Cypress, California 90630

Phone: 714-484-8600

Facsimile: 714-484-8601

Contract/Proposal: 0559126840

Authorization Date: June 19, 2014

Authorizing Party: Joe McKay

Site Information

Vacant Land
Slover Avenue
Bloomington, San Bernardino County, California
92316

Client Information

Client Name: JM Realty Group

Client Address: 3535 Inland Empire Blvd
Ontario, CA 91764

Site Assessor:

Paul Kim

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in 312.10 of this part. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Environmental Professional

Lloyd Guss

Principal Consultant

Lloyd Guss

CONTINUED VIABILITY/EXPIRY

ASTM E1527-13 provides that a conforming environmental site assessment completed less than 180 days prior to the date of the intended transaction is presumed to be valid.

Additionally, an environmental assessment for which the information was collected or updated within one year prior to the transaction may be used provided that the following components were conducted or updated within 180 days of the date of the transaction:

- interviews with owners, operators, and occupants;
- searches for recorded environmental cleanup liens;
- reviews of federal, tribal, state, and local government records;
- visual inspections of the subject property and of adjoining properties; and
- the declaration by the environmental professional responsible for the assessment or update.

Standard Guide E2600 for Vapor Encroachment Screening (VES), referenced in ASTM E1527-13 provides that the VES is subject to the same expiry schedule as those in the Practice.

1 FINDINGS AND CONCLUSIONS

Professional Service Industries, Inc. (PSI) performed a Phase I Environmental Site Assessment (Phase I ESA) of the property located at Slover Avenue between the streets of Laurel Avenue and Locust Avenue in Bloomington, California.

PSI performed the Phase I ESA in general conformance with ASTM E1527-13 (the Practice). Limitations, exceptions and deviations from this protocol are discussed in Section 3. Our ESA services also conform to the prior version of the Practice, ASTM E1527-05.

PSI performed our services to comply with the contract between our client and PSI. The report should be read in its entirety to obtain a more complete understanding of the information provided and to aid in any decisions made or actions taken based on this information.

1.1 PHASE I ESA

The subject property is presently vacant land with the exception of the southeast corner of the property, where it is developed with a single family residence. The subject property consists of the following San Bernardino County Assessor's Parcel Numbers (APN):

- 025604101
- 025604102
- 025604103
- 025604147
- 025604148

Historical resources indicate the property was developed with residential dwellings as early as 1938. According to aerial photographs, the northwest portion of the property was developed with a large building between 1966 and 1977 (possibly a warehouse or barn; city directories did not identify the building). Remnants of the slab are present.

The subject property is located within an area primarily developed for residential and commercial use. Current uses of the adjoining properties include: a large warehouse building occupied by Distribution Alternatives to the north, single family residences to the west, a single family residence and church to the east, and single family residences to the south. The past and current uses of the adjoining properties are not considered to represent a recognized environmental condition in connection with the subject property.

1.1.1 SIGNIFICANT DATA GAPS

The Practice defines a Significant Data Gap as a gap that affects the ability to identify recognized environmental conditions. Findings and conclusions are subject to the limitations imposed by Significant Data Gaps.

PSI's assessment did not identify Significant Data Gaps.

1.1.2 HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITIONS

This assessment has revealed no evidence of historical recognized environmental conditions (HRECs) in connection with the subject property.

1.1.3 CONTROLLED RECOGNIZED ENVIRONMENTAL CONDITIONS

This assessment has revealed no evidence of controlled recognized environmental conditions (CRECs) in connection with the subject property.

1.1.4 RECOGNIZED ENVIRONMENTAL CONDITIONS

This assessment has revealed no evidence of recognized environmental conditions (RECs) in connection with the subject property.

1.2 RECOMMENDATIONS

No further assessment is recommended at this time.

2 INTRODUCTION

2.1 CONTRACT

The contract between PSI and our client, including the proposal number/contract reference and the authorization date, was summarized on the General Information section of this report.

2.2 THE USER

The Practice defines the “User” of the Phase I Assessment as:

“...the party seeking to use ASTM E1527 to complete an environmental site assessment of the property. A user may include, without limitation, a potential purchaser of property, a potential tenant of property, an owner of property, a lender, or a property manager. The user has specific obligations for completing a successful application of this practice...”

PSI considers our direct client to be the User of this report.

2.3 PURPOSE OF SERVICES

The purpose of our services was to generally conform to the Practice. The goal of the processes established by the Practice is:

“...to identify Recognized Environmental Conditions (RECs) in connection with the property.”

The purpose of the Practice:

“...is to define good commercial and customary practice in the United States of America for conducting an environmental site assessment (ESA) of a parcel of commercial real estate with respect to the range of contaminants within the scope of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C. §9601) and petroleum products.

As such, the Practice is intended to permit a user to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on CERCLA liability (hereinafter, the landowner liability protections, or LLPs): that is, the practice that constitutes all appropriate inquiries into the previous ownership and uses of the property consistent with good commercial and customary practice as defined at 42 U.S.C.”

The Environmental Protection Agency amended the “All Appropriate Inquiries Rule” at 40 CFR Part 312 to reference the Practice and make clear that persons conducting all appropriate inquiries may use the procedures included in the Practice to comply with the All Appropriate Inquiries Rule.

2.4 STANDARD OF CARE AND WARRANTIES

Our assessment is based on limited information collected under time and cost constraints, in general conformance with the Practice. Findings and conclusions derived from the methodologies described in the Practice contain all of the inherent limitations in the methodologies that are referred to in the Practice, including:

- No ESA can wholly eliminate uncertainty regarding the potential for RECs in connection with the property.
- Our services were not intended to be technically exhaustive. There is a possibility that with the proper application of methodologies, conditions may exist on the property that could not be identified within the scope of the assessment(s) or that were not reasonably identifiable from the available information.
- PSI did not independently verify the information we obtained from records or interviews, and PSI treated the information as reliable.
- Not every property warrants the same level of assessment.
- Subsequent ESAs should not be considered valid standards to judge the appropriateness of a prior assessment. The observations and recommendations presented in this report are time dependent, and conditions will change. This report speaks only as of its date.

PSI did not perform any exploratory probing or discovery, perform tests, operate any specific equipment, or take measurements or samples to perform the ESA scope. The ESA was not a building code, safety, regulatory or environmental compliance inspection. The ESA is not intended to reduce the risk of the presence of mold and physical deficiencies conducive to mold nor the risk that mold or physical deficiencies conducive to mold may pose to the buildings and building occupants.

PSI has performed the services in a manner consistent with that level of care and skill ordinarily exercised by other members of our profession currently practicing in the same locality and under similar conditions, within the limitations of the Practice. No other warranties are implied or expressed.

2.5 RELIANCE

PSI’s client, JM Realty Group, may rely on this report.

2.6 USE BY OTHER PARTIES

This report was prepared pursuant to a contract between PSI and our client. That contractual relationship included an exchange of information about the property and the purpose of our work that was unique and serves as the basis upon which this report was prepared. Because of the importance of these understandings, our assessment may not be appropriate or sufficient for the intended purposes of another party.

Reliance or any use of this report by anyone other than those parties identified above, for which it was prepared, except with express written permission, are prohibited and therefore not foreseeable to PSI. Any unauthorized reliance on or use of this report, including any of the information or conclusions contained herein, will be at such third party's risk. No warranties or representations expressed or implied in this report are made to any such third party.

Third party reliance letters may be issued:

- upon timely request,
- subject to the permission by our original client, and
- payment of the then-current fee for such letters.

All third parties relying on our report, by such reliance, agree that such reliance is limited by our proposal and/or General Conditions, as applicable.

3 SCOPE AND METHODOLOGY

PSI performed a Phase I ESA of the subject property. The scope of our services and general methodology is presented below.

The information sources that PSI used, including published material, material obtained from commercial and other sources, is listed below and cited as it is presented in the report. The information, or excerpts thereof, is appended.

3.1 PHASE I ESA

This assessment included four components:

- Records review;
- Reconnaissance;
- Interviews; and
- Preparation of this report, including our evaluation.

The assessment was also intended to satisfy our client's requirements, described in:

- PSI Proposal 559-126840, dated June 19, 2014.

3.1.1 RECORDS REVIEW

Physical Setting Sources

The sources that PSI reviewed to assist with the physical setting of the site to assist with the interpretation of subsurface water movement are tabulated below.

Summary of Physical Setting Sources	
Source Name	Year Published/Issued
USGS 60 Minute Topo Map	Southern CA Sheet 1: 1901
USGS 30 Minute Topo Map	N/A
USGS 15 Minute Topo Map	San Bernardino: 1901, 1942, 1954, 1975
USGS 7.5 Minute Topo Map	Fontana: 1943, 1953, 1967, 1973, 1980,
EDR GeoCheck Report	2014

Summary of Physical Setting Sources	
Source Name	Year Published/Issued
State of California GeoTracker http://geotracker.waterboards.ca.gov/	2014

Environmental Regulatory Information

PSI retained Environmental Data Resources, Inc. (EDR) to provide environmental information attributed to the subject property and its surroundings. EDR obtains environmental records published by local, state, tribal, and federal agencies and maps the information for electronic searches.

