EXHIBIT B

Conditions of Approval (Conditional Use Permit)
CONDITIONS OF APPROVAL

Conditional Use Permit
Bloomington Industrial Property Owner, LLC.

GENERAL REQUIREMENTS
Conditions of Operation and Procedures

LAND USE SERVICES - Planning (909) 387-8311

1. **Project Approval Description.** This Conditional Use Permit is approved to be constructed and operated in compliance with the San Bernardino County Code (SBCC), pursuant to the conditions of approval stated herein, the approved site plan and any other required and approved reports and/or displays (e.g. elevations). This project includes the construction of 708,240 square-foot (sf) industrial building to be used as a “High Cube” warehouse distribution facility with 20,000 sf of office area (Project). Proposed Environmental Determination: Mitigated Negative Declaration. The Project site is 36.70 acres (ac) located on the North Side of Slover Avenue, approximately 1,000 feet (ft) west of Linden Avenue. Parking approved for the facility is based upon the above land use description.
   a) Project signs shall comply with SBCC Chapter 83.13.
   b) Project landscaping shall comply with SBCC Chapter 83.10
   c) Project parking and internal access shall comply with SBCC Chapter 83.11. There are 282 parking spaces required and 297 spaces are proposed, which includes 272 standard spaces and 8 disabled accessible spaces.
   d) Project construction shall comply with all applicable construction codes including the California Building Codes (CBC) and Uniform Fire Code (UFC).
   The “developer” shall provide a copy of the approved conditions and site plan to every current and future project tenant, lessee, and property owner to facilitate compliance with these conditions of approval and continuous use requirements. Project APN: 0252-173-67, & 66; Project Number P201300121.

2. **Concurrent Actions.** This project also includes the following concurrent actions:
   a) **Tentative Parcel Map.** Tentative Parcel Map (PM19448) to subdivide the existing 54.3 ac site into two parcels.

3. **“Developer” Defined.** The term “developer” as used in these conditions of approval for this project and for any development of this project site, includes all of the following: the applicant, the property owner and any lessee, tenant or sub-tenant, operator and/or any other agent or other interested party of the subject project and/or project site and/or any heir or any other successor in interest in the project site or project land use by sale or by lease of all or of a portion of the

*Mitigation Measures are shown in Italics*
project site or project land uses and/or any other right given to conduct any land use in any or all of the project structures or any area on the project site.

4. **High Cube Warehouse** – “High Cube” Warehouse is defined by the National Association of Industrial and Office Properties (NAIOP) as follows: A Warehouse/Distribution Center used primarily for the storage and/or consolidation of manufactured goods prior to their distribution to retail locations or other warehouses. These facilities are commonly constructed utilizing tilt-up technique, with a typical ceiling height of at least 24 feet. “High Cube” Warehouse/Distribution Centers are generally greater than 100,000 sq. ft. in size with a land coverage ratio of approximately 50% and a dock-high loading ratio of approximately 1 dock per 5,000-10,000 sq. ft. of warehouse storage. They are characterized by a small employment count due to a high level of automation, which reduces air quality and traffic impacts.

5. **Revisions.** Any proposed change to the approved use/activity on the site (e.g. from warehouse to manufacturing); or any increase in the developed area of the site or any expansion or modification to the approved facilities, including changes to structures building locations, elevations, signs, parking allocation, landscaping, lighting, allowable number of occupants (clients and/or employees); or a proposed change in the conditions of approval, including operational restrictions from those shown either on the approved site plan and/or in the conditions of approval shall require that an additional land use application (e.g. Revision to an Approved Action) be submitted to County Planning for review and approval obtained.

6. **Continuous Effect/Revocation.** All of the conditions of this project are continuously in effect throughout the operative life of the project for the use approved. Failure of the property owner, tenant, applicant, developer or any operator (herein “developer”) to comply with any or all of the conditions at any time may result in a public hearing and revocation of the approved land use, provided adequate notice, time and opportunity is provided to the property owner or other party to correct the non-complying situation.

7. **Expiration.** This project permit approval shall expire and become void if it is not “exercised” within three (3) years of the effective date of this approval, unless an extension of time is approved. The permit is deemed “exercised” when either:
   a) The permittee has commenced actual construction or alteration under a validly issued building permit, or
   b) The permittee has substantially commenced the approved land use or activity on the project site, for those portions of the project not requiring a building permit. (SBCC §86.06.060)

   Occupancy of completed structures and operation of the approved and exercised land use remains valid continuously for the life of the project and the approval runs with the land, unless one of the following occurs:

---

*Mitigation Measures are shown in Italics*
a) Construction permits for all or part of the project are not issued or the construction permits expire before the structure is completed and the final inspection is approved.
b) The land use is determined by the County to be abandoned or non-conforming.
c) The land use is determined by the County to be not operating in compliance with these conditions of approval, the County Code, or other applicable laws, ordinances or regulations. In these cases, the land use may be subject to a revocation hearing and possible termination.

PLEASE NOTE: This will be the ONLY notice given of the approval expiration date. The “developer” is responsible to initiate any Extension of Time application.

8. Extension of Time. Extensions of time to the expiration date (listed above or as otherwise extended) may be granted in increments each not to exceed an additional three years beyond the current expiration date. An application to request consideration of an extension of time may be filed with the appropriate fees no less than thirty days before the expiration date. Extensions of time may be granted based on a review of the application, which includes a justification of the delay in construction and a plan of action for completion. The granting of such an extension request is a discretionary action that may be subject to additional or revised conditions of approval or site plan modifications. (SBCC §86.06.060)

9. Development Impact Fees. Additional fees may be required prior to issuance of development permits. Fees shall be paid as specified in adopted fee ordinances.

10. Indemnification. In compliance with SBCC §81.01.070, the developer shall agree, to defend, indemnify, and hold harmless the County or its “indemnitees” (herein collectively the County’s elected officials, appointed officials (including Planning Commissioners), Zoning Administrator, agents, officers, employees, volunteers, advisory agencies or committees, appeal boards or legislative body) from any claim, action, or proceeding against the County or its indemnitees to attack, set aside, void, or annul an approval of the County by an indemnitee concerning a map or permit or any other action relating to or arising out of County approval, including the acts, errors or omissions of any person and for any costs or expenses incurred by the indemnitees on account of any claim, except where such indemnification is prohibited by law. In the alternative, the developer may agree to relinquish such approval.

Any condition of approval imposed in compliance with the County Development Code or County General Plan shall include a requirement that the County acts reasonably to promptly notify the developer of any claim, action, or proceeding and that the County cooperates fully in the defense. The developer shall reimburse the County and its indemnitees for all expenses resulting from such
actions, including any court costs and attorney fees, which the County or its indemnitees may be required by a court to pay as a result of such action.

The County may, at its sole discretion, participate at its own expense in the defense of any such action, but such participation shall not relieve the developer of their obligations under this condition to reimburse the County or its indemnitees for all such expenses.

This indemnification provision shall apply regardless of the existence or degree of fault of indemnitees. The developer’s indemnification obligation applies to the indemnitees’ “passive” negligence but does not apply to the indemnitees’ “sole” or “active” negligence or “willful misconduct” within the meaning of Civil Code Section 2782.

11. NOD/MND/CDFG Fees. The California Environmental Quality Act (CEQA) requires that an environmental determination be prepared for this project. County staff completed an environmental initial study for this project and properly circulated it for review. This study represents the independent judgment of the County acting as lead agency for the project. The project will not have a significant adverse impact on the environment with the implementation of all the required conditions of approval and mitigation measures. A Mitigated Negative Declaration (MND) will be issued indicating that all identified impacts were found to be mitigated below a level of significance. A Notice of Determination (NOD) of this finding is required to be filed with a fee (currently $50). The California Department of Fish and Wildlife (CDFW) requires that an additional fee (currently $2,181.25) be paid with the NOD filing, unless CDFG issues a determination of “No Biological Effect”. The combined fees ($2,231.25) are required to be paid to the Clerk of the Board with the NOD filing. The project approval does not become effective, until these fees are paid and the filing is posted.

12. Project Account. The Job Costing System (JCS) account number is P201300121. This is an actual cost project with a deposit account to which hourly charges are assessed by various county agency staff (e.g. Land Use Services, Public Works and County Counsel). Upon notice, the “developer” shall deposit additional funds to maintain or return the account to a positive balance. The “developer” is responsible for all expenses charged to this account. Processing of the project shall cease, if it is determined that the account has a negative balance and that an additional deposit has not been made in a timely manner. A minimum balance of $1000.00 shall be in the project account at the time of project approval and the initiation of the Condition Compliance Review. Sufficient funds shall remain in the account to cover all estimated charges that may be made during each compliance review. All fees required for processing shall be paid in full prior to final inspection, occupancy and/or operation of each approved use in each approved structure or land use activity area. There shall be sufficient funds ($500.00) remaining in the account to properly fund file closure and any other
required post-occupancy compliance review and inspection requirements (e.g. landscape performance).

13. **Condition Compliance.** In order to obtain construction permits for grading, or any new building, final inspection, the developer shall process a Condition Compliance Release Form (CCRF) for each respective building and/or phase of the development through County Planning in accordance with the directions stated in the Approval letter. County Planning shall release their holds on each phase of development by providing to County Building and Safety the following:
   - **Grading Permits** - a copy of the signed CCRF for grading/land disturbance and two “red” stamped and signed approved copies of the grading plans.
   - **Building Permits** - a copy of the signed CCRF for building permits and three “red” stamped and signed approved copies of the final approved site plan.
   - **Final Inspection** - a copy of the signed CCRF for final inspection of each respective building, after an on-site compliance inspection by County Planning.
   - **Tenant Occupancy** - a copy of the signed CCRF for tenant occupancy of each respective building, after an on-site compliance inspection by County Planning.

