Subject: Cultural Resources Records Search for a Proposed Solar Photovoltaic Facility in the City of Victorville, San Bernardino County, California (BCR Consulting Project No. EPD1402)

Dear Rafik:

BCR Consulting LLC (BCR Consulting) was retained by EPD Solutions, Inc. to complete a cultural resources records search and Native American Consultation for a Proposed Solar Photovoltaic Facility (the project site) in the City of Victorville, San Bernardino County, California. The proposed project site is located in the southwest quarter of Section 23, Township 6 North, Range 4 West, San Bernardino Baseline and Meridian and is depicted on the Victorville, California (1993) United States Geological Survey (USGS) 7.5-minute topographic quadrangle (Attachment A). The purpose of this study was to identify previously recorded prehistoric or historic-period resources located within one mile of the proposed project site, and to note what types of resources might be expected to occur within its boundaries. This report also includes cultural resource recommendations pursuant to the California Environmental Quality Act (CEQA), and documents any known Sacred Lands or project-related concerns received from communications with the Native American Heritage Commission, and with Native American groups and individuals (Attachment B).

Cultural Resources Records Search

BCR Consulting Field Director Daniel Leonard (PhD) conducted the cultural resources records search at the San Bernardino Archaeological Information Center (SBAIC). The records search included a review of all recorded historic and prehistoric archaeological sites, as well as recorded built environment resources within one mile of the project site. The research also reviewed known cultural resource reports completed in the vicinity. Results indicate that 27 cultural resource studies have taken place resulting in 17 cultural resources recorded within one mile of the project site. Five of the previous 27 studies have occurred within or partially within the project site, resulting in two cultural resources previously recorded within its boundaries. The resources located within the project site boundaries include the historic-period Stoddard Wells Road (designated CA-SBR-9360), and a historic-period transmission alignment (P-36-10315). CA-SBR-9360 was recorded and evaluated and found not eligible for listing in the California Register of Historical Resources (California Register) in 2006 (Hathaway 2006), and P-36-10315 was recorded but not evaluated for California Register eligibility in 2011. The records search results are summarized in Table A.
Table A. Records Search Results

<table>
<thead>
<tr>
<th>USGS 7.5 Minute Quad</th>
<th>Cultural Resources</th>
<th>Cultural Resource Reports</th>
</tr>
</thead>
</table>

*Within or partially within the project site.

Review of recent aerial photographs and topographic maps indicates that the project site has not been subject to significant disturbance related to the Victorville Landfill (Google Maps 2014; USGS 1993).

Summary and Recommendations

Two historic-period resources (P-36-103145 and CA-SBR-3960) are known to exist within the project site boundaries. Neither of these has been evaluated for California Register eligibility within the past five years (Hathaway 2006, and Lev-Tov and Kremkau 2011), and therefore significance under CEQA is not known. Also, although the project site has been subject to numerous cultural resource studies, none of these has occurred within the past five years. Changing field conditions require that cultural resource surveys and eligibility recommendations of historical resources be periodically updated. Although changing field conditions can vary significantly from site to site, cultural resource updates are typically required five-years after completion of the most recent study (see Office of Historic Preservation 1995:2, and California Public Resource Code Section 5024.1, Subdivision [g] part [4]).

If proposed project activities will not directly impact the two historic-period resources, no additional or updated evaluation of these resources is warranted. However, if proposed project activities will directly impact the two historic-period resources within the project site, they should be evaluated for California Register eligibility. Additionally, prior to the commencement of any ground-disturbing activities proposed within the project site, previous cultural resource assessments completed within the project site should be updated with a current field study. The field study should focus on sampling portions of the project site with a high likelihood for cultural resource sensitivity. All cultural resources work should be completed under the supervision of a professional that meets the Professional Qualification Standards for Cultural Resource Management (archaeology) set forth by the U.S. Secretary of the Interior.

If human remains are encountered during activities associated with the proposed project, State Health and Safety Code Section 7050.5 states that no further disturbance shall occur until the County Coroner has made a determination of origin and disposition pursuant to Public Resources Code Section 5097.98. The County Coroner must be notified of the find immediately. If the remains are determined to be prehistoric, the Coroner will notify the Native American Heritage Commission (NAHC), which will determine and notify a Most Likely Descendant (MLD). With the permission of the landowner or his/her authorized
representative, the MLD may inspect the site of the discovery. The MLD shall complete the inspection within 48 hours of notification by the NAHC.