The search was performed to Approximate Minimum Search Distances (AMSD) listed in ASTM E 1527-13.

Unmappable (orphan) sites (if any were listed) having insufficient address information to be mapped were evaluated for potential location within the AMSD. Those that could be determined to be within the AMSD are discussed in Environmental Records Review section of the report.

Freedom of Information (FOIA) Requests

PSI often submits requests under the Freedom of Information Act (FOIA) or its state or local equivalent. In some cases, PSI does not submit such requests since the information is available through informal information requests, interviews, or other methods.

A FOIA reviews that we submitted and the outcomes are tabulated and discussed below.

FOIA Request	
Agency	Response
County of San Bernardino Fire Department	No

Regulatory Agency File and Record Reviews

The Practice provides that if the subject property or any adjoining properties are identified on one or more of the standard environmental record sources in 8.2.1, pertinent regulatory files and/or records associated with the listing should be reviewed,

subject to the discretion of the EP. PSI did not consider such file review necessary to assess the property.

Historical Use Information

PSI used USGS Topo maps to provide information about the history of the subject property and its surroundings. PSI also reviewed other historical resources. The resources PSI reviewed are tabulated below.

Historical Resources		
Source Type	Years Reviewed	Source
USGS Topo Maps	See Section 3.1.1	USGS
Aerial Photograph(s)	1938, 1948, 1953, 1966, 1977, 1990, 1994, 2005, 2009, 2010 and 2012	EDR
Fire Insurance Maps	N/A	EDR
Street Directories	1975 to 2013 (at approximate five-year intervals)	EDR

Recorded Land Title Records

PSI did not review land title records to obtain information about the current and past owners of the subject property and past uses and tenancies.

User-Provided Information: Liens, AULs and Other Information

The Practice requires that the User provide information about Environmental Liens and Activity and Use Limitations (AULs) currently recorded against the property. The Practice indicates that the User should engage a title company to conduct the review or negotiate such engagement as an addition to the environmental professional's (EP) services. In addition, the Practice suggests that the User provide the EP with certain other information about the property and the reason for the Phase I ESA.

PSI obtained information about environmental cleanup liens and AULs recorded against the subject property at the request of our client. PSI retained EDR, Inc., a firm specializing in real estate record searches, to perform the search.

Helpful Documents and Proceedings

The Practice requires that the environmental professional ask the property owner, the key site manager (if any is identified), and the User for certain helpful documents about

the property and certain legal proceedings involving hazardous substances and the subject property.

The responses documenting the persons we contacted and relevant information obtained are appended where practical. If such documentation was too large to append, it is available at the PSI office that prepared this report.

Reconnaissance

Joe McKay arranged for PSI's access to the subject property. Our assessor was unescorted during the site reconnaissance.

The ground reconnaissance consisted of observing the periphery of the subject property and viewing the subject property from accessible adjacent public access areas. PSI systematically toured the interior portions of the subject property to provide an overlapping field of view. The peripheries of surface features and/or structures, where present on the subject property, were observed along with accessible interior common areas. PSI photo-documented select features encountered during our reconnaissance.

Reconnaissance of adjoining properties was limited to areas and facilities that were readily observable from the subject property or from public access areas.

Interviews

PSI made reasonable attempts to interview selected persons having knowledge of the uses and conditions of the subject property, past and present. A list of the persons that PSI interviewed and attempted to interview, along with our interpretations is presented in the Interview section of this report.

Vapor Encroachment Screening

Vapor encroachment is an evolving matter associated with the potential for chemicals of concern (COC) to migrate as vapors onto a property as a result of contaminated soil and groundwater on or near the property. The Practice requires the EP to evaluate:

The movement of hazardous substances or petroleum products in any form, including, for example, solid and liquid at the surface or subsurface, and vapor in the subsurface.

The term "hazardous substance" used in CERCLA is not limited to solids and liquids and USEPA has taken the view that the vapor phase of volatile hazardous substances shall be considered and addressed under CERCLA. Additionally, humans may be subjected to subsurface vapor if subsurface volatile chemicals migrate into occupied buildings through cracks and penetrations in the building floor.

Use of Standard Guide E2600-10

ASTM developed E2600-10 “Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions” (E2600). The purpose of the guide is to:

Provide practical guidance and a useful process for conducting a vapor encroachment screen (VES) on a property parcel involved in a real estate transaction in the United States of America with respect to chemicals of concern (COC) that may migrate as vapors onto a property as a result of contaminated soil and groundwater on or near the property.

The goal of this VES is to identify a vapor encroachment condition (VEC), which is the presence or likely presence of COC vapors in the sub-surface of the target property (TP) caused by the release of vapors from contaminated soil or groundwater, either on or near the property, as identified by certain procedures.

The Practice references E2600, but does not endorse its use, or any other process for the assessment of soil vapor. PSI considers the goal described in E2600 to be consistent with the goal of the Practice. Based on our experience, we consider the processes in E2600 to be customary practice for conducting a VES for a commercial property transaction. Therefore, PSI’s assessment of soil vapor is based on the processes described in E2600.

Methodology

E2600 VES uses information collected as a normal part of the Practice. PSI proposes to:

- establish a nominal Area of Concern (AoC) using E2600 Approximate Minimum Search Distances (AMSD)
- reduce or expand the distances based on known or inferred groundwater flow directions and other information regarding the subsurface conditions in the area
- identify potential vapor source sites within the AoC using:
 - environmental records,
 - historical records, and
 - other provided information.

PSI will evaluate the identified potential sources and determine for each if:

- A VEC exists or likely exists,
- A VEC cannot be ruled out, or
- A VEC can be ruled out, because a VEC does not or is not likely to exist.

For those sites where PSI determines that a VEC exists or likely exists, PSI will determine whether or not the condition represents a REC. PSI will discuss its evaluation of VECs in the section of this report where the potential source condition is first encountered.

3.2 LIMITATIONS, EXCEPTIONS, DEVIATIONS AND DATA GAP

Limitations, exceptions, and deviations from the Practice manifest as a lack of or inability to obtain information required by the Practice. This represents the definition of the 'data gap' contained in the Practice.

PSI listed the component objectives of the Practice on the appended Data Gap Worksheet and tracked the information obtained against the objectives. Therefore, the limitations, exceptions, and deviations are identified in the Worksheet.

In general, when required information was incomplete, not provided, otherwise not obtained, or indicated a need for additional information, PSI attempted to use information from other sources to meet the Practices' performance objectives. When the data gaps affected the Environmental Professional's ability to identify RECs, PSI considered the data gap(s) to be significant. PSI identified significant data gaps (if any) on the Data Gap Worksheet and reported them in Section 1.

3.3 SIGNIFICANT ASSUMPTIONS

PSI made the following assumptions in developing our Phase I ESA findings and conclusions:

- Regulatory Records and Information - PSI considers all information provided by our environmental information subcontractor(s) and by regulatory agencies regarding regulatory status of facilities to be complete, accurate, and current.
- Title, Lien and AUL Information - PSI considers all information provided by real estate title record review firms regarding property use or ownership, encumbrances or other limitations, if provided, to be complete, accurate and current.
- Interviews - PSI considers all information provided through interviews to be complete, unbiased and provided in good faith.
- PSI interpreted and inferred the direction of the shallow groundwater movement based on the information we obtained and our experience. Actual groundwater flow may be locally influenced by many factors beyond the scope of this assessment. Subsurface investigation would be necessary to determine site-specific groundwater flow direction.

4 USER-PROVIDED INFORMATION

4.1 USER’S RESPONSIBILITIES

4.1.1 ENVIRONMENTAL LIENS

Our client returned PSI’s questionnaire indicating ‘NO’ to the question: “Are you aware of any environmental cleanup liens against the property that are filed under federal, tribal, state or local law?”

4.1.2 ACTIVITY AND USE LIMITATIONS

Our client returned PSI’s questionnaire indicating ‘NO’ to the question: “Are you aware of any activity and land use limitations (AULs), such as engineering controls, land use restrictions or institutional controls that are in place at the subject property and/or have been filed or recorded in a registry under federal, tribal, state, or local law?”

4.2 SUGGESTED INFORMATION

Our client provided PSI with the following suggested information described by the Practice.

- The reason for performing the Phase I ESA.
- The type of property and type of property transaction.
- The complete and correct address for the property.
- The scope of services desired for the Phase I ESA.
- Identification of all parties who will rely on the Phase I ESA report.
- Identification of the site contact and how the contact can be reached.