14. **Additional Permits.** The property owner, developer, and land use operator are all responsible to ascertain and comply with all laws, ordinances, regulations and any other requirements of Federal, State, County and Local agencies as are applicable to the development and operation of the approved land use and project site. These include:
   a) **STATE:** Regional Water Quality Control Board (RWQCB) – Santa Ana Region, South Coast Air Quality Management District (AQMD).
   b) **COUNTY:** Land Use Services-Building and Safety, Code Enforcement, County Fire; Public Health-Environmental Health Services (DEHS), Public Works, AND
   c) **Local:** West Valley Water District provides water to this area.

15. **Continuous Maintenance.** The property owner and “developer” shall continually maintain the property so that it is visually attractive and not dangerous to the health, safety and general welfare of both on-site users (e.g. employees) and surrounding properties. The “developer” shall ensure that all facets of the development are regularly inspected, maintained and that any defects are timely repaired. Among the elements to be maintained, include but are not limited to:
   a) **Annual maintenance and repair inspections** shall be conducted for all structures, fencing/walls, walks, parking lots, driveways, and signs to assure proper structural, electrical and mechanical safety and a properly operating irrigation system.
   b) **Graffiti and debris** shall be removed immediately with weekly maintenance.
   c) **Landscaping** shall be maintained in a continual healthy thriving manner at proper height for required screening. Drought-resistant, fire retardant vegetation shall be used where practicable. Where landscaped areas are

*Mitigation Measures are shown in Italics*
irrigated, it shall be done in a manner designed to conserve water, minimizing aerial spraying.

d) **Erosion control** measures shall be maintained to reduce water run off, siltation, and promote slope stability.

e) **Architectural controls** shall be enforced by the property owner to maintain compatibility of theme, materials, unfaded colors, building mass, size and height.

f) **External Storage**, loading, recycling and trash storage areas shall be kept neat, orderly, and fully screened from public view with a solid masonry wall not less than 6 feet in height. The wall shall include sight-obscuring gates. The solid wall(s) and gate(s) shall be continuously maintained in good repair. Commercial outside storage shall be fully screened from public view and not exceed the height of screening walls. No outdoor storage is allowed within any required setback.

g) **Metal Storage Containers** shall be screened by landscaping or other means.

h) **Signage.** All on-site signs, including posted area signs (e.g. “No Trespassing”) shall be maintained in a clean readable condition at all times and all graffiti and vandalism shall be removed and repaired on a regular weekly basis. Signs on the site shall be of the size and general location as shown on the approved site plan or an approved sign plan.

i) **Parking and on-site circulation requirements**, including surfaces, all markings and traffic/directional signs shall be maintained in an unfaded condition as identified on the approved site plan. Any modification to parking and access layout requires County review and approval. The markings and signs shall be clearly defined and legible. These include parking spaces, disabled space and access path of travel, directional designations and signs, stop signs, pedestrian crossing, speed humps “No Parking” “carpool” and “Fire Lane” designations.

16. **Performance Standards.** The approved land uses shall operate in compliance with the general performance standards listed in the County Development Code Chapter 83.01, regarding air quality, electrical disturbance, fire hazards (storage of flammable or other hazardous materials), heat, noise, vibration and the disposal of liquid waste. In addition to these, none of the following shall be perceptible without instruments at any point outside the project boundaries at adjoining property lines:

- **Odors:** No offensive or objectionable odor
- **Emissions:** No emission of dirt, dust, fly ash, and other forms of particulate matter.
- **Smoke:** No smoke from any project source shall be emitted of a greater density than that described in No. 2 on the Ringelmann Chart (as published currently by the United States Bureau of Mines)
- **Radiation:** No dangerous amount of radioactive emissions.
- **Toxic Gases:** No emission of toxic, noxious or corrosive fumes of gases.
17. **Lighting.** The glare from any luminous source, including on-site lighting shall not exceed one-half (0.5) foot-candle at property line. All lighting shall be limited to that necessary for maintenance activities and security purposes. This is to allow minimum obstruction of night sky remote area views. No light shall project onto adjacent roadways in a manner that interferes with on-coming traffic. All signs proposed by this project shall only be lit by steady, stationary, shielded light directed at the sign, by light inside the sign, by direct stationary neon lighting or in the case of an approved electronic message center sign alternating no more than once every five seconds.

18. **Clear Sight Triangle.** Adequate visibility for vehicular and pedestrian traffic shall be provided at clear sight triangles at all 90 degree angle intersections of public rights-of-way and private driveways. All signs, structures and landscaping located within any clear sight triangle shall comply with the height and location requirements specified by County Development Code (SBCC § 83.02.030) or as otherwise required by County Traffic.

19. **Underground Utilities.** There shall be no new above ground power or communication lines extended to the site. All new utilities shall be placed underground in a manner, which avoids disturbing any existing/natural vegetation or the site appearance. Existing utilities around the site perimeter shall also be placed underground, where possible in coordination with the utility provider.

20. **Operational Security.** Implementation of operational security measures for commercial and industrial uses is highly recommended to include video surveillance and security patrols during non-business hours. The installation of exterior security lighting for all public areas in compliance with any night sky regulations is encouraged. This will assist in crime prevention and detection.

21. **Access.** The access point to the facility shall remain unobstructed at all times, except a driveway access gate, which may be closed after normal working hours.

22. **Construction Hours.** Construction will be limited to the hours between 7:00 AM and 7:00 PM, Monday through Saturday in accordance with the SBCC standards. No construction activities are permitted outside of these hours or on Sundays and Federal holidays.

23. **Commercial Vehicles (GHG Reduction Measure R2T1).** The applicant, developer and tenant shall require that all commercial vehicles operating on site and at loading docks shall limit idling to 5 minutes or less per trip. (1 point)

24. **Noise Reduction Measures.** The “developer” shall implement the following Noise Impact Analysis measures to the satisfaction of County Planning:

- Mitigation Measures are shown in Italics
a) No More than 8 diesel refrigerated trucks and electrical refrigerated trucks shall be operating at the same time during the nighttime hours (10:00 pm to 7:00 am) on the east side of the building; and
b) No more than 10 diesel trucks shall be idling at the same time during nighttime hours (10:00 pm to 7:00 am) on the west side of the building; plus

c) No more than 31 non-refrigerated diesel trucks shall be operating at the same time during the nighttime hours (10:00 pm to 7:00 am) on the west side of the building; and
d) No more than 12 diesel trucks shall be idling at the same time during the nighttime hours (10:00 pm to 7:00 am) on the west side of the building.

[Mitigation Measure XVI-1, see also Condition 128]

25. **AQ/Operational.** The “developer” shall implement the following air quality mitigation measures, during operation of the approved land use: All on-site equipment and vehicles (off-road/ on-road), shall comply with the following:

a) County Diesel Exhaust Control Measures [SBCC §83.01.040 (c)]

b) Signs shall be posted requiring all vehicle drivers and equipment operators to turn off engines when not in use.

c) All engines shall not idle more than five minutes in any one-hour period on the project site. This includes all equipment and vehicles.

d) Engines shall be maintained in good working order to reduce emissions.

e) Ultra low-sulfur diesel fuel shall be utilized.

f) Electric, CNG and gasoline-powered equipment shall be substituted for diesel-powered equipment, where feasible.

g) On-site electrical power connections shall be made available, where feasible.

h) All transportation refrigeration units (TRU’s) shall be provided electric connections, when parked on-site.

[Mitigation Measure III-1]

LAND USE SERVICES - Code Enforcement (909) 387-4044

26. **Enforcement.** If any County agency is required to enforce compliance with the conditions of approval, the property owner and “developer” shall be charged for such enforcement activities in accordance with the County Code Schedule of Fees. Failure to comply with these conditions of approval or the approved site plan design required for this project approval shall be enforceable against the property owner and “developer” (by both criminal and civil procedures) as provided by the San Bernardino County Code, Title 8 - Development Code; Division 6 - Administration, Chapter 86.09 - Enforcement.

27. **Weed Abatement.** The developer shall comply with San Bernardino County weed abatement regulations [SBCC§ 23.031-23.043] and periodically clear the site of all non-complying vegetation. This includes removal of all Russian thistle (tumbleweeds).
PUBLIC HEALTH - Environmental Health Services (DEHS) (909) 387-4666

28. **Noise.** Noise level shall be maintained at or below County Development Code Standards, Section 83.01.080. For information, please call DEHS at 1-800-442-2283.

29. **Septic System.** The septic system shall be maintained so as not to create a public nuisance and shall be serviced by a DEHS permitted pumper. For information, please call DEHS/Wastewater Section at: 1-800-442-2283.

30. **Refuse Storage/Removal.** All refuse generated at the premises shall at all times be stored in approved containers and shall be placed in a manner so that environmental public health nuisances are minimized. All refuse not containing garbage shall be removed from the premises at least 1 time per week, or as often as necessary to minimize public health nuisances. Refuse containing garbage shall be removed from the premises at least 2 times per week, or as often if necessary to minimize public health nuisances, by a permitted hauler to an approved solid waste facility in conformance with San Bernardino County Code Chapter 8, Section 33.0830 et. seq. For information, please call DEHS/LEA at: 1-800-442-2283.

COUNTY FIRE - Community Safety (909) 386-8465

31. **Fire Jurisdiction.** The above referenced project is under the jurisdiction of the San Bernardino County Fire Department herein ("Fire Department"). Prior to any construction occurring on any parcel, the developer shall contact the Fire Department for verification of current fire protection requirements. All new construction shall comply with the current Uniform Fire Code requirements and all applicable statutes, codes, ordinances and standards of the Fire Department.

LAND USE SERVICES - Land Development – Drainage (909) 387-8311

32. **Tributary Drainage.** Adequate provisions should be made to intercept and conduct the tributary off site - on site drainage flows around and through the site in a manner, which will not adversely affect adjacent or downstream properties at the time the site is developed.