NATIVE AMERICAN CONSULTATION
Hi Gayle,

I’d like to request a Sacred Lands File search and list of potentially interested tribes for the proposed Victorville Landfill Solar Project located in unincorporated San Bernardino County, California. The subject property is located as follows (SBBM; see also attached project location map):

Township 6 North  
Range 4 West  
Section 23  
USGS 7.5 Minute Topographic Quad: Victorville, California (1993).

Please send the results and list to my email or the below fax number and please get in touch with any questions.

Thanks,

David Brunzell  
Principal Investigator/Archaeologist

Re: Victorville Landfill Solar Project, San Bernardino County.

Dear Mr. Brunzell,

A record search of the sacred lands file has failed to indicate the presence of Native American cultural resources in the immediate project area. The absence of specific site information in the sacred lands file does not indicate the absence of cultural resources in any project area. Other sources of cultural resources should also be contacted for information regarding known and recorded sites.

Enclosed is a list of Native Americans individuals/organizations who may have knowledge of cultural resources in the project area. The Commission makes no recommendation or preference of a single individual, or group over another. This list should provide a starting place in locating areas of potential adverse impact within the proposed project area. I suggest you contact all of those indicated, if they cannot supply information, they might recommend others with specific knowledge. By contacting all those listed, your organization will be better able to respond to claims of failure to consult with the appropriate tribe or group. If a response has not been received within two weeks of notification, the Commission requests that you follow-up with a telephone call to ensure that the project information has been received.

If you receive notification of change of addresses and phone numbers from any of these individuals or groups, please notify me. With your assistance we are able to assure that our lists contain current information. If you have any questions or need additional information, please contact me at (916) 373-3712.

Sincerely,

Katy Sanchez

Subject: Tribal Consultation for the Victorville Landfill Solar Project, San Bernardino County, California

Dear Lynn:

This is an invitation to consult on a proposed development project at locations with which you have tribal cultural affiliation. The purpose of the consultation is to ensure the protection of Native American cultural resources on which the proposed undertaking may have an impact. In the tribal consultation process, early consultation is encouraged in order to provide for full and reasonable public input from Native American Groups and Individuals, as consulting parties, on potential effect of the development project and to avoid costly delays. Further, we understand that much of the content of the consultation will be confidential and will include, but not be limited to, the relationship of proposed project details to Native American Cultural Historic Properties, such as burial sites, known or unknown, architectural features and artifacts, ceremonial sites, sacred shrines, and cultural landscapes. The proposed project is located in Section 23 of Township 6 North, Range 4 West, San Bernardino Baseline and Meridian. The property is depicted on the Victorville (1993), California 7.5-minute USGS topographic quadrangle, (see attached map).

If you know of any cultural resources in the vicinity that may be of religious and/or cultural significance to your community or if you would like more information, please contact me at 909-525-7078 or david.brunzell@yahoo.com. Correspondence can also be sent to BCR Consulting LLC, Attn: David Brunzell, 1420 Guadalajara Street, Claremont, California 91711. I request a response by September 5, 2014. If you require more time, please let me know. Thank you for your involvement in this process.

Sincerely,

BCR Consulting LLC

Subject: Tribal Consultation for the Victorville Landfill Solar Project, San Bernardino County, California

Dear William:

This is an invitation to consult on a proposed development project at locations with which you have tribal cultural affiliation. The purpose of the consultation is to ensure the protection of Native American cultural resources on which the proposed undertaking may have an impact. In the tribal consultation process, early consultation is encouraged in order to provide for full and reasonable public input from Native American Groups and Individuals, as consulting parties, on potential effect of the development project and to avoid costly delays. Further, we understand that much of the content of the consultation will be confidential and will include, but not be limited to, the relationship of proposed project details to Native American Cultural Historic Properties, such as burial sites, known or unknown, architectural features and artifacts, ceremonial sites, sacred shrines, and cultural landscapes. The proposed project is located in Section 23 of Township 6 North, Range 4 West, San Bernardino Baseline and Meridian. The property is depicted on the Victorville (1993), California 7.5-minute USGS topographic quadrangle, (see attached map).

If you know of any cultural resources in the vicinity that may be of religious and/or cultural significance to your community or if you would like more information, please contact me at 909-525-7078 or david.brunzell@yahoo.com. Correspondence can also be sent to BCR Consulting LLC, Attn: David Brunzell, 1420 Guadalajara Street, Claremont, California 91711. I request a response by September 5, 2014. If you require more time, please let me know. Thank you for your involvement in this process.

Sincerely,

BCR Consulting LLC

David Brunzell, M.A./RPA
Principal Investigator/Archaeologist