4.3 HELPFUL DOCUMENTS

The client did not provided PSI with any helpful documents.

4.4 PROCEEDINGS

PSI was not provided with information about legal proceedings or litigation involving the subject property. This is a limitation and evaluated on the appended Data Gap Worksheet.

5 PHYSICAL SETTING

Based on our interpretation of the physical setting sources and our experience, PSI infers that the shallowest groundwater:

- Flows toward the south, and
- Occurs at a depth greater than 250 feet below the ground surface.

Other information about the physical setting of the subject property is tabulated below.

Physical Setting	
Nominal Elevations, (ft, above MSL)	Approximately 1073
Surface Topo Characteristics	The property grades moderately to the south.
General Soil Type, Slopes	DELHI, fine sand, characterized by high infiltration rates, well drained to excessively drained sands and gravels.
Does EDR Map a Floodplain On-Site?	No
On-Site Water Bodies	None
Off-Site Water Bodies	None were observed on adjoining properties.

6 ENVIRONMENTAL RECORDS REVIEW

6.1 DATABASE FINDINGS

The distribution of listed sites with respect to the subject property is tabulated and mapped in EDR's Radius Map Report, which is appended. The reader is referred to the table, which can be found near the front of EDR's report.

6.1.1 SUBJECT PROPERTY

EDR's report did not identify the subject property.

6.1.2 ADJOINING PROPERTIES

EDR's report did not identify sites adjoining the subject property, as further discussed below.

6.1.3 SURROUNDING PROPERTIES

EDR's report identified sites surrounding the subject property. PSI considered all of the listed sites unlikely to impact the subject site, based upon factors including (but not limited to):

- The nature of the listing
- The use of the site
- When the site was listed and its current listed status
- The developmental density of the setting
- The distance between the listed and subject sites as related to the distance that releases are likely to migrate based on local surface and subsurface drainage conditions
- The presence of intervening drainage divides
- The inferred groundwater movement

6.2 OTHER REGULATORY INFORMATION

6.2.1 FOIA RESPONSES

PSI submitted a FOIA request to the County of San Bernardino Fire Department. At the time of this report, no correspondence from the Fire Department had been received. If further pertinent correspondence is received that changes the findings or conclusions of this report, an addendum will be prepared and forwarded on for inclusion in this report.

6.2.2 REGULATORY AGENCY-MAINTAINED WEBSITES

PSI reviewed groundwater information published on the USGS National Water Information System website to determine local groundwater depth and flow direction

information. Additionally, PSI searched for the GeoTracker website for any listings related to the subject property address. No listings were identified.

6.2.3 OTHER REGULATORY AGENCY INFORMATION REVIEWED

No other regulatory agency information was reviewed during this assessment as such a review was determined not to be warranted since the information in the EDR Radius Map Report was sufficient for PSI to determine if a REC, HREC, and/or CREC related to a regulatory database listing exists in connection with the subject property.

7 SITE RECONNAISSANCE

The location and approximate boundaries of the property are illustrated on the appended figures. The legal description of the property, if provided to PSI, is appended.

Site Reconnaissance	
Project Name	Vacant Land – Bloomington Business Center
Property Address Property Address (Alternate)	APN: 025604101; 025604102; 025604103; 025604147; and 025604148
City, County, State, ZIP Code	Bloomington, San Bernardino County, California 92316
Site Area (acres)	Approximately 18.8 acres
No. Buildings/Units/Stories	One residential building at southeast corner
Area (sf)	N/A
Occupied Subgrade Spaces?	N/A
Year(s), First Developed for Current Use	N/A
Year(s), Additional Phases	N/A
Year Significant Renovations	N/A

7.1 DESCRIPTION AND CURRENT USES

The subject property is presently vacant land with the exception of the southeast corner of the property where it is developed with a single family residence. The subject property consists of the following parcel numbers (APN):

- 025604101
- 025604102
- 025604103
- 025604147
- 025604148

7.1.1 EXTERIOR OBSERVATIONS

A summary of the subject property uses and conditions is tabulated below. Detailed information is discussed following the summary for any “yes” answers, along with an opinion about the significance of the listing.

Exterior Observations	
Yes/No	Category
NO	Hazardous Substances
NO	Petroleum Products
NO	Aboveground or Underground Storage Tanks (ASTs/USTs)
NO	Drums
NO	Suspect Containers
NO	Electrical or Mechanical Equip. Suspected to Contain PCBs
NO	Interior Stains or Corrosion
NO	Drains or Sumps
NO	Wastewater Discharges
NO	Septic or Sewage Tanks
NO	Pits, Ponds or Lagoons
NO	Pools of Liquid or Standing Water
NO	Solid Waste Dumping/Landfills/Suspect Fill Material
NO	Stained Soil or Pavement
NO	Stressed Vegetation
NO	Drinking Water Wells
NO	Irrigation Wells
NO	Monitoring Wells
NO	Odors
NO	Other Uses or Conditions of Concern

7.2 PAST USES

Our interpretation of the past uses of the property, based on the historical data sources listed in Section 3.1 of this report, is tabulated below.

Past Uses	
Year(s)	Interpreted Property Use
1938	An aerial photograph depicts the northwest portion of the property to be developed with a single family residence.
1948	An aerial photograph depicts the north portion of the property to be developed with single family residences.
1953	An aerial photograph depicts the northwest and northeast portions of the property to be developed with a single family residence.
1966	An aerial photograph depicts the northwest portion of the property to be developed with a large building that appears to be either a warehouse or barn. Historical city directories do not indicate the use of the building. The northeast portion of the property is developed with a single family residence.
1977	An aerial photograph depicts the northwest portion of the property to be developed with a large building that appears to be either a warehouse or barn. Historical city directories do not indicate the use of the building. The northeast and southeast portions of the property are developed with a single family residence.
1990 to 2005	Aerial photographs depict the northeast and southeast portions of the property to be developed with a single family residence. The large building at the northwest corner is no longer present in the aerial photograph.
2009 to 2012	Aerial photographs depict the property to be developed with the current existing structures: a single family residence at the southeast corner.

Historical resources indicate the property was developed with residential dwellings as early as 1938. According to aerial photographs, the northwest portion of the property was developed with a large building between 1966 and 1977 (possibly a warehouse or barn; city directories did not identify the building). Remnants of the slab are present.

The past and current uses of the subject property are not considered to represent a recognized environmental condition.

8 ADJOINING PROPERTY RECONNAISSANCE

8.1 DESCRIPTION AND CURRENT USES

Our interpretation of the uses of the adjoining and surrounding property is tabulated below and detailed in the subsequent sections.

Adjoining Current Use	
Direction	Interpreted Property Use
North	Warehouse building occupied by Distribution Alternatives
South	Single family residences
East	Single family residence and church
West	Single family residences

8.1.1 INTERIOR AND EXTERIOR OBSERVATIONS

A summary of our interpretation of the current and past uses and conditions of adjoining and surrounding property based on historical records and observations is provided below.

Interior and Exterior Observations	
Yes/No	Category
No	Hazardous Substances
No	Petroleum Products
No	Aboveground or Underground Storage Tanks (ASTs/USTs)
No	Drums
No	Suspect Containers
No	Electrical or Mechanical Equip. Suspected to Contain PCBs
No	Interior Stains or Corrosion
No	Drains or Sumps
No	Wastewater Discharges
No	Septic or Sewage Tanks
No	Pits, Ponds or Lagoons

Interior and Exterior Observations	
Yes/No	Category
No	Pools of Liquid or Standing Water
No	Solid Waste Dumping/Landfills/Suspect Fill Material
No	Stained Soil or Pavement
No	Stressed Vegetation
No	Drinking Water Wells
No	Irrigation Wells
No	Monitoring Wells
No	Odors
No	Other Uses or Conditions of Concern

8.2 PAST USES

Our interpretation of the past uses of the adjoining properties is tabulated below.

Past Site Uses, North	
Year(s)	Interpreted Property Use
1938 to 1994	Aerial photographs depict the properties to be developed with single family residences. The grading for the current building (the warehouse for Distribution Alternatives) was present in 2005.
2005 to 2012	Aerial photographs depict the properties to be developed with the present day parking lot. The present day distribution center is not present in the photographs.

Past Site Uses, East	
Year(s)	Interpreted Property Use
1938	An aerial photograph depicts the property to be vacant land.
1948 to 1977	Aerial photographs depict the property to be developed with a single family residence.
1990 to 2012	Aerial photographs depict the property to be developed with the current day structures of a single family residence to the north and a church to the south.

Past Site Uses, South	
Year(s)	Interpreted Property Use
1938 to 2012	Aerial photographs depict the properties to be developed with single family residences.