33. **Additional Drainage Requirements.** In addition to drainage requirements stated herein, other "on-site" and/or "off-site" improvements may be required which cannot be determined from tentative plans at this time and would have to be reviewed after more complete improvement plans and profiles have been submitted to this office.

34. **Natural Drainage.** The natural drainage courses traversing the site shall not be occupied or obstructed.

*Mitigation Measures are shown in Italics*
35. **Continuous BMP Maintenance.** The property owner/“developer” is required to provide periodic and continuous maintenance of all Best Management Practices (BMP) devices/facilities listed in the County approved Water Quality Management Plan (WQMP) for the project. This includes but is not limited to, filter material replacement and sediment removal, as required to assure peak performance of all BMPs. Furthermore, such maintenance activity will require compliance with all Local, State, or Federal laws and regulations, including those pertaining to confined space and waste disposal methods in effect at the time such maintenance occurs.

36. **BMP Enforcement.** In the event the property owner/“developer” (including any successors or assigns) fails to accomplish the necessary BMP maintenance within five (5) days of being given written notice by County Public Works, then the County shall cause any required maintenance to be done. The entire cost and expense of the required maintenance shall be charged to the property owner and/or “developer”, including administrative costs, attorney’s fees and interest thereon at the rate authorized by the County Code from the date of the original notice to the date the expense is paid in full.

PUBLIC WORKS - Survey Division (909) 387-8145

37. **Parcel Map Recordation.** Tentative Parcel Map 19448 must be recorded prior to any land disturbance or grading permits.

38. **Monumentation.** If any activity on this project will disturb any land survey monumentation, including but not limited to vertical control points (benchmarks), said monumentation shall be located and referenced by or under the direction of a licensed land surveyor or registered civil engineer authorized to practice land surveying prior to commencement of any activity with the potential to disturb said monumentation, and a corner record or record of survey of the references shall be filed with the County Surveyor (Section 8771(b) Business and Professions Code).

39. **Record of Survey.** A Record of Survey/Corner Record shall be filed in the following instances:

- Legal descriptions or construction staking based upon a field survey of the boundary or building setbacks.
- Monuments set to mark the property lines.

Pursuant to applicable sections of the Business and Professions Code.

PUBLIC WORKS – Traffic Division (909) 387-8186

40. **Restricted Traffic Maneuvers.** Project Vehicles shall not back out into the public roadway.
41. **Project Driveways.** The easterly project driveway along Slover Avenue will be restricted to right-in/right-out access only. This driveway shall prohibit both left-turn in and left-turn out access.

42. **Emergency Access.** The project access, located along the rear of the property, to Linden Avenue may only be used for emergency vehicles.

**PUBLIC WORKS - Solid Waste Management (909) 387-8701**

43. **Recycling Storage Capacity.** The developer shall provide equal space and storage bins for both refuse and recycling materials. This requirement is to assist the County in compliance with the recycling requirements of AB 2176.

44. **Mandatory Commercial Recycling.** Beginning July 1, 2012, all businesses defined to include a commercial or public entity that generates 4 or more cubic yards of commercial solid waste a week or is a multi-family residential dwelling of 5 units or more to arrange for recycling services. The County is required to monitor business recycling and will require the business to provide recycling information. This requirement is to assist the County in compliance with the recycling requirements of AB 341. (2 points)

45. **Mandatory Commercial Trash Service.** This project falls within a Uniform Handling Service area. If uniform handling service is implemented for all or part of a particular franchise area, all owners or a dwelling or a commercial or industrial unit within the uniform handling area who are required to have uniform handling service shall, upon notice thereof, be required to accept uniform handling service from the grantee holding a franchise agreement and pay the rate of such services. This requirement is a stipulation of County Code Title 4, Division 6, Chapter 5, Section 46.0501.

*Mitigation Measures are shown in Italics*
PRIOR TO ISSUANCE OF GRADING PERMITS
The following shall be completed:

LAND USE SERVICES - Building and Safety (909) 387-4246

46. **Tree Removal Permit.** A preconstruction inspection, tree removal plan and permit in compliance with the County’s Plant Protection and Management Ordinance, shall be approved prior to any land disturbance and/or removal of any trees or plants.

47. **Grading Plans.** If grading exceeds fifty (50) cubic yards, approved plans from Building and Safety will be required.

48. **Soils Report.** When earthwork quantities exceed 5,000 cubic yards, a new/updated geotechnical (soil) report shall be submitted to the Building and Safety Division for review and approval prior to issuance of grading permits.

LAND USE SERVICES - Planning (909) 387-8311

49. **AQ-Dust Control Plan.** The “developer” shall prepare, submit for review and obtain approval from County Planning of both a Dust Control Plan (DCP) consistent with SCAQMD guidelines and a signed letter agreeing to include in any construction contracts/ subcontracts a requirement that project contractors adhere to the requirements of the DCP. The DCP shall include the following requirements:
   a) Exposed soil shall be kept continually moist to reduce fugitive dust during all grading and construction activities, through application of water sprayed a minimum of two times each day.
   b) During high wind conditions (i.e., wind speeds exceeding 25 mph), areas with disturbed soil shall be watered hourly and activities on unpaved surfaces shall cease until wind speeds no longer exceed 25 mph.
   c) Storage piles that are to be left in place for more than three working days shall be sprayed with a non-toxic soil binder, covered with plastic or revegetated.
   d) Storm water control systems shall be installed to prevent off-site mud deposition.
   e) All trucks hauling dirt away from the site shall be covered.
   f) Construction vehicle tires shall be washed, prior to leaving the project site.
   g) Rumble plates shall be installed at construction exits from dirt driveways.
   h) Paved access driveways and streets shall be washed and swept daily when there are visible signs of dirt track-out.
   i) Street sweeping shall be conducted daily when visible soil accumulations occur along site access roadways to remove dirt dropped or tracked-out by construction vehicles. Site access driveways and adjacent streets shall be

*Mitigation Measures are shown in Italics*
washed daily, if there are visible signs of any dirt track-out at the conclusion of any workday and after street sweeping.

[Mitigation Measure III-2] Prior to Grading Permit/Planning

50. AQ - Construction Mitigation. The “developer” shall submit for review and obtain approval from County Planning of a signed letter agreeing to include as a condition of all construction contracts/subcontracts requirements to reduce vehicle and equipment emissions and other impacts to air quality by implementing the following measures and submitting documentation of compliance: The developer/construction contractors shall do the following:
   a) Provide documentation prior to beginning construction demonstrating that the project will comply with all SCAQMD regulations including 402, 403, 431.1, 431.2, 1113 and 1403.
   b) Each contractor shall certify to the developer prior to construction-use that all equipment engines are properly maintained and have been tuned-up within last 6 months.
   c) Each contractor shall minimize the use of diesel-powered vehicles and equipment through the use of electric, gasoline or CNG-powered equipment. All diesel engines shall have aqueous diesel filters and diesel particulate filters.
   d) All gasoline-powered equipment shall have catalytic converters.
   e) Provide onsite electrical power to encourage use of electric tools.

[Mitigation Measure III-4] Building Permits/Planning

51. Cultural Resources. The developer/property owner shall submit for review and obtain approval from County Planning of a letter agreeing to adhere to the following requirements and to include in any construction contracts/subcontracts a provision that project contractors shall also adhere to the following requirements:
   • If archaeological, paleontological and/or historical resources are uncovered during ground disturbing activities, all work in that area shall cease immediately until written clearance by County Planning is provided indicating that satisfactory mitigation has been implemented. A qualified expert (e.g. archaeologist or paleontologist), as determined by County Planning in consultation with the County Museum shall be hired to record the find and recommend any further mitigation. The developer shall implement any such additional mitigation to the satisfaction of County Planning.
   • If human remains are uncovered during ground disturbing activities, the San Bernardino County Coroner shall be contacted within 24 hours of the find. If the remains or cultural artifacts are determined to be of Native American origin, the local Native American representative shall also be notified.

52. Construction and Demolition Debris Diversion Program (GHG Reduction Measure R2W5). Pursuant to the requirements of Solid Waste Management Division, the contractor shall recycle a minimum of 50% of all project related construction and demolition debris. Prior to issuance of a Grading Permit the developer shall submit
a plan of construction recycling showing how a minimum of 50% of all construction related materials will be recycled (6 points).

LAND USE SERVICES - Land Development – Drainage (909) 387-8311

53. **Drainage Facility Design.** A Registered Civil Engineer shall investigate and design adequate drainage facilities to intercept and conduct the off-site and on-site drainage flows around and through the site in a manner, which will not adversely affect adjacent or downstream properties. Submit drainage study for review and obtain approval. A $520 deposit for drainage study review will be collected upon submittal to the Land Development Division.

54. **Topo Map.** A topographic map shall be provided to facilitate the design and review of necessary drainage facilities.

55. **Grading Plans.** Grading plans shall be submitted for review and approval obtained. A $520 deposit for grading plan review will be collected upon submittal to the Land Development Division.

56. **Permit.** A permit, or authorized clearance, shall be obtained from Land Development Division prior to issuance of a grading permit by County Building and Safety.

57. **WQMP.** A completed Water Quality Management Plan (WQMP) shall be submitted for review and approval obtained. A $2,500 deposit for WQMP review will be collected upon submittal to the Land Development Division. Copies of the WQMP guidance and template can be found at: [http://www.sbcounty.gov/dpw/land/environmental_mgmt.asp](http://www.sbcounty.gov/dpw/land/environmental_mgmt.asp)

58. **WQMP Inspection Fee.** The developer shall deposit an inspection fee for WQMP in the amount of $3,600 to Land Development Division.

