within the district's boundaries.

5. For any sphere of influence amendment either initiated by an agency or individual, or updated as mandated by Government Code Section 56425, the following service review information is

required to be addressed in a narrative discussion, and attached to this supplemental form (See Government Code Section 56430):

- a. Growth and population projections for the affected area.
- b. Location and characteristics of disadvantaged unincorporated communities within or contiguous to the sphere of influence.
- c. Present and planned capacity of public facilities and adequacy of public services, including infrastructure needs or deficiencies, including those associated with a disadvantaged unincorporated community.
- d. Financial ability of agencies to provide services.
- e. Status of, and opportunities for, shared facilities.
- f. Accountability for community service needs, including governmental structure and operational efficiencies.

If additional sheet are submitted or a separate document provided to fulfill Item #5, the narrative description shall be signed and certified by an official of the agency(s) involved with the sphere of influence review as to the accuracy of the information provided. If necessary, attach copies of documents supporting statements.

CERTIFICATION

As a part of this application, the city of _____, or the _____ district, LAFCO (the applicant) and/or the _____ (real party in interest: subject landowner and/or registered voter) agree to defend, indemnify, hold harmless, and release the San Bernardino LAFCO, its agents, officers, attorneys, and employees from any claim, action, proceeding brought against any of them, the purpose of which is to attack, set aside, void, or annul the approval of this application or adoption of the environmental document which accompanies it. This indemnification obligation shall include, but not be limited to, damages, costs, and expenses, including attorney fees. The person signing this application will be considered the proponent for the proposed action(s) and will receive all related notices and other communications. I/We understand that if this application is approved, the Commission will impose a condition requiring the applicant to indemnify, hold harmless and reimburse the Commission for all legal actions that might be initiated as a result of that approval.

I hereby certify that the statements furnished above present the data and information required to the best of my ability, and that the facts, statements, and information presented herein are true and correct to the best of my knowledge and belief.