Past Site Uses, West	
Year(s)	Interpreted Property Use
1938	An aerial photograph depicts the property to be vacant land.
1948 to 2012	Aerial photographs depict the property to be developed with single family residences.

The subject property is located within an area primarily developed for residential and commercial use. Current uses of the adjoining properties include: a large warehouse building occupied by Distribution Alternatives to the north, a single family residences to the west, a single family residence and church to the east, and single family residences to the south. The past and current uses of the adjoining properties are not considered to represent a recognized environmental condition in connection with the subject property.

9 INTERVIEWS

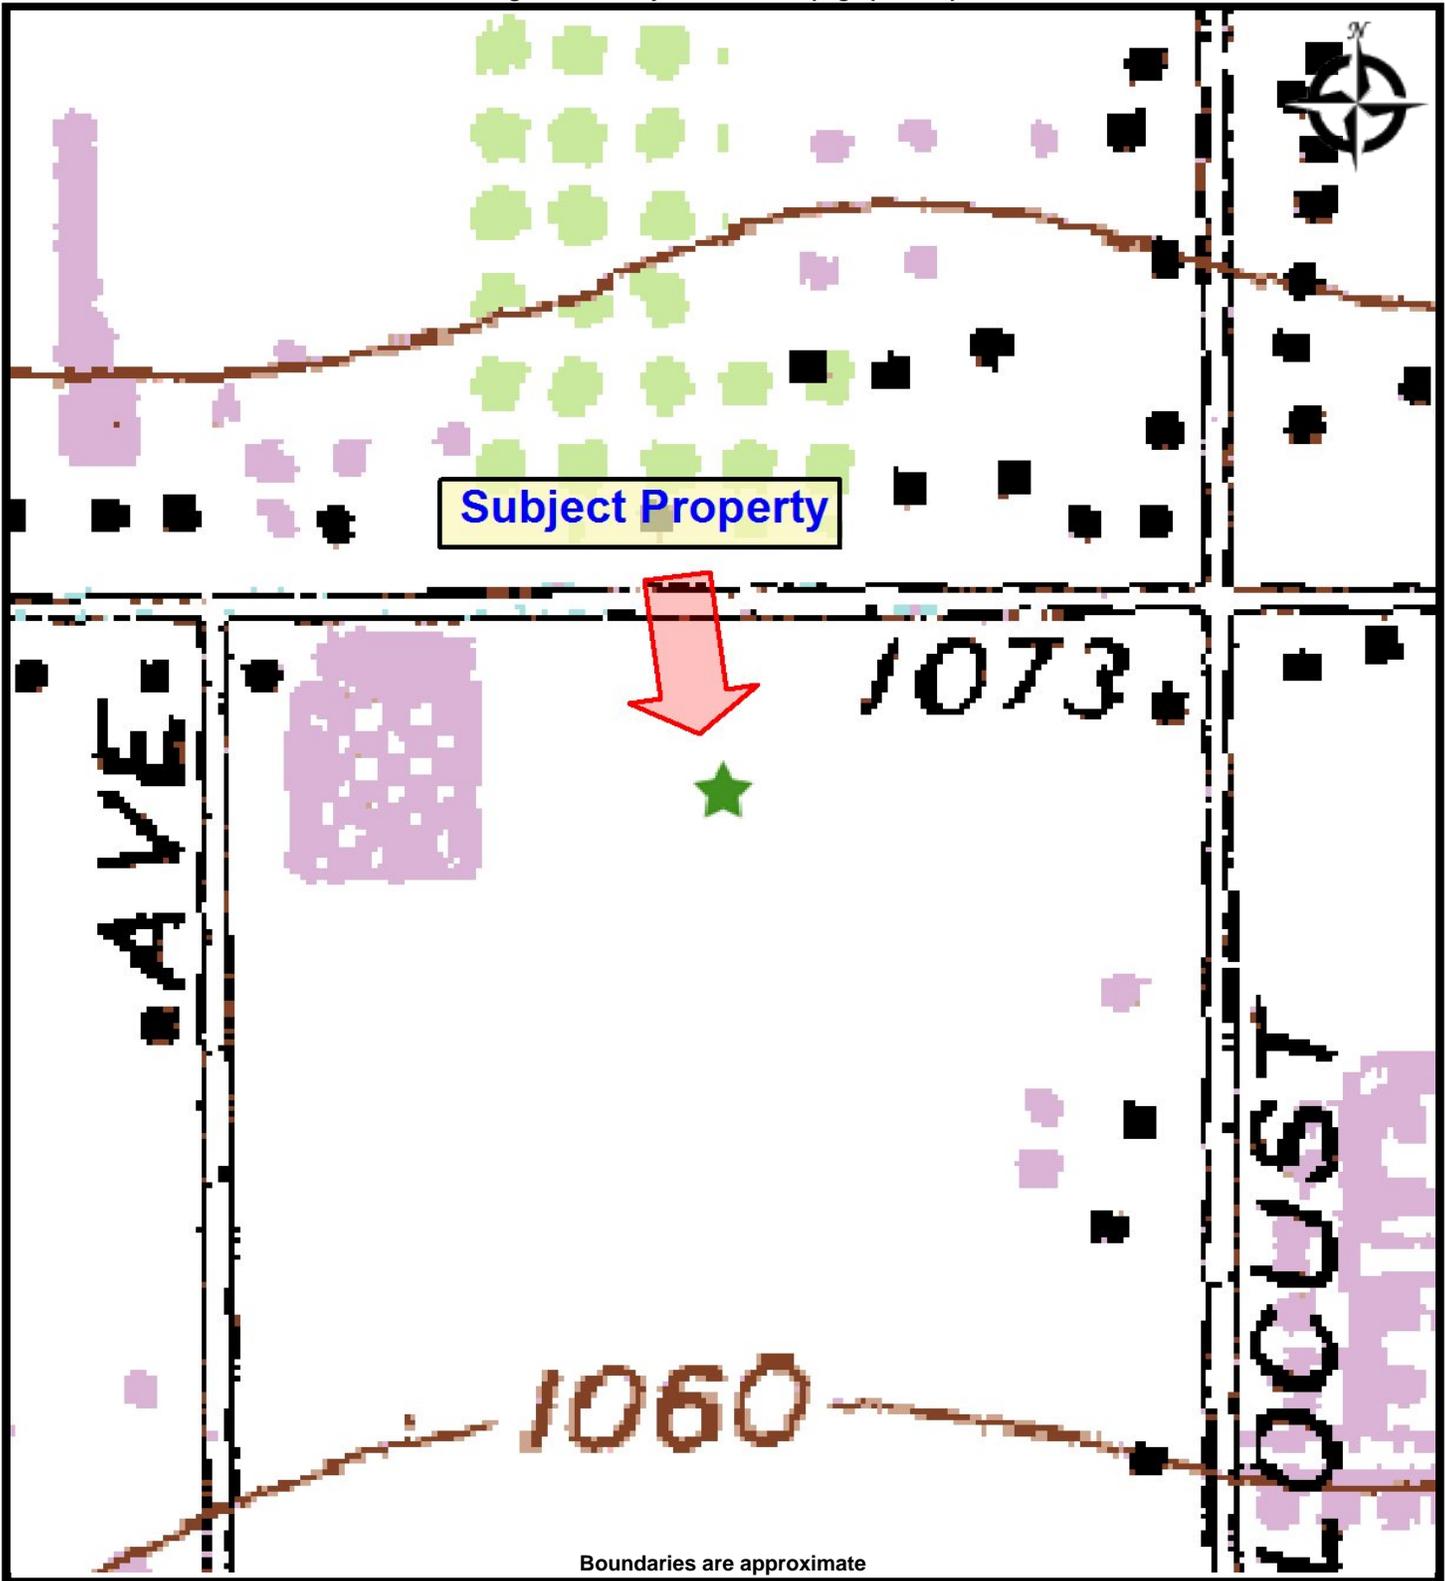

PSI interviewed parties potentially having information about current and/or former conditions at the subject property. The parties and their affiliation are tabulated below.

Interviews		
Name	Affiliation	Role
Joe McKay	JM Realty Group	Client/User

Pertinent information collected during the abovementioned interview has been incorporated into the previous sections of this report where appropriate. No evidence of a recognized environmental condition was identified during the interviews.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in **bold italics** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 05/05/2014 has revealed that there are 2 ENVIROSTOR sites within approximately 1 mile of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
<i>SYCAMORE HILLS ELEMENTARY SCHO</i> Status: No Further Action	<i>TAMARIND AVENUE/SANTA ASW 1/2 - 1 (0.767 mi.)</i>		<i>4</i>	<i>36</i>
<i>HIGH SCHOOL - CEDAR AVENUE</i> Status: No Further Action	<i>SANTA ANA AVENUE/CEDAR ESE 1/2 - 1 (0.975 mi.)</i>		<i>5</i>	<i>39</i>

EXECUTIVE SUMMARY

ADDITIONAL ENVIRONMENTAL RECORDS

Local Lists of Landfill / Solid Waste Disposal Sites

WMUDS/SWAT: The Waste Management Unit Database System is used for program tracking and inventory of waste management units. The source is the State Water Resources Control Board.