PUBLIC WORKS - Solid Waste Management (909) 387-8701

59. **C&D Plan – Part 1.** The developer shall prepare, submit, and obtain approval from Solid Waste Management Division (SWMD) of a “Construction Waste Management Recycling Plan (C&D Plan), Part I” for each phase of the project. The C&D Plan shall list the types and volumes of solid waste materials expected to be generated from grading and construction. The Plan shall include options to divert from landfill disposal materials for reuse or recycling by a minimum of 50% of total volume. Forms can be found on our website at [www.sbcounty.gov/dpw/solidwaste](http://www.sbcounty.gov/dpw/solidwaste).

Upon completion of construction, the developer shall complete SWMD’s C&D Plan Part 2 and shall provide documentation of diversion of materials including...
but not limited to receipts or letters documenting material types and weights from diversion facilities or certification reuse of materials on site.

COUNTY FIRE - Community Safety (909) 386-8465

60. **Water System.** Prior to any land disturbance, the water system shall be designed to meet the required fire flow for this development and shall be approved by the Fire Department. The required fire flow for this development and shall be approved by the Fire Department. The required fire flow shall be determined by using Appendix IIIA of the Uniform Fire Code.

61. **Fire Conditions.** Construction permits, including Fire Condition Letters, shall automatically expire and become invalid unless the work authorized by such permit is commenced within 180 days after its issuance, or if the work authorized by such permit is suspended or abandoned for a period of 180 days after the time the work is commenced. Suspension or abandonment shall mean that no inspection by the Department has occurred with 180 days of any previous inspection. After a construction permit or Fire Condition Letter, becomes invalid and before such previously approved work recommences, a new permit shall be first obtained and the fee to recommence work shall be one-half the fee for the new permit for such work, provided no changes have been made or will be made in the original construction documents for such work, and provided further that such suspension or abandonment has not exceeded one year. A request to extend the Fire Condition Letter or Permit may be made in writing PRIOR TO the expiration date justifying the reason that the Fire Condition Letter should be extended.
PRIOR TO ISSUANCE OF BUILDING PERMITS

The following shall be completed:

LAND USE SERVICES - Building and Safety (909) 387-4246

62. **Building Plans.** One copy of the proposed professionally prepared building plans shall be submitted for plan review with appropriate fees and approval of these shall be obtained with permits, for any building, sign, or structure (including trash enclosures) to be constructed or located on site.

63. **Wall Plans.** Submit professionally prepared plans for review and obtain approval with permits for all fences and walls greater than six feet (6') in height and any required walls, retaining walls or trash enclosures.

64. **Outdoor Lighting Plans.** Three copies of the proposed professionally prepared Outdoor lighting plan shall be submitted for plan review with appropriate fees and approval of these shall be obtained with permits, prior to any lighting installation.

65. **Sign Plans.** Any building, sign, or structure to be constructed or located on site will require professionally prepared plans approved by the Building and Safety Division.

66. **Green Building Standards.** All new buildings shall be designed to include the “Green Building Measures” as outlined in the California Green Building Standards Code.

67. **Disabled Access.** Provide van accessible parking spaces for the disabled. One in every eight accessible spaces, but not less than one, shall be served by an access aisle 96 inches wide and shall be designated van accessible. The words “NO PARKING” shall be painted on the ground within each eight-foot loading area as specified in the California Building Code.

68. **Path of Travel.** Provide a path of travel from the disabled parking spaces up to the primary entrance of each accessible building or area.

69. **Energy Efficiency for Commercial Development (GHG Reduction Measure R2E7).** The developer shall document that the design of the proposed structure exceeds the energy efficiency requirements as indicated below:
   - Insulation – Enhanced Insulation (15% > Title 24) (8 points)
   - Windows – Enhanced Window Insulation (15% > Title 24) (8 points)
   - Doors – Enhanced Doors (15% > Title 24) (8 points)
   - Air Infiltration – Modest Building Envelope Leakage (5%>Title 24) (4 points)
   - Thermal Storage of Building – Thermal Storage Reduce Heating/Cooling by 5°F within Building (6 points)
 CONDITIONS OF APPROVAL

PAGE 17 OF 30

APN: 0252-173-67, & 66
P201300121/CF
Bloomington Industrial Property Owner, LLC.
Planning Commission: 09/18/2014

EFFECTIVE DATE: 09/30/2014
EXPIRATION DATE: 09/30/2017

Mitigation Measures are shown in Italics

- Heating and Cooling Distribution System – Modest Distribution Losses (15% > Title 24) (8 points)
- Space Heating/Cooling Equipment – Efficiency HVAC (5% > Title 24) (4 points)
- Water Heaters – High Efficiency Water Heaters (Conventional water heater that is 15%>Title 24) (8 points)
- Daylighting – All Peripheral rooms within the building will have at least one window or skylight (1 Point)
- Artificial Lighting – Efficiency Lighting (5%>Title 24) (4 points)
- Appliances – High Efficiency Appliances (15% > Title 24) (8 points)
- Building Placement – North South Alignment (4 points)

70. **Potable Water - Per Capita Water Use Reduction Goal (GHG Reduction Measure R2WC-1).** The project shall include the following potable water reduction measures that exceeds the current Title 24 energy efficiency requirements as indicated below:
   - The project shall include EPA High Efficiency toilets/urinals (15% > Title 24) (3 points).
   - The project shall include EPA High Efficiency faucets (15% > Title 24) (3 points).

LAND USE SERVICES - Planning (909) 387-8311

71. **Building Elevations.** The developer shall obtain approval from County Planning for the exterior elevations on all four sides of the proposed building. The elevations shall demonstrate horizontal and vertical elements (e.g. trim design, architectural elements, windows, etc.). All sides of the building, except loading dock areas shall have landscape planters adjacent to the building walls. The use of trellises, arbors, planters and atriums is encouraged. All walls shall be shown and approved by County Planning prior to construction. All new proposed structures and their related elements shall be painted, treated, or otherwise finished to blend in to the surrounding existing architectural theme. Screening materials shall blend into adjacent architectural elements. All roof mounted mechanical equipment shall be screened from view and shall be painted to match the roof color.

72. **Underground Utilities.** All new on-site utility lines (66KV or less) located on or around the perimeter of the site, shall be placed underground. The developer will work cooperatively with the County and appropriate utility agencies to underground these facilities.

73. **AQ - Coating Restriction Plan.** The developer shall submit for review and obtain approval from County Planning of a Coating Restriction Plan (CRP), consistent with SCAQMD guidelines and a signed letter agreeing to include in any construction contracts/subcontracts a condition that the contractors adhere to the
Mitigation Measures are shown in Italics

requirements of the CRP. The CRP measures shall be following implemented to
the satisfaction of County Building and Safety:

a) Architectural coatings with Reactive Organic Compounds (ROC) shall not
have content greater than 100 g/l.

b) Architectural coating volume shall not exceed the significance threshold for
ROG, which is 75 lbs./day and the combined daily ROC volume of
architectural coatings and asphalt paving shall not exceed the significance
threshold for ROC of 75 lbs. per day.

c) High-Volume, Low Pressure (HVLP) spray guns shall be used to apply
coatings.

d) Precoated/natural colored building materials, water-based or low volatile
organic compound (VOC) coatings shall be used, if practical.

e) Comply with SCAQMD Rule 1113 on the use or architectural coatings.

[Mitigation Measure III-4] Prior to Building Permit/Planning

74. Landscape and Irrigation Plan. Landscape and Irrigation Plans shall be prepared
in conformance with Chapter 83.10, Landscaping Standards, of the County
Development Code. The developer shall submit four copies of a landscape and
irrigation plan to County Planning.

75. Irrigation and Landscaping - Per Capita Water Use Reduction Goal (GHG
Reduction Measure Р2WC-1). The Project Landscape and Irrigation Plans shall
include the following irrigation and landscaping water reduction measures:

- The Project shall eliminate conventional turf from landscaping (3 points).
- The Project shall include drip irrigation and the installation of a water efficient
landscaping system that utilizes a smart irrigation control system, with a
demonstrated 20 percent reduced water use (5 points).

LAND USE SERVICES - Code Enforcement (909) 387-4044

76. Sign Registration. Prior to installation of any freestanding, wall, roof, projecting
or monument sign, an approved sign registration application and plot plan are
required.

PUBLIC WORKS/ Solid Waste Management (909) 386-8701

77. C&D Plan – Part 1. The developer shall prepare, submit, and obtain approval
from Solid Waste Management Division (SWMD) of a “Construction Waste
Management Recycling Plan (C&D Plan), Part I” for each phase of the project.
The C&D Plan shall list the types and volumes of solid waste materials expected
to be generated from grading and construction. The Plan shall include options to
divert from landfill disposal materials for reuse or recycling by a minimum of 50%
of total volume. Forms can be found on our website at
www.sbcounty.gov/dpw/solidwaste.
Upon completion of construction, the developer shall complete SWMD's C&D Plan Part 2 and shall provide documentation of diversion of materials including but not limited to receipts or letters documenting material types and weights from diversion facilities or certification reuse of materials on site.

SPECIAL DISTRICTS - Street Lights (909) 387-5940

78. **Street Lighting Plans.** This project lies within the boundaries of County Service Area 70, Zone SL-1. If street lighting is required, then street lighting plans, plan check fees and (1) one-year advanced energy charges must be submitted to and approved by Special Districts Department. Please submit plans and plan check fees to Special Districts Department, 157 W. 5th St., 2nd Floor, San Bernardino, CA 92415-0450. For additional information regarding street light plans, please call Special Districts Department, Lien Administration Section at (909) 387-5829.

PUBLIC HEALTH - Environmental Health Services (DEHS) (800) 442-2283

79. **Water.** Water purveyor shall be West Valley Water District or EHS approved EHS Approved.

