

San Bernardino LAFCO Releases Update to Fiscal Indicators Program

JANUARY 5, 2016

San Bernardino LAFCO has released an update of its *Fiscal Indicators* program to include data for fiscal years 2012-13 and 2013-14. The initial release included fiscal years 2007-08 through 2011-12. The program is accessible via the LAFCO website (www.sbclafco.org).

The purpose of the program is to provide more robust information on the financial condition of local agencies within San Bernardino County which will allow for better understanding of where an agency has been. Each indicator includes an Agency Comment section to provide clarification by an agency on the data presented, although the agencies are not required to provide a comment.

Additionally, LAFCO will use the information in conducting its state-mandated service reviews as a means to make the required determination of the financial ability of an agency to provide services. The *Fiscal Indicators* program is maintained and updated annually by LAFCO and made publically accessible on the LAFCO website.

For more information, please contact the LAFCO office at 909-388-0480 or lafco@lafco.sbcounty.gov.