A review of the WMUDS/SWAT list, as provided by EDR, and dated 04/01/2000 has revealed that there is 1 WMUDS/SWAT site within approximately 0.5 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
<i>GENE BELK FRUIT PACKERS</i>	<i>10380 ALDER AVE</i>	<i>WNW 1/4 - 1/2 (0.433 mi.)</i>	<i>3</i>	<i>8</i>

Local Land Records

DEED: The use of recorded land use restrictions is one of the methods the DTSC uses to protect the public from unsafe exposures to hazardous substances and wastes .

A review of the DEED list, as provided by EDR, and dated 03/10/2014 has revealed that there is 1 DEED site within approximately 0.5 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
<i>GENE BELK FRUIT PACKERS</i>	<i>10380 ALDER AVE</i>	<i>WNW 1/4 - 1/2 (0.433 mi.)</i>	<i>3</i>	<i>8</i>

Other Ascertainable Records

San Bern. Co. Permit: San Bernardino County Fire Department Hazardous Materials Division.

A review of the San Bern. Co. Permit list, as provided by EDR, and dated 03/18/2014 has revealed that there is 1 San Bern. Co. Permit site within approximately 0.25 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
<i>IVY TRUCKING</i>	<i>17887 SLOVER AVE</i>	<i>WNW 1/8 - 1/4 (0.166 mi.)</i>	<i>1</i>	<i>8</i>

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR US Hist Auto Stat: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk

EXECUTIVE SUMMARY

Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR US Hist Auto Stat list, as provided by EDR, has revealed that there is 1 EDR US Hist Auto Stat site within approximately 0.25 miles of the target property.

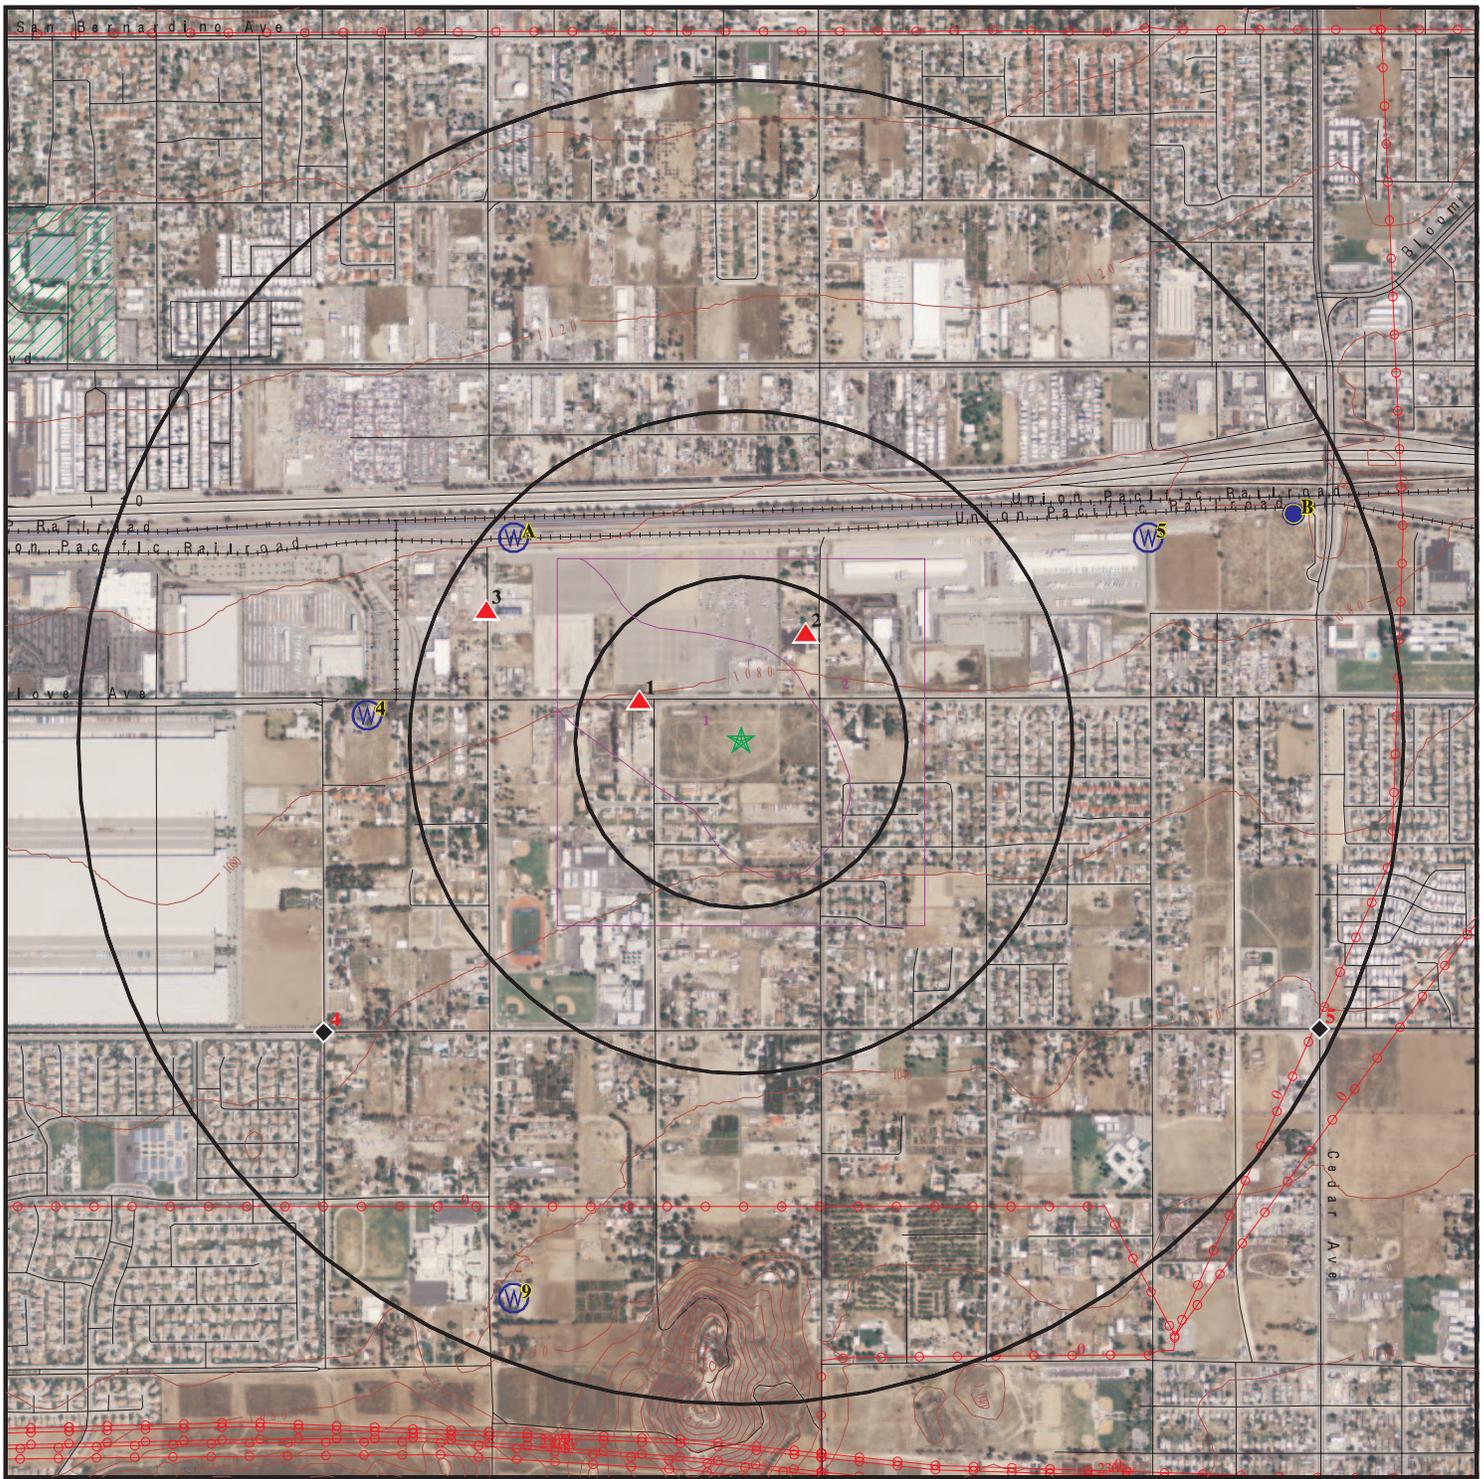

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
Not reported	10450 LOCUST AVE	NNE 1/8 - 1/4 (0.192 mi.)	2	8

EXECUTIVE SUMMARY

Due to poor or inadequate address information, the following sites were not mapped. Count: 3 records.