80. **Water Letter.** Applicant shall procure a verification letter from the water agency with jurisdiction. This letter shall state whether or not water connection and service shall be made available to the project by the water agency. This letter shall reference the Assessor’s Parcel Number. For projects with current active water connections, a copy of water bill with project address may suffice. For information, contact the Water Section at 800-442-2283.

81. **Sewer.** Method of sewage disposal shall be EHS Approved.

82. **Wastewater Verification.** Developer shall procure a verification letter from the sewering agency with jurisdiction. This letter shall state whether or not sewer connection and service shall be made available to the project by the sewering agency. This letter shall reference the File Number and Assessor’s Parcel Number.

83. **On-Site Wastewater Treatment.** If sewer connection and/or service are unavailable, onsite wastewater treatment system(s) may then be allowed under the following conditions: A soil percolation report shall be submitted to DEHS for review and approval. A plot plan showing the location of the septic system may be required by DEHS prior to the issuance of building permits. If the percolation report cannot be approved, the project may require and alternative OWTS. For information, please contact the Wastewater Section at 1-800-442-2283.

84. **Existing Septic System.** Existing septic system can be used if applicant provides certification from a qualified professional (i.e., Professional Engineer (P.E.), Registered Environmental Health Specialist (REHS), C42 contractor, Certified

*Mitigation Measures are shown in Italics*
Engineering Geologist (C.E.G.), etc.) that the system functions properly, meets code, and has the capacity required for the proposed project. Applicant shall provide documentation outlining methods used in determining function.

85. **Verification.** Submit verification of annexation to DEHS for any project that requires water or sewer connection outside a purveyor’s jurisdiction. For information, contact LAFCO at: 909-383-9900.

86. **RWQCB Clearance.** Written clearance shall be obtained from the designated California Regional Water Quality Control Board (listed below) and a copy forwarded to the Division of Environmental Health Services:

Santa Ana Region, 3737 Main St., Suite 500, Riverside, CA 92501-3339, 951-782-4130

87. **Acoustical Information.** Submit preliminary acoustical information demonstrating that the proposed project maintains noise levels at or below San Bernardino County Noise Standard(s), San Bernardino Development Code Section 83.01.080. The purpose is to evaluate potential future on-site and/or adjacent off-site noise sources. If the preliminary information cannot demonstrate compliance to noise standards, a project specific acoustical analysis shall be required. Submit information/analysis to the DEHS for review and approval. For information and acoustical checklist, contact DEHS at 800-442-2283.

88. **Food Establishments.** Plans for food establishments shall be reviewed and approved by DEHS. For information, call DEHS/Plan Check at: 1-800-442-2283.

**LAND USE SERVICES - Land Development – Roads (909) 387-8311**

89. **Road Dedication/Improvement.** The developer shall submit for review and obtain approval from the Land Use Services Department the following dedications, plans and permits for the listed required improvements, designed by a Registered Civil Engineer (RCE), licensed in the State of California. These shall be submitted to the Land Use Services Department, located at 385 N. Arrowhead Ave, San Bernardino CA 92415-0187. Phone: (909) 387-8311.

**Locust Avenue (Collector – 66')**

- **Road Dedication.** A 3 foot grant of easement is required to provide a half-width right-of-way of 33'.

90. **Transitional Improvements.** Right-of-way and improvements (including off-site) to transition traffic and drainage flows from proposed to existing, shall be required as necessary.

**PUBLIC WORKS - Traffic Division (909) 387-8186**

Mitigation Measures are shown in Italics
91. **Regional Transportation Mitigation Fees.** This project falls within the Regional Transportation Development Mitigation Plan for the Rialto Subarea. This fee shall be paid by a cashier’s check to the Department of Public Works Business Office. The Plan fees shall be computed in accordance with the Plan fees in effect as of the date that the building plans are submitted and the building permit is applied for. These fees are subject to change. The current Regional Transportation Fee Plan can be found at the following website: [Mitigation Measure XVI-1](http://www.sbcounty.gov/dpw/transportation/transportation_planning.asp)

COUNTY FIRE - Community Safety (909) 386-8465

92. **Access.** The development shall have a minimum of 2 points of vehicular access. These are for fire/emergency equipment access and for evacuation routes. Standard 902.2.1

- **Single Story Road Access Width.** All buildings shall have access provided by approved roads, alleys and private drives with a minimum twenty six (26) foot unobstructed width and vertically to fourteen (14) feet six (6) inches in height. Other recognized standards may be more restrictive by requiring wider access provisions.
- **Multi-Story Road Access Width.** Buildings three (3) stories in height or more shall have a minimum access of thirty (30) feet unobstructed width and vertically to fourteen (14) feet six (6) inches in height.

93. **Building Plans.** Not less than three (3) complete sets of Building Plans shall be submitted to the Fire Department for review and approval.

94. **Water System Large Commercial.** A water system approved and inspected by the Fire Department is required. The system shall be operational, prior to any combustibles being stored on the site. The applicant is required to provide a minimum of one new six (6) inch fire hydrant assembly with one (1) two and one half (2 1/2) inch and two (2) four (4) inch outlet. All fire hydrants shall be spaced no more than three hundred (300) feet apart (as measured along vehicular travel-ways) and no more than one hundred fifty (150) feet from any portion of a structure.

95. **Turnaround.** An approved turnaround shall be provided at the end of each roadway one hundred and fifty (150) feet or more in length. Cul-de-sac length shall not exceed six hundred (600) feet; all roadways shall not exceed a 12% grade and have a minimum of forty five (45) foot radius for all turns. Standard 902.2.1

96. **Fire Sprinkler-NFPA #13.** An automatic fire sprinkler system complying with NFPA Pamphlet #13 and the Fire Department standards is required. The applicant shall hire a Fire Department approved fire sprinkler contractor. The fire
sprinkler contractor shall submit three (3) sets of detailed plans to the Fire Department for review and approval. The plans (minimum 1/8" scale) shall include hydraulic calculations and manufactures specification sheets. The contractor shall submit plans showing type of storage and use with the applicable protection system. The required fees shall be paid at the time of plan submittal.

97. **Fire Alarm.** An automatic monitoring fire alarm system complying with the California Fire Code, NFPA and all applicable codes is required for 100 heads or more. The applicant shall hire a Fire Department approved fire alarm contractor. The fire alarm contractor shall submit three (3) sets of detailed plans to the Fire Department for review and approval. The required fees shall be paid at the time of plan submittal.

98. **Smoke Removal.** An automatic smoke removal system complying with the Uniform Fire Code, NFPA and all applicable codes is required. The applicant shall submit three (3) sets of detailed smoke removal system plans to the Fire Department for review and approval. The required fees shall be paid at the time of plan submittal.

99. **Smoke and Heat Removal.** Mechanical smoke removal systems shall be provided for building protected by EFSR sprinkler systems as required by the Chief. The mechanical smoke removal systems shall meet the requirements of UFC Standard 81-3 and the including the following:

   a. A central control room for fire department operations shall be provided. The location and accessibility of the central control station room shall be approved by the Fire Department. The central control station room shall be separated from the remainder of the building by not less than a one-hour fire-resistive occupancy separation. The room shall be a minimum of ninety-six square feet (96 s.f.) with a minimum dimension of 8 (2438mm). It shall contain the following as a minimum:
      - The fire alarm control panel and system site map.
      - Status indicators and control for mechanical smoke remove removal system.
      - Sprinkler valve and water-flow detector display panels.
      - Schematic building plans indicating the typical floor plan, means of egress, fire-protection systems, firefighting equipment and access.
      - Other fire-protection equipment and system controls as required by the chief.
      - Lighting for the central control station shall have emergency lighting powered by the standby electrical system.

   b. A standby power-generator set conforming to Electrical Code shall be provided on premises. The set shall supply all functions required by this section at full power. Set supervisions with manual start and transfer override features shall be provided at the central control station.

   c. The standby system shall have a capacity and rating that would supply all equipment required to be operational at the same time. All emergency systems power, lighting, signal and communication facilities as applicable: fire pumps required to maintain pressure, standby lighting and normal circuits supplying exit
signs and means of egress illumination shall be transferable to the standby source.

100. **Class I standpipe system.** A Class I standpipe system is required. A Fire Department approved fire sprinkler contractor shall submit three (3) sets of hydraulic calculations and detailed plans to the Fire Department for review and approval, showing type of storage and use with the applicable protection system. Commercial and industrial buildings in excess of two hundred thousand (200,000) square feet with an interior area less than four hundred (400) feet in width, shall be equipped with a Class I standpipe system, located at every other access door with a maximum of three hundred (300) feet spacing. Buildings with an interior area greater than four hundred (400) feet in width shall be equipped with a Class I standpipe system located at every access door maximum of one hundred (100) foot spacing. Standpipe connections shall be configured to reach any portion of interior space within two hundred (200) feet in any direction of travel. This system shall be calculated to provide two hundred and fifty (250) gpm @ 100 psi per hose outlet from an adjacent fire sprinkler riser with two hand lines flowing. The two most hydraulically remote outlets are to be included in the design for a total flow of 500 gpm minimum per system. A Fire Department approved fire sprinkler contractor shall submit four (4) sets of hydraulic calculations and detailed plans, showing type of storage and use with the applicable protection system. The required fees shall be paid at the time of plan submittal. [F70]

101. **Street Sign.** This project is required to have an approved street sign (temporary or permanent). The street sign shall be installed on the nearest street corner to the project. Installation of the temporary sign shall be prior any combustible material being placed on the construction site. Prior to final inspection and occupancy of the first structure, the permanent street sign shall be installed. Standard 901.4.
PRIOR TO FINAL INSPECTION
The Following Shall Be Completed:

LAND USE SERVICES - Building and Safety (909) 387-4226

102. Building Occupancy. Any building without specified tenants and uses may receive final inspection for construction purposes only. A Tenant Improvement that identifies the tenant and proposed uses shall be submitted and approved prior to occupancy being granted.

