HEARING DATE: November 19, 2015

AGENDA ITEM # 2

Project Description

APN: 3066-141-19
Applicant: Fountain of Living Waters Church
Community: Phelan/1st supervisorial district
Location: North west corner Yucca Terrace Drive and Johnson Road
Project No: P201400478
Staff: John Oquendo
Rep: Same as applicant
Proposal: Conditional Use Permit to establish a 3,996 square foot church in two phases, on a portion of 4 acres in Phelan.

11 Hearing Notices Sent On: November 6, 2015
Report Prepared By: John Oquendo

SITE INFORMATION
Parcel Size: 4.03 Acres
Terrain: Slight slope from the southwest corner of the site to the northeast corner; existing wash traverses the southeast corner of the site.
Vegetation: Existing Native Vegetation; Partially Cleared

COMMENT

STAFF RECOMMENDATION: That the Planning Commission APPROVE the Conditional Use Permit subject to the attached Conditions of Approval, ADOPT the Findings, and the Negative Declaration Addendum, and REFILE the Notice of Determination.

In accordance with Section 86.08.010 of the Development Code, action by the Planning Commission may be appealed to the Board of Supervisors.

PROJECT DESCRIPTION AND BACKGROUND

Project:

The proposed project (Project) is a Conditional Use Permit (CUP) to establish a church in two phases on 4.03 Acres in Phelan. The first phase of the Project consists of the construction of a 3,996 square foot church sanctuary building with related site improvements, such as parking and landscaping. The second phase includes the set-down of a modular classroom building and development of a covered picnic area and play area.

The proposed Project was the subject of a previous Negative Declaration and CUP approved by the County of San Bernardino in 2000. That Project approval expired in 2008.

Location and Access:

The Project site is located on the northwest corner of Johnson Road and Yucca Terrace Drive in the Community of Phelan. The Project is located south of the Sierra View Mobile Estate mobile home park. The site is currently vacant. Two one-way driveways are proposed as access for the site. The entrance is the northern-most driveway and the exit is the driveway immediately to the south.

Environmental Setting:

The terrain is relatively level with some native vegetation occupying the site, including several Joshua Trees (which will be relocated onsite). A portion of the site is traversed by a natural stream on the southeast corner of the site. The proposed site improvements avoid this area, with conditions of approval covering any potential disturbance of the wash. The site is within Flood Plain (FP2) and Fire Safety (FS2) hazard overlays and is also within an area identified as having potential for habitat that supports the Desert Tortoise. The Project sufficiently addresses these overlays in the proposed site design, and a Project-specific Biological Resources study did not identify any potential impacts upon biological resources such as the Desert Tortoise.

The Project will not have substantial adverse effects, either directly or through habitat modifications, on any species identified as a candidate, sensitive or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service because no endangered, sensitive or candidate species were observed on site. A Focused Survey for Desert Tortoise, Habitat Assessments for Burrowing Owl and Mohave Ground Squirrel and a General Biological Resources Assessment was conducted by Circle Mountain Biological Consultants in September of 2014. The project site is located in the known distribution of the desert tortoise, and desert tortoises have been discovered four (4) miles southeast of the project site according to the California Natural Diversity Database (CNDDB). The desert tortoise is a Federally Endangered species and a threatened species by the State of California. The Focused Desert Tortoise Survey determined that although the property is located within the
known distribution of the desert tortoise no desert tortoise, tortoise sign or any other special status animal species were observed. The focused survey is good for twelve (12) months, if any development or ground disturbance occurs after this period a pre-construction clearance survey is required to confirm the continued absence of desert tortoise. The Burrowing Owl and Mohave Ground Squirrel assessments determined that neither species was present and the likelihood for this site to support the species was very low. As a result the biologist did not recommend any mitigation measures for the project.

**ANALYSIS**

The subject property is located in the PH/RL, Rural Living Land Use Zoning District. Pursuant to Chapter 82.04 (Residential Land Use Zoning Districts) of the San Bernardino County Development Code, Places of Worship are permitted to be developed in the RL zone subject to a Conditional Use Permit.

The site design adequately addresses all Countywide Development standards. The site contains ample parking and onsite landscaping as depicted on the site plan. The rear portion of the site, opposite Johnson Road, will not be developed at this time. One way driveways provide circulation onsite for vehicles. The parking stalls, excluding the disabled parking areas, will be surfaced with gravel as permitted under §83.11.090 of the County Development Code. Drive aisle and disabled parking and loading areas will be paved.