<u>Site Name</u>	<u>Database(s)</u>
CIMA ROAD MINE WASTE SITE	CERCLIS
CALTRANS MAGANA-OTREGA STATION	SWF/LF

Resource Conservation Recovery Act: False
Department of Defence: False
Solid Waste Assessment Test Program: Not reported
Threat to Water Quality: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Site History: 1. In April 1999, Gene Belk Fruit Packers (GBFP) completed capping the salt-affected areas at the facility per Cleanup & Abatement Order No. 97-64. 2. On August 18, 1999, Monitoring & Reporting Program No. 99-62 was adopted to replace Monitoring & Reporting Program No. 75-182. M&RP No. 99-62 requires 3. GBFP to conduct quarterly cap inspection and submit annual reports by Oct. 1 to the Regional Board. 4. The deed restrictions for the capped area was recorded with the San Bernardino County on 07/07/2001. 5. GBFP achieved full compliance with CAO No. 97-64 in April 2003. On July 1, 2003, the Board adopted Order No. R8-2003-0078, which rescinded CAO No. 97-64. 6. On July 15, 2011, the Regional Board adopted Order No. R8-2011-0032, which rescinded Order No. 75-182 and M&RP No. 99-62. GBFP is no longer required to submit annual cap maintenance reports to the Regional Board. However, GBFP is obligated to maintain the brine pond closure cap in accordance with the recorded deed restrictions.

Waste2: Process Waste (Waste produced as part of the industrial/manufacturing process)

Primary Waste Type: Designated/Influent or Solid Wastes that pose a significant threat to water quality because of their high concentrations (E.G., BOD, Hardness, TRF, Chloride). 'Manageable' hazardous wastes (E.G., inorganic salts and heavy metals) are included in this category.

Secondary Waste: Not reported

Secondary Waste Type: Not reported

Design Flow: 0

Baseline Flow: 0

Reclamation: No reclamation requirements associated with this facility.

POTW: The facility is not a POTW.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 10/25/2013	Source: EPA
Date Data Arrived at EDR: 11/11/2013	Telephone: N/A
Date Made Active in Reports: 01/28/2014	Last EDR Contact: 06/10/2014
Number of Days to Update: 78	Next Scheduled EDR Contact: 07/21/2014
	Data Release Frequency: Quarterly

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 10/25/2013	Source: EPA
Date Data Arrived at EDR: 11/11/2013	Telephone: N/A
Date Made Active in Reports: 01/28/2014	Last EDR Contact: 06/10/2014
Number of Days to Update: 78	Next Scheduled EDR Contact: 07/21/2014
	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991	Source: EPA
Date Data Arrived at EDR: 02/02/1994	Telephone: 202-564-4267
Date Made Active in Reports: 03/30/1994	Last EDR Contact: 08/15/2011

	Data Release Frequency: No Update Planned

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

DELISTED NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 10/25/2013	Source: EPA
Date Data Arrived at EDR: 11/11/2013	Telephone: N/A
Date Made Active in Reports: 01/28/2014	Last EDR Contact: 06/10/2014
Number of Days to Update: 78	Next Scheduled EDR Contact: 07/21/2014
	Data Release Frequency: Quarterly

Federal CERCLIS list

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 10/25/2013	Source: EPA
Date Data Arrived at EDR: 11/11/2013	Telephone: 703-412-9810
Date Made Active in Reports: 02/13/2014	Last EDR Contact: 05/29/2014
Number of Days to Update: 94	Next Scheduled EDR Contact: 09/08/2014
	Data Release Frequency: Quarterly

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 05/31/2013	Source: Environmental Protection Agency
Date Data Arrived at EDR: 07/08/2013	Telephone: 703-603-8704

	Data Release Frequency: Varies

Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Date of Government Version: 10/25/2013	Source: EPA
Date Data Arrived at EDR: 11/11/2013	Telephone: 703-412-9810

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 03/11/2014

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal institutional controls / engineering controls registries

US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 12/17/2013	Source: Environmental Protection Agency
Date Data Arrived at EDR: 01/14/2014	Telephone: 703-603-0695
Date Made Active in Reports: 01/28/2014	Last EDR Contact: 06/05/2014
Number of Days to Update: 14	Next Scheduled EDR Contact: 09/22/2014
	Data Release Frequency: Varies

US INST CONTROL: Sites with Institutional Controls

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 12/17/2013	Source: Environmental Protection Agency
Date Data Arrived at EDR: 01/14/2014	Telephone: 703-603-0695

State- and tribal - equivalent CERCLIS

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

Date of Government Version: 05/05/2014	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 05/06/2014	Telephone: 916-323-3400

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 03/20/2014	Source: Environmental Protection Agency

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Local Lists of Hazardous waste / Contaminated Sites

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 03/04/2014	Source: Drug Enforcement Administration
Date Data Arrived at EDR: 03/06/2014	Telephone: 202-307-1000
Date Made Active in Reports: 06/17/2014	Last EDR Contact: 06/04/2014
Number of Days to Update: 103	Next Scheduled EDR Contact: 09/15/2014
	Data Release Frequency: Quarterly

HIST CAL-SITES: Calsites Database

The Calsites database contains potential or confirmed hazardous substance release properties. In 1996, California EPA reevaluated and significantly reduced the number of sites in the Calsites database. No longer updated by the state agency. It has been replaced by ENVIROSTOR.

Date of Government Version: 08/08/2005	Source: Department of Toxic Substance Control
Date Data Arrived at EDR: 08/03/2006	Telephone: 916-323-3400
Date Made Active in Reports: 08/24/2006	Last EDR Contact: 02/23/2009
Number of Days to Update: 21	Next Scheduled EDR Contact: 05/25/2009
	Data Release Frequency: No Update Planned

SCH: School Property Evaluation Program

This category contains proposed and existing school sites that are being evaluated by DTSC for possible hazardous materials contamination. In some cases, these properties may be listed in the CalSites category depending on the level of threat to public health and safety or the environment they pose.

Date of Government Version: 05/05/2014	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 05/06/2014	Telephone: 916-323-3400
Date Made Active in Reports: 05/19/2014	Last EDR Contact: 06/06/2014
Number of Days to Update: 13	Next Scheduled EDR Contact: 08/18/2014
	Data Release Frequency: Quarterly

TOXIC PITS: Toxic Pits Cleanup Act Sites

Toxic PITS Cleanup Act Sites. TOXIC PITS identifies sites suspected of containing hazardous substances where cleanup has not yet been completed.

Date of Government Version: 07/01/1995	Source: State Water Resources Control Board
Date Data Arrived at EDR: 08/30/1995	Telephone: 916-227-4364

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995	Source: EPA
Date Data Arrived at EDR: 07/03/1995	Telephone: 202-564-4104

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR US Hist Auto Stat: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