PUBLIC WORKS / Solid Waste Management (909) 386-8701

103. C&D Plan – Part 2. The developer shall complete SWMD’s C&D Plan Part 2”. This summary shall provide documentation of actual diversion of materials including but not limited to receipts or letters from diversion facilities or certification reuse of materials on site. The C&D Plan – Part 2 shall provide evidence to the satisfaction of County Solid Waste that demonstrates that the project has diverted from landfill disposal materials for reuse or recycling by a minimum of 50% of total volume of all construction waste.

LAND USE SERVICES - Planning (909) 387-8311

104. Parking Lot Installed: On-site parking and circulation requirements shall be installed, inspected and approved as being in compliance with SBCC Chapter 83.11. The appropriate parking plan shall be implemented based on the identified tenant, and stalls painted accordingly. The following shall be completed:
   a) Surface. All access drives shall be surfaced with all weather paving with a minimum of three inches asphalt and six inches of base or greater as determined necessary by County Building and Safety to be adequate to accommodate long-term and extensive use by heavy hauling trucks.
   b) Markings. All circulation markings shall be clearly painted and permanently maintained, including arrows painted to indicate direction of traffic flow.
   c) Crosswalks. All on-site internal pedestrian crosswalks shall be delineated with a minimum 3” white or yellow painted line stripe. All pedestrian crossings in public right-of-way shall be per County Standards.
   d) Stops. All internal parking lot driveway intersections shall be installed with a painted stop limit line and shall have either a breakaway pole “STOP” sign and/or painted “STOP” lettering on the paving in front of the limit line.
   e) Parking Space Striping. All paved parking stalls shall be clearly striped and permanently maintained.
      • All paved non-truck parking stalls shall be striped with double/hairpin lines with the two lines being located an equal nine inches on either side of the stall sidelines. Each use shall have a minimum of four standard parking stalls (9’x19’), one loading zone (10’ x 20’ with 14’ clearance) and one van
accessible space for the disabled (9’+ 8’ x 19’), plus one additional space for each company vehicle.

- All paved truck parking stalls and docks shall have at a minimum a single six-inch wide line per each side of the stall.

f) Multi-modal. All required multi-modal amenities (e.g. bike stands, motorcycle parking, mass transit access, carpool preferred parking, vanpool passenger pickup etc.) shall be installed per approved plans.

105. **Wheel Stops.** All back-in truck trailer parking spaces shall have a wheel stop or other physical barrier twelve feet from any wall, fence or building to prevent damage. All other vehicle spaces shall have wheel stops or curbs installed when adjacent to fences, walls or buildings; these shall be three feet (3’) away from such facilities.

106. **Disabled Parking Installed.** Parking for the disabled with paths of travel to the main building entries shall be installed per SBCC §83.11.060. Disabled access parking spaces shall be clearly and continually designated with pavement markings and signs. At least one van accessible space shall be provided.

107. **Lights Installed.** All required lighting shall be installed in compliance with the approved lighting plan. All lights used to illuminate the site shall be hooded and designed so as to reflect away from adjoining properties and public thoroughfares.

108. **Screening Installed.** All required screening and buffering measures shall be installed. All rooftop mechanical equipment shall be screened from ground vistas. All trash enclosures shall be screened from public view and shall be double-bin capacity with a rainproof roof.

109. **Building Elevations.** The building construction shall be completed in conformance with the approved architectural elevations to the satisfaction of County Planning.

110. **Landscaping Installed.** All proposed landscaping, hardscape, exterior features (benches, walkways, bike racks etc), walls and fencing shall be installed as shown on the approved landscaping plan.

111. **GHG – Installation.** The developer shall submit for review and obtain approval from County Planning evidence that all GHG reduction measures have been installed, implemented and that specified performance objectives are being met.

112. **Noise Impact Analysis.** The developer shall prepare and submit a signed letter agreeing to include in any building sale, lease and sublease contracts a condition that tenants and/or future ownership adhere to the requirements of the Noise Impact Analysis (LSA June 2013) and provisions the County of San Bernardino.
Noise Ordinance. The Noise Impact Analysis measures shall be implemented to the satisfaction of County Planning and shall include the following:

a) No More than 8 diesel refrigerated trucks and electrical refrigerated trucks shall be operating at the same time during the nighttime hours (10:00 pm to 7:00 am) on the east side of the building; and

b) No more than 10 diesel trucks shall be idling at the same time during nighttime hours (10:00 pm to 7:00 am) on the west side of the building; plus

c) No more than 31 non-refrigerated diesel trucks shall be operating at the same time during the nighttime hours (10:00 pm to 7:00 am) on the west side of the building; and

d) No more than 12 diesel trucks shall be idling at the same time during the nighttime hours (10:00 pm to 7:00 am) on the west side of the building.

[Mitigation Measure X-1] Final Inspection/Planning

113. AQ – Installation. The developer shall submit for review and obtain approval from County Planning of evidence that all air quality mitigation measures have been installed, implemented properly and that specified performance objectives are being met to the satisfaction of County Planning and County Building and Safety. These installations/ procedures include the following:

a) Dust Control Plan (DCP)

b) Coating Restriction Plan (CRP)

[Mitigation Measure III-5] Final Inspection/Planning

SPECIAL DISTRICTS (909) 387-5940

114. Street Lighting Installed. All required streetlights shall be installed and operating to the satisfaction of the Special Districts Department.

LAND USE SERVICES - Land Development – Drainage (909) 387-8311

115. Drainage and WQMP Improvements. All required drainage and WQMP improvements shall be completed by the applicant, inspected and approved by County Public Works.

116. WQMP Final File. An electronic file of the final and approved WQMP shall be submitted to Land Development Division, Drainage Section.

LAND USE SERVICES - Land Development – Roads (909) 387-8311

117. LDD Requirements. All LDD requirements shall be completed by the applicant prior to occupancy.

PUBLIC WORKS - Solid Waste Management (909) 387-8701

118. C&D Plan – Part 2. The developer shall complete SWMD’s C&D Plan Part 2”. This summary shall provide documentation of diversion of materials including but
not limited to receipts or letters from diversion facilities or certification reuse of materials on site. The C&D Plan – Part 2 shall provide evidence to the satisfaction of County Solid Waste that demonstrates that the project has diverted from landfill disposal materials for reuse or recycling by a minimum of 50% of total volume of all construction waste.

This summary shall provide documentation of diversion of materials including but not limited to receipts or letters documenting material types and weights from diversion facilities or certification reuse of materials on site.

COUNTY FIRE - Community Safety (909) 386-8400

119. **Hydrant Marking.** Blue reflective pavement markers indicating fire hydrant locations shall be installed as specified by the Fire Department. In areas where snow removal occurs or non-paved roads exist, the blue reflective hydrant marker shall be posted on an approved post along the side of the road, no more than three (3) feet from the hydrant and at least six (6) feet high above the adjacent road.

120. **Commercial – Large Facility Addressing.** Commercial and industrial developments in excess of 100,000 sq. ft. shall have the street address installed on the building with numbers that are a minimum twelve (12) inches in height and with a one and one half (1 1/2) inch stroke. The street address shall be visible from the street. During the hours of darkness, the numbers shall be electrically illuminated (internal or external). Where the building is two hundred (200) feet or more from the roadway, additional non-illuminated contrasting six (6) inch numbers shall be displayed at the property access entrances.

121. **Override Switch.** Where an automatic electric security gate is used, an approved Fire Department override switch (Knox ®) is required.

122. **Key Box.** An approved Fire Department key box is required. The key box shall be provided with a tamper switch and shall be monitored by a Fire Department approved central monitoring service. In commercial, industrial and multi-family complexes, all swing gates shall have an approved fire department Knox Lock. The Knox Box brand key box application shall be obtained from the Redlands City Fire Department.

123. **Fire Extinguishers.** Hand portable fire extinguishers are required. The location, type, and cabinet design shall be approved by the Fire Department.

124. **Fire Lanes.** The applicant shall submit a fire lane plan to the Fire Department for review and approval. Fire lane curbs shall be painted red. The “No Parking, Fire Lane” signs shall be installed on public/private roads in accordance with the approved plan.
125. **High-Piled Storage.** The applicant shall submit an application for high-piled storage (internal storage over 12’ in height), three (3) sets of detailed plans and a commodity analysis report to the Fire Department for review and approval. The applicant shall submit the approved plan to Building and Safety for review with building plans. If the occupancy classification is designated as S-2, commodities to be stored will be limited to products of light hazard classification only. The required fees shall be paid at the time of plan submittal.

COUNTY FIRE - Hazardous Materials Division (909) 386-8401

126. **Underground Storage Tanks.** Prior to operation, the owner/operator shall obtain permits for upgrading or removing existing underground storage tanks. For information, contact the Office of the Fire Marshal, Hazardous Materials Division at (909) 386-8401.

128. **Handlers Permit.** Prior to occupancy, developer shall be required to apply for one or more of the following: a Hazardous Materials Handler Permit, a Hazardous Waste Generator Permit, an Aboveground Storage Tank Permit, and/or an Underground Storage Tank permit. For information call County Fire Department/Hazardous Materials Division, Field Services at (909) 386- 8401.
PRIOR TO TENANT OCCUPANCY
The Following Shall Be Completed:

LAND USE SERVICES - Building and Safety (909) 387-4226

129. **Tenant Occupancy.** Any building without specified tenants and/or land use may receive final inspection for construction purposes ONLY. Buildings that do not have specific occupants or use classification defined at the time of final inspection will receive only a "final construction" approval. When individual “tenants” and/or “land uses” are identified, or a change of “use” and/or “tenant” is proposed, depending on occupancy impacts, the “developer” shall submit for review with appropriate fees and obtain approval of a Tenant Review. The County Building Official may determine in this process that additional land use review and approval is required by County Planning. A construction plan review for Tenant Improvements may be processed simultaneously with the Tenant Review. Only after a construction permit has been issued, all work/installations completed, and a final inspection is signed will an “Occupancy Permit” be granted to individual tenants.