U.S. Electric Transmission and Power Plants Systems Digital GIS Data

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Licensed Facilities

Source: Department of Social Services

Telephone: 916-657-4041

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

USGS TOPOGRAPHIC MAP

Target Property Map:	34117-A4 FONTANA, CA
Most Recent Revision:	1980

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

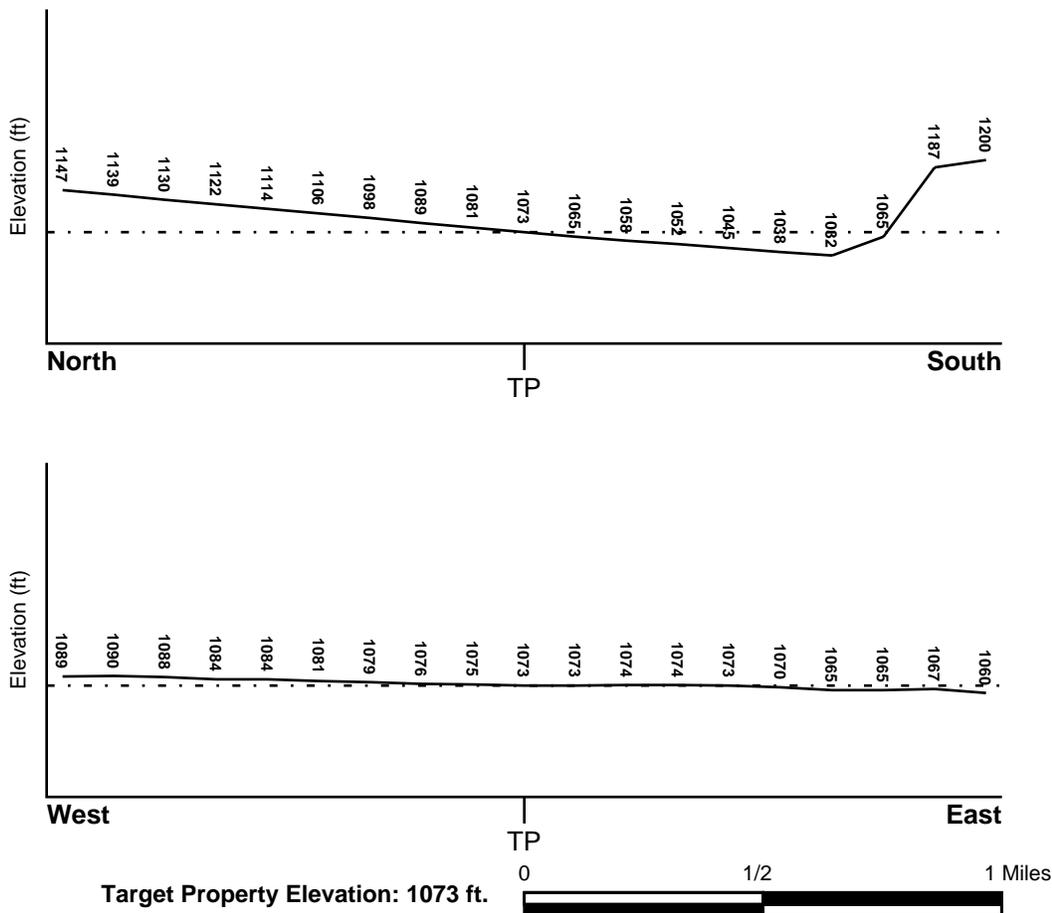

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General South

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Target Property County
SAN BERNARDINO, CA

FEMA Flood Electronic Data

NWI Electronic Data Coverage
YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data:*

Search Radius: 1.25 miles
Status: Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: DELHI

Soil Surface Texture: fine sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Somewhat excessively drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	18 inches	fine sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.3 Min: 5.6
2	18 inches	59 inches	sand	Granular materials (35 pct. or less passing No. 200), Fine Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.8 Min: 6.1

Soil Map ID: 2

Soil Component Name: TUJUNGA

Soil Surface Texture: gravelly loamy sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Somewhat excessively drained

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Well Database

Source: Department of Water Resources

Telephone: 916-651-9648

California Drinking Water Quality Database

Source: Department of Public Health

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

OTHER STATE DATABASE INFORMATION

California Oil and Gas Well Locations

Source: Department of Conservation

Telephone: 916-323-1779

Oil and Gas well locations in the state.

RADON

State Database: CA Radon

Source: Department of Health Services

Telephone: 916-324-2208

Radon Database for California

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by PSI, Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- Library of Congress
- University Publications of America
- EDR Private Collection

The Sanborn Library LLC Since 1866™

Limited Permission To Make Copies

PSI, Inc. (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

EDR Aerial Photo Decade Package

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

When delivered electronically by EDR, the aerial photo images included with this report are for ONE TIME USE ONLY. Further reproduction of these aerial photo images is prohibited without permission from EDR. For more information contact your EDR Account Executive.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. **NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. Appendix 9:
Interview Documentation

PHASE I ESA QUESTIONNAIRE 1 OF 2

Pursuant to ASTM E 1527 Appendix X3, in order to qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"), the user must conduct the following inquiries required by 40 CFR 312.25, 312.28, 312.29, 312.30, and 312.31. Failure to conduct these inquiries could result in a determination that "all appropriate inquiry" is not complete. The user should provide the following information to the environmental professional. This form represents a type of interview and as such, the user has an obligation to answer all questions in good faith, to the extent of his or her actual knowledge.

1. Did a review of land title records (or judicial records where appropriate) identify any environmental cleanup liens filed or recorded against the subject property under federal, tribal, state or local law?
 No Yes If yes, please explain.

2. Did a review of land title records (or judicial records where appropriate) identify any activity and land use limitations (AULs), such as engineering controls, land use restrictions or institutional controls that are in place at the subject property and/or have been filed or recorded in a registry under federal, tribal, state, or local law?
 No Yes If yes, please explain.

3. Do you have any specialized knowledge or experience related to the subject property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the subject property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?
 No Yes If yes, please explain.

4. Does the purchase price being paid reasonably reflect the fair market value of the subject property?
 No Yes Not Applicable If no, please explain.

If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?

- No Yes If yes, please explain.

5. Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example:

(a) Do you know of the past uses of the property?

- No Yes

(b) Do you know of specific chemicals that are present or were once present at the property?

- No Yes

(c) Do you know of spills or other chemical releases that have taken place at the property?

- No Yes

(d) Do you know of any environmental cleanups that have taken place at the property?

- No Yes

Please explain any yes answers.

PHASE I ESA QUESTIONNAIRE 2 OF 2

6. Based on your knowledge and experience related to the subject property are there any obvious indicators that point to the presence or likely presence of contamination at the subject property?
- No Yes If yes, please explain.

Proceedings Involving the Property (ASTM E 1527 § 10.9)

- (1) Do you know of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the property? No Yes
- (2) Do you know of any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the property? No Yes
- (3) Do you know of any notices from any governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products?
 No Yes

Please explain any yes answers.

Helpful Documents Checklist

Pursuant to ASTM E 1527 §10.8, do you know whether any of the following documents exist related to the subject property, and if so, whether copies will be provided to PSI for review? If so, please submit such documentation to PSI as soon as practical. Please check all that apply.

- Environmental site assessment reports (for example: Phase I/II ESAs or Tier 1/2 RBCA reports)
- Environmental compliance audit reports; or risk assessments
- Environmental permits (for example: solid waste disposal permits, hazardous waste disposal permits, wastewater permits, NPDES permits, underground injection permits, aboveground storage tank permits); or hazardous waste generation notices or reports
- Registrations for above or underground storage tanks, or underground injection systems
- Safety data sheets (formerly known as Material Safety Data Sheets or MSDSs)
- Community right-to-know plans; safety plans; preparedness and prevention plans; spill prevention, countermeasure and control (SPCC) plans; etc.
- Notices or other correspondence from any governmental agency relating to past or current violations of environmental laws with respect to the property or relating to environmental liens encumbering the property
- Geotechnical studies; or reports regarding hydrogeologic conditions on the property or surrounding area
- Recorded activity and land use limitations (AULs)

VAPOR ENCROACHMENT SCREENING QUESTIONNAIRE

PAGE 1 OF 6

Per ASTM E 2600-10 §6 and Appendix X3, the user should provide the following information to the environmental professional. This form represents a type of interview and as such, the user has an obligation to answer all questions in good faith, to the extent of his or her actual knowledge.

1. Currently, what type of property is the subject property?
 Commercial Industrial Multi-tenant Vacant Land
2. Are there buildings on the subject property?
 Yes No Unknown (if YES, indicate number and type of construction)
3. Will buildings ~~of~~ structures be constructed on the subject property in the future?
 Yes No Unknown (if YES, indicate number and type of construction)
1 House
4. How many levels/floors above grade exist or are proposed?
1
5. If buildings exist or are proposed, do/will they have elevators?
 Yes No
6. What type of below-grade level exists or is proposed? (if None/Unknown, Skip to question 11)
 Full Basement Crawl Space Parking Garage Multi-Level None/Unknown

VAPOR ENCROACHMENT SCREENING QUESTIONNAIRE

PAGE 2 OF 6

7. Is there ventilation currently/proposed in the below-grade level?
 Yes No Unknown
8. What is the type of floor in the existing or proposed below-grade level?
 Concrete Soil Floating Stone Other Unknown
9. Are there sump pumps, floor drains or trenches existing or proposed in the below-grade level?
 Yes No Unknown
10. Are basement wall and/or floors sealed or proposed to be sealed with waterproof paint or epoxy coatings?
 Yes No Unknown
11. Is there a radon or methane mitigation system installed or proposed?
 Yes No Unknown (if YES, please indicate if passive or active)

VAPOR ENCROACHMENT SCREENING QUESTIONNAIRE

PAGE 3 OF 6

12. What is the type of heating system existing or proposed in the building? (check all that apply)
- Hot Air Circulation Hot Air Radiation Hot Water Radiation Hot Water Circulation
- Fireplace Radiant Floor Heat Fuel Oil Furnace Electric Baseboard
- Heat Pump Wood Stove Steam Radiation Coal Furnace
- Kerosene Heater Used Oil Heater Gas Furnace Other
13. How are the utility systems fueled/powered or proposed to be fueled/powered? (check all that apply)
- Natural Gas Propane Kerosene Coal Wood
- Electric Fuel Oil Solar Wind Other
14. What ventilation systems exist or are proposed? (check all that apply)
- Central Air Conditioning Mechanical Fans Kitchen Range Hood Fan
- Evaporative Cooling Outside Air Intake Bathroom Ventilation Fans
- Window Air Conditioning Other