130. **Tenant Improvements (>5.75').** Where applicable, tenants shall submit professionally prepared plans for display racks, counters and partitions greater than 5'9" in height.

LAND USE SERVICES - Planning (909) 387-8311

131. **Notification.** The developer shall provide a copy of these conditions of approval and a copy of the approved plot map to any future property owner, lessee, operator, and/or tenant to notify each interested party of the land use approval and conditions of operation, maintenance, the approved land use and any restrictions/requirements that have been imposed.

132. **75% Solid Waste Diversion Program (GHG Reduction Measure R2W6).** The developer shall require all future tenants to institute a recycling program that provides separated recycling bins inside the proposed structure and a large external recycling collection bin at a central location on site (2 points).

133. **Employee Based Trip and VMT Reduction Policy Measures (GHG Reduction Measures R2T2).** Prior to Tenant Occupancy, the following Employee Based Trip and VMT Reduction Policy measures shall be implemented into the project:
   - The Project applicant shall require that any future tenants institute a ride sharing program that is open to all employees with preferred parking. (2 points)
   - The Project applicant shall require that any future tenants provide employees informational materials regarding the use of local transit. (1 points)

*Mitigation Measures are shown in Italics*
• The Project applicant shall require that any future tenants provide both personal storage lockers (interior) and bicycle storage racks (exterior). (3 points)

COUNTY FIRE - Community Safety (909) 386-8465

134. **High-Piled Storage.** The applicant shall submit an application for high-piled storage (internal storage over 12’ in height), three (3) sets of detailed plans and a commodity analysis report to the Fire Department for review and approval. The applicant shall submit the approved plan to Building and Safety for review with building plans. If the occupancy classification is designated as S-2, commodities to be stored will be limited to products of light hazard classification only. The required fees shall be paid at the time of plan submittal.

135. **Haz-Mat Approval.** The applicant shall contact the San Bernardino County Fire Department/Hazardous Materials Division (909) 386-8400 for review and approval of building plans, where the planned use of such buildings will or may use hazardous materials or generate hazardous waste materials.

END OF CONDITIONS
CONDITIONS OF APPROVAL

Tentative Parcel Map No. 19448
Bloomington Industrial Property Owner, LLC.

GENERAL REQUIREMENTS
Conditions of Operation and Procedures

LAND USE SERVICES - Planning (909) 387-8311

1. **Project Approval Description.** Tentative **Parcel Map No. 19448** is approved to subdivide 54.2 acres into 2 Parcels, and may be recorded in compliance with the San Bernardino County Code (SBCC), pursuant to the following conditions of approval, the approved stamped tentative map, the required Composite Development Plan (CDP) and any Covenants, Conditions and Restrictions (CC&R’s) required by this approval. Proposed Environmental Determination: Mitigated Negative Declaration. Project APN: **0252-173-67, & 68**; Project Number **P201300121**.

2. **Concurrent Actions.** This project also includes the following concurrent actions:
   - Conditional Use Permit to construct a 708,240 square foot industrial building to be used as a High Cube warehouse.

3. **Expiration/TPM.** This conditional approval of the Tentative Parcel Map shall become null and void unless all conditions have been completed and the Tentative Map has been deemed complete by the County Surveyor for purposes of recordation within thirty-six (36) months following the effective approval date, unless an extension of time is granted.

   **PLEASE NOTE:** This will be the ONLY notice given of the approval expiration date. The “developer” is responsible for initiation of any extension request.

4. **Extension of Time/TPM.** Where circumstances cause delays, which do not permit compliance with the required recordation time limit, the developer may submit for review and approval an application requesting an extension of time. County Planning may grant such requests for extensions of time in compliance with the State Map Act Section 66452.6. An Extension of Time may be granted upon a successful review of an Extension of Time application, which includes a justification of the delay in recordation, a plan of action for completion and submittal of the appropriate fee, not less than 30 days prior to the expiration date. The granting of an extension request is a discretionary action that may be subject to additional or revised conditions of approval.

5. **Revisions/TPM.** Any proposed change to the approved Tentative Parcel Map and/or the conditions of approval shall require that an additional land use
application (e.g. Revision to an Approved Action) be submitted to County Planning for review and approval.

6. **Condition Compliance.** Condition compliance confirmation for purposes of Parcel Map recordation will be coordinated by the County Surveyor.

7. **“Developer” Defined.** The term “developer” as used in these conditions of approval for this project and for any development of this project site, includes all of the following: the applicant, the property owner and any lessee, tenant or sub-tenant, operator and/or any other agent or other interested party of the subject project and/or project site and/or any heir or any other successor in interest in the project site or project land use by sale or by lease of all or of a portion of the project site or project land uses and/or any other right given to conduct any land use in any or all of the project structures or any area on the project site.

8. **Indemnification.** In compliance with SBCC §81.01.070, the developer shall agree, to defend, indemnify, and hold harmless the County or its “indemnitees” (herein collectively the County’s elected officials, appointed officials (including Planning Commissioners), Zoning Administrator, agents, officers, employees, volunteers, advisory agencies or committees, appeal boards or legislative body) from any claim, action, or proceeding against the County or its indemnitees to attack, set aside, void, or annul an approval of the County by an indemnitee concerning a map or permit or any other action relating to or arising out of County approval, including the acts, errors or omissions of any person and for any costs or expenses incurred by the indemnitees on account of any claim, except where such indemnification is prohibited by law. In the alternative, the developer may agree to relinquish such approval.

Any condition of approval imposed in compliance with the County Development Code or County General Plan shall include a requirement that the County acts reasonably to promptly notify the developer of any claim, action, or proceeding and that the County cooperates fully in the defense. The developer shall reimburse the County and its indemnitees for all expenses resulting from such actions, including any court costs and attorney fees, which the County or its indemnitees may be required by a court to pay as a result of such action.

The County may, at its sole discretion, participate at its own expense in the defense of any such action, but such participation shall not relieve the developer of their obligations under this condition to reimburse the County or its indemnitees for all such expenses.

This indemnification provision shall apply regardless of the existence or degree of fault of indemnitees. The developer’s indemnification obligation applies to the indemnitees’ “passive” negligence but does not apply to the indemnitees’ “sole” or “active” negligence or “willful misconduct” within the meaning of Civil Code Section 2782.
9. **NOD/MND/CDFG Fees.** The California Environmental Quality Act (CEQA) requires that an environmental determination be prepared for this project. County staff completed an environmental initial study for this project and properly circulated it for review. This study represents the independent judgment of the County acting as lead agency for the project. The project will not have a significant adverse impact on the environment with the implementation of all the required conditions of approval and mitigation measures. A Mitigated Negative Declaration (MND) will be issued indicating that all identified impacts were found to be mitigated below a level of significance. A Notice of Determination (NOD) of this finding is required to be filed with a fee (currently $50). The California Department of Fish and Wildlife (CDFW) requires that an additional fee (currently $2,181.25) be paid with the NOD filing, unless CDFG issues a determination of “No Biological Effect”. The combined fees ($2,231.25) are required to be paid to the Clerk of the Board with the NOD filing. The project approval does not become effective, until these fees are paid and the filing is posted.

10. **Development Impact Fees.** Additional fees may be required prior to issuance of development permits. Fees shall be paid as specified in adopted fee ordinances.

11. **Project Account.** The Job Costing System (JCS) account number is **P201300121**. This is an actual cost project with a deposit account to which hourly charges are assessed by various county agency staff (e.g. Land Use Services, Public Works and County Counsel). Upon notice, the “developer” shall deposit additional funds to maintain or return the account to a positive balance. The “developer” is responsible for all expenses charged to this account. Processing of the project shall cease, if it is determined that the account has a negative balance and that an additional deposit has not been made in a timely manner. A minimum balance of $1000.00 shall be in the project account at the time of project approval and the initiation of the Condition Compliance Review. Sufficient funds shall remain in the account to cover all estimated charges that may be made during each compliance review. All fees required for processing shall be paid in full prior to final inspection, occupancy and/or operation of each approved use in each approved structure or land use activity area. There shall be sufficient funds ($500.00) remaining in the account to properly fund file closure and any other required post-occupancy compliance review and inspection requirements (e.g. landscape performance).

12. **Additional Permits.** The property owner, developer, and land use operator are all responsible to ascertain and comply with all laws, ordinances, regulations and any other requirements of Federal, State, County and Local agencies as are applicable to the development and operation of the approved land use and project site. These include:

   a) **STATE:** Regional Water Quality Control Board (RWQCB) – Santa Ana Region, South Coast Air Quality Management District (AQMD).
b) **COUNTY:** Land Use Services-Building and Safety/Code Enforcement, County Fire; Public Health-Environmental Health Services (DEHS), Public Works, AND

c) **LOCAL:** West Valley Water District provides water to this area.

**LAND USE SERVICES - Code Enforcement (909) 387-4044**

13. **Enforcement.** If any County agency is required to enforce compliance with the conditions of approval, the property owner and “developer” shall be charged for such enforcement activities in accordance with the County Code Schedule of Fees. Failure to comply with these conditions of approval or the approved site plan design required for this project approval shall be enforceable against the property owner and “developer” (by both criminal and civil procedures) as provided by the San Bernardino County Code, Title 8 - Development Code; Division 6 - Administration, Chapter 86.09 - Enforcement.

14. **Weed Abatement.** The developer shall comply with San Bernardino County weed abatement regulations [SBCC§ 23.031-23.043] and periodically clear the site of all non-complying vegetation. This includes removal of all Russian thistle (tumbleweeds).

**LAND USE SERVICES - Land Development (909) 387-8311**

15. **Tributary Drainage.** Adequate provisions should be made to intercept and conduct the tributary off site - on site drainage flows around and through the site in a manner, which will not adversely affect adjacent or downstream properties at the time the site is developed.

16. **Additional Drainage Requirements.** In addition to drainage requirements stated herein, other “on-site” and/or “off-site” improvements may be required which cannot be determined from tentative plans at this time and would have to be reviewed after more complete improvement plans and profiles have been submitted to this office.

17. **Natural Drainage.** The natural drainage courses traversing the site shall not be occupied or obstructed.

18. **Continuous BMP Maintenance.** The property owner/“developer” is required to provide periodic and continuous maintenance of all Best Management Practices (BMP) devices/facilities listed in the County approved Water Quality Management Plan (WQMP) for the project. This includes but is not limited to, filter material replacement and sediment removal, as required to assure peak performance of all BMPs. Furthermore, such maintenance activity will require compliance with all Local, State, or Federal laws and regulations, including those pertaining to confined space and waste disposal methods in effect at the time such maintenance occurs.

*Mitigation Measures are shown in Italics*
19. **BMP Enforcement.** In the event the property owner/"developer" (including any successors or assigns) fails to accomplish the necessary BMP maintenance within five (5) days of being given written notice by County Public Works, then the County shall cause any required maintenance to be done. The entire cost and expense of the required maintenance shall be charged to the property owner and/or “developer”, including administrative costs, attorney’s fees and interest thereon at the rate authorized by the County Code from the date of the original notice to the date the expense is paid in full.

COUNTY FIRE - Community Safety (909) 386-8465

20. **Fire Jurisdiction.** The above referenced project is under the jurisdiction of the San Bernardino County Fire Department herein (“Fire Department”). Prior to any construction occurring on any parcel, the developer shall contact the Fire Department for verification of current fire protection requirements. All new construction shall comply with the current Uniform Fire Code requirements and all applicable statutes, codes, ordinances and standards of the Fire Department.

21. **Additional Requirements.** In addition to the Fire requirements stated herein, other on site and off site improvements may be required which cannot be determined from tentative plans at this time and would have to be reviewed after more complete improvement plans and profiles have been submitted to this office.

PUBLIC HEALTH – Environmental Health Services [DEHS] (909) 387-4666

22. **Water.** Water purveyor shall be the West Valley Water District.
PRIOR TO RECORRDAYTION OF THE PARCEL MAP
The Following Shall Be Completed

LAND USE SERVICES – Planning Division (909) 387-8311

23. Planning/Composite Development Plan (CDP). A Composite Development Plan (“CDP”), complying with the County Development Code, shall be submitted for review and approval by the County Surveyor and filed with County Building & Safety and County Planning prior to recorrdation of the Parcel Map.

LAND USE SERVICES - Land Development – Drainage (909) 387-8311

24. Drainage Facility Design. A Registered Civil Engineer shall investigate and design adequate drainage facilities to intercept and conduct the off-site and on-site drainage flows around and through the site in a manner, which will not adversely affect adjacent or downstream properties. Submit drainage study for review and obtain approval. A $520 deposit for drainage review will be collected upon submittal to the Land Development Division.

25. Topo Map. A topographic map shall be provided to facilitate the design and review of necessary drainage facilities.

26. Grading Plans. Grading plans shall be submitted for review and approval obtained. A $520 deposit for grading plan review will be collected upon submittal to the Land Development Division.

27. Natural Drainage. The natural drainage courses traversing the site shall not be occupied or obstructed.

29. WQMP. A completed Water Quality Management Plan (WQMP) shall be submitted for review and approval obtained. A $2,500 deposit for WQMP review will be collected upon submittal to the Land Development Division. Copies of the WQMP guidance and template can be found at:

(http://www.sbcounty.gov/dpw/land/environmental_mgmt.asp)

30. COMPOSITE DEVELOPMENT PLAN (CDP) REQUIREMENTS – DRAINAGE
[NOTE: These CDP conditions are for construction on parcels after the map records.]

CDP/LDD - Drainage. A Composite Development Plan (CDP) is required and the following shall be delineated or noted on the CDP with confirmation and approval obtained from the LDD, prior to recordation of the Final Map (Statements in quotations shall be verbatim):
“Land Use Services Department / Land Development Division – Drainage Section (909) 387-8311”

a. "Natural Drainage. Natural Drainage Course(s) and/or Easement(s) shall not be occupied or obstructed, unless specific approval is given by Land Development Division/Drainage Section for each lot/parcel."

b. “Grading Plans. Grading plans shall be submitted to Land Development Division for review and approval obtained prior to issuance of grading permits for each parcel. Submit necessary fees per the latest fee schedule for review, inspection and approval.”

c. “Additional Drainage Improvements. At the time each lot/parcel is developed, a California Registered Civil Engineer (RCE) shall prepare/design complete drainage improvement plans and profiles. After these are submitted for review and approval additional "on-site" and/or "off-site" improvements may be required which cannot be determined from tentative plans at this time.”

b. “Drainage and WQMP Improvements. Prior to issuance of Building Permit, all required drainage and WQMP improvements shall be completed by the applicant, inspected and approved by Land Development Division. Submit necessary fees per the latest fee schedule for review, inspection and approval.”

c. “WQMP Operations and Maintenance. Operation and maintenance (O&M) requirements for all Source Control, Site Design, and Treatment Control BMPs shall be identified within the Water Quality Management Plan (WQMP). All maintenance or replacement of BMPs proposed as part of the WQMP are the sole responsibility of the Owner in accordance with the terms of the WQMP Agreement.”

d. “WQMP Final File. Prior to Occupancy, an electronic file of the final and approved WQMP shall be submitted to the Land Development Division, Drainage Section.”

LAND USE SERVICES - Land Development – Roads (909) 387-8311

31. Road Dedication/Improvement. The developer shall submit for review and obtain approval from the Land Use Services Department the following dedications. These shall be submitted to the Land Use Services Department, located at 385 N. Arrowhead Ave, San Bernardino CA 92415-0187. Phone: (909) 387-8311.

Locust Avenue (Collector – 66‘)
• **Road Dedication.** A 3 foot grant of easement is required to provide a half-width right-of-way of 33’.

32. **Transitional Improvements.** Right-of-way and improvements (including off-site) to transition traffic and drainage flows from proposed to existing, shall be required as necessary

**COUNTY FIRE – Fire Protection Planning (909) 386–8400**

33. **Map Recordation Requirements.** Prior to recordation, the applicant shall submit to Fire Department any required for Water System plans, Rural Water System plans, Fire Equipment Agreement and Surety, Access Maintenance Agreement, and plans for emergency/evacuation access roads as detailed in the General Requirements section of these conditions.

**PUBLIC HEALTH – Environmental Health Services 800-442-2283**

34. **Water.** Applicant shall procure a verification letter from the water agency with jurisdiction. This letter shall state whether or not water connection and service shall be made available to the project by the water agency. This letter shall reference the Assessor’s Parcel Number.

35. **Additional Water.** Submit evidence of contractual arrangements or installation of water improvements to the Environmental Health Services (EHS) for prior to recordation. A note shall be placed on the Composite Development Plan (CDP) stating, “Water purveyor shall be West Valley Water District. Proof of installation of water improvements shall be provided prior to the issuance of building permits.”

36. **Wastewater.** Method of sewage disposal shall be EHS approved onsite wastewater treatment system (OWTS).

37. **Additional Waste Water.** Applicant shall procure a verification letter from the sewering agency with jurisdiction. This letter shall state whether or not sewer connection and service shall be made available to the project by the sewering agency. The letter shall reference the Assessor’s Parcel Number. A note shall be placed on the Composite Development Plan (CDP) stating, “Sewer purveyor shall be __________. Proof of installation of sewer improvements shall be provided prior to the issuance of building permits.”

38. **Onsite Treatment.** If sewer connection and/or service are unavailable, onsite wastewater treatment system(s) may then be allowed under the following conditions: A soil percolation report shall be submitted to EHS for review and approval. The following note shall be placed on a Composite Development Plan (CDP): “An approved percolation report, (EHS reference number) prepared by (person/firm name & credentials) on (date prepared), is on file with EHS. A
plot plan showing the location of the septic system shall be submitted to EHS prior to the issuance of building permits for the individual lots.” If the percolation report cannot be approved, the project may require alternative OWTS. In this case, additional title restrictions and CDP notes will be required. For information, please contact the Wastewater Section at (800) 442-2283.

39. **Existing Onsite Treatment.** Existing onsite wastewater treatment system can be used if applicant provides certification from a qualified professional (i.e., Professional Engineer (P.E.), Registered Environmental Health Specialist (REHS), C-42 contractor, Certified Engineering Geologist (C.E.G.), etc.) that the system functions properly, meets code, and has the capacity required for the proposed project. Applicant shall provide documentation outlining methods used in determining function.

40. **Acoustical Checklist.** Submit acoustical information sheet demonstrating that the County’s exterior and interior residential noise standards will not be exceeded and if exceeded, the manner in which those levels will be mitigated to an acceptable level. Submit information/analysis to the Environmental Health Services (EHS) for review and approval.

PUBLIC WORKS - Survey Division (909) 387-8145

41. **Parcel Map.** A Parcel Map is required in compliance with the Subdivision Map Act and the San Bernardino County Development Code.

42. **Non Interference Letter.** Subdivider shall present evidence to the County Surveyor’s Office that he has tried to obtain a non-interference letter from any utility company that may have rights of easement within the property boundaries.

43. **Easements.** Easements of record not shown on the tentative map shall be relinquished or relocated. Lots affected by proposed easements or easement of record, which cannot be relinquished or relocated, shall be redesigned.

44. **Surveyor Fees.** Prior to approval for recordation, all fees required under actual cost job number PM 19448 shall be paid in full.

   **End of Conditions**