VAPOR ENCROACHMENT SCREENING QUESTIONNAIRE

PAGE 4 OF 6

15. Is the building maintained or proposed to be maintained under positive or negative pressure?
 Positive Negative No Unknown
16. What percentage of paved ground exists or is proposed to surround the building?
 Yes No Unknown
17. Are existing paved or landscaped areas proposed to be altered?
 Yes No Unknown
18. Have there ever been any environmental problems at the subject property?
 Yes No Unknown (if YES, please describe)
19. Does/will a gas station or dry cleaner operate anywhere on the subject property?
 Yes No Unknown
20. Do any tenants use hazardous chemicals in relatively large quantities on the subject property?
 Yes No Unknown
21. Have any tenants ever complained about odors in the building or experienced health-related problems that may have been associated with the building?
 Yes No Unknown

VAPOR ENCROACHMENT SCREENING QUESTIONNAIRE

PAGE 5 OF 6

22. Are the current operations or proposed operations on the subject property OSHA or EPA regulated?
 Yes No Unknown
23. Are there any existing or proposed underground or aboveground storage tanks (USTs/ASTs) on the subject property?
 Yes No Unknown (if YES, please describe)
24. Are there sensitive receptors (for example: children, elderly, people in poor health, and so forth) that occupy or will occupy the subject property?
 Yes No Unknown (if YES, please describe)
25. What is the reason that the Vapor Encroachment Screening (VES) is being performed?
 Sale Purchase Lease Refinance No Other
26. Is the subject property undergoing some sort of transaction?

VAPOR ENCROACHMENT SCREENING QUESTIONNAIRE

PAGE 6 OF 6

27. Do you have any specialized knowledge or previous reports that may be pertinent to this VES?

Yes (please attach or send) No

PLEASE ATTACH PAGES AS NECESSARY TO ANSWER ALL QUESTIONS AS FULLY AS POSSIBLE.

Personnel Qualifications

RESUME

Eric C. Fraske, PE

Geotechnical and Environmental Department Manager, Cypress, California

Education

Bachelor of Science: Major-Civil Engineering
Michigan State University: May 2004

Certifications/Registrations/Technical Training

State of California Registered Civil Engineer (PE #76976)
Nevada Certified Environmental Manager (CEM # 2134)
40 Hour HAZWOPER

Professional Experience

Mr. Fraske is the department manager for the geotechnical and environmental group of the Cypress, California office of PSI. As department manager, Mr. Fraske oversees all environmental and geotechnical projects. His responsibilities include coordinating personnel and equipment resources to ensure client satisfaction. Mr. Fraske is closely involved with clients, potential clients, and projects in order to form strong alliances and long lasting working relationships. His work involves extensive client contact, program quality assurance/quality control (QA/QC), and liaison with federal, state, and local regulatory agencies.

Prior to joining PSI, Mr. Fraske worked as a field technician for an air quality firm from 2002 to 2004. As a field technician, his work experience included ambient air sampling, gas emissions testing, pollution modeling, compliance demonstrations, TRIS, report development, and industrial air permitting.

Project Experience

Mr. Fraske has conducted many Phase I ESAs for commercial lenders, local and nationwide banks, and real-estate developers. Transactions included mergers and acquisitions, and refinancing.

Representative Phase I Environmental Site Assessments Project Experience

- Over 50 Proposed CVS Locations Throughout Southern California
- Proposed NFL Stadium Locations, Southern California
- Sony Pictures Studios, Culver City, California
- Kodak Theater and Hollywood and Highland Retail Complex, Hollywood, California
- Proposed Extra Space Self Storage Facilities, Throughout Southern California
- FDIC Portfolio Locations, Throughout Arizona
- Pacific Gateway Industrial Center, Torrance, California
- 60,000 Acres of Timberland in South Georgia
- 6,000 Acre Former Cattle Farm, Bleckley County, Georgia
- Five Volvo Equipment Dealerships, Savannah, Macon, Marietta, Atlanta, and Augusta, Georgia
- Various Fiber Optic Cable Sites, Marietta, Georgia
- Multiple Burger King Restaurants, New York, New York

RESUME

Mr. Fraske has performed Phase II Subsurface Investigations and a variety of subsurface investigations for commercial lenders, state environmental protection agencies, and private individuals at several commercial and industrial real estate properties.

Representative Phase II Environmental Site Assessments and Site Investigation Project Experience

- Mira Mar Naval Air Station, San Diego, California
- Former Gasoline Station, Compton, California
- Active Sugar Mill, Clewiston, Florida
- 300 Square Mile Agricultural Land Acquisition, South Florida
- Plating Facility, West Hollywood, California
- Former Western Brass Manufacturing Facility, Los Angeles, California
- Former Dry Cleaner, Garden Grove, California
- Former Auto Dealership, Manhattan Beach, California
- Former Nike Missile Site, Rancho Palos Verdes, California
- Former Wastewater Treatment Plant, Fort Oglethorpe, Georgia
- 6,000 Acre Former Cattle Farm, Bleckley County, Georgia
- Three former gasoline stations, Savannah, Georgia

Mr. Fraske has conducted soil excavations, groundwater sampling, operations and maintenance of total fluids free product recovery systems and soil vapor extraction systems, well surveys, well development, groundwater sampling and effluent sampling of treated groundwater on several impacted properties.

Representative Remediation Project Experience

- Former Gasoline Station, Culver City California
- Former Dry Cleaner, Garden Grove, California
- Former Dry Cleaner, Montclair, California
- Former Plating Facility, West Hollywood, California
- Former Technicolor Studio, Hollywood, California
- Oil Spill, Fontana, California
- Former Auto Dealership, Manhattan Beach, California
- 6,000 Acre Former Cattle Farm, Bleckley County, Georgia
- Former Wastewater Treatment Plant, Fort Oglethorpe, Georgia
- Emory Northlake Medical Center, Tucker, Georgia,
- Peachtree Mitsubishi, Doraville, Georgia

Years experience with other firms: 2
Year started with PSI: 2004

Lloyd D. Guss, PG

Senior Geologist, Long Beach, California

Years with PSI: 5½

Years experience with other firms: 13½

Education

B.Sc. in Geology, California State University, Long Beach, 1992

Certifications/Registrations/Technical Training

California Registered Professional Geologist (No. 7034)

Colorado State Environmental Scientist registration (No. 5618)

Phase II Environmental Site Assessment Workshop, PSI (1999)

Professional Certificate in UST Leak Detection Standards and Systems,

University of California, Riverside (1994)

OSHA 29 CFR 1910.120 HAZWOPER, worker

Professional Experience

For about nineteen years, Mr. Guss has been involved with all aspects of quality project work for environmental and hazardous waste site investigations, risk management, and remediation activities. His responsibilities have included: project management, technical project oversight, project administration and budgeting, upholding company safety standards, regulatory agency liaison, managing and training personnel, data evaluation, and reporting.

California Department of Transportation (Caltrans) Project Experience

Mr. Guss has over eight years of experience providing services to Caltrans under various environmental related contracts. Services have included emergency response, UST removals, hazardous waste management, soil and groundwater assessments, and aerial deposited lead investigations throughout California. Projects have included property acquisition investigations, lead studies of bridge paint and right-of-way soil, and high profile drinking water assessments. Mr. Guss maintains a good working relationship with numerous contract managers at several Caltrans district offices throughout California.

Petroleum Hydrocarbon Project Experience

As Team Leader and Project Manager for environmental work at two major Los Angeles refineries, Mr. Guss was responsible for: a high profile groundwater investigation of Los Angeles aquifers (Gage, Lynwood, and Silverado), an LNAPL recovery optimization program to expand product recovery systems, oversight of air sparge and vapor extraction systems, remedial excavation of approximately 1,000 tons of California Hazardous Waste and reporting to the DTSC, and submitting routine deliverables to the CRWQCB and AQMD.

Landfill Project Experience

Mr. Guss managed a biologically sensitive military landfill remediation/restoration project, which involved the excavation of over 30,000 tons of dioxins, furans, and lead impacted soil. In addition, his team was responsible for initiating a re-profiling program so that soil could be separated and transported to the appropriate waste disposal facility, which resulted in a substantial cost saving for the client. Not only was the project completed under budget, but it was also completed on schedule.

Chlorinated Solvent Project Experience

Mr. Guss has managed a number of chlorinated solvent projects ranging from small dry cleaning facilities to a large chemical company tank farm located in the Port of Los Angeles.