The building is proposed to be located on the western rear of the Project site. The building area is 3,396 square feet with 1,764 square feet dedicated to the sanctuary. The second phase includes the installation of a single portable classroom building (24 feet by 60 feet) onsite for permanent use, minimally expanding the overall use of the site. The second phase will also include development of a play area and picnic area. Conditions of Approval are phased accordingly.

**ENVIRONMENTAL REVIEW**

Under the California Environmental Quality Act (CEQA) Guidelines Section 15164, an addendum to an adopted Negative Declaration (ND) shall be prepared if only minor technical changes or additions are necessary, or if none of the conditions described in Section 15162 (changes to a project or its circumstances, or new information becomes available) calling for the preparation of a supplemental or subsequent ND or Environmental Impact Report (EIR) have occurred. Under Section 15162, the lead agency shall prepare a supplemental or subsequent ND or, if the impacts cannot be adequately mitigated, an EIR if there are any new significant environmental effects associated with the refined project. With respect to the proposed Project, the revisions are only minor technical changes that do not result in any new significant environmental effect(s). In addition, there are no changed circumstances or new information; therefore, the revised Project does not require a supplemental or subsequent ND or an EIR.

The minor changes proposed by the Project have been evaluated against the analysis of environmental impacts in the Negative Declaration previously adopted for the Project, to
ensure the proposed changes did not create new significant impacts or substantially increase the severity of analyzed impacts as compared to those identified previously. The analysis in the Addendum concludes that the changes proposed to the Project would not create any new significant impacts, or impacts that are significantly different than those identified in the previous IS/ND for the Project, and that there are no changed circumstances or new information within the meaning of Section 15162. Therefore, the preparation of an Addendum to the approved Negative Declaration is the appropriate CEQA document to support the County’s consideration of the Project, as outlined in the State CEQA Guidelines Section 15162 and 15164.

The original Project identified no significant impacts upon the environment and no mitigation measures based upon the scope and scale of the proposed Project implementation. This Addendum confirms that the modified Project will have no additional or new impacts upon the environment.

PUBLIC NOTICES

The Planning Division has sent out public notices to surrounding property owners within the required radius of the site, in compliance with the Development Code requirements. In addition, a legal advertisement was published in the local newspaper on November 8, 2015, advertising the public hearing. As of the preparation of this staff report, no comments were received.

SUMMARY

The Project as proposed satisfies the applicable standards of the Development Code. The proposed site plan complies with standards defined for parking, setbacks, and landscaping. Planning staff and related agencies reviewed the completed application and related materials upon acceptance of the Project. Upon completion of the internal Project review, and consultation with other responsible agencies, Planning staff determined that the Project is consistent with the applicable criteria for an approval recommendation.

RECOMENDATION:

That the Planning Commission:

A. ADOPT the Addendum to the Negative Declaration and find that the Initial Study remains in compliance with CEQA, that it has been reviewed and considered prior to approving the Project and that the Addendum to the Negative Declaration reflects the independent judgment of San Bernardino County;

B. APPROVE the Conditional Use Permit to establish the proposed Place of Worship based on the Findings contained in the Staff Report and subject to the Conditions of Approval;

C. REFILE the Notice of Determination
ATTACHMENTS:

Exhibit A: Findings
Exhibit B: Conditions of Approval
Exhibit C: Negative Declaration and Addendum
Findings
FINDINGS: CONDITIONAL USE PERMIT

These findings relate to a Conditional Use Permit (Project) to establish a 3,996 square foot (sf) church (Place of Worship) in two phases on a portion of 4.03 acres in Phelan.

1. The site for the proposed use is adequate in terms of shape and size to accommodate the proposed use and all landscaping, open space, setbacks, walls and fences, yards, and other required features pertaining to the application. The 4.03 acre site contains ample area to accommodate the proposed building and site improvements associated with the Project. The Project as proposed satisfies all applicable standards and requirements of the Development Code.

2. The site for the proposed use has adequate access, which means that the site design incorporates appropriate street and highway characteristics to serve the proposed use. The Project is located on Johnson Road, which is a County-maintained road that will provide adequate legal and physical access to the Project site. Access to the Project will occur at two driveways along Johnson Road.

3. The proposed use will not have a substantial adverse effect on abutting properties or the allowed use of the abutting properties, which means that the use will not generate excessive noise, traffic, vibration, lighting, glare, or other disturbance. The Project has sufficiently demonstrated compliance with the appropriate site design requirements and development standards such as setbacks, landscape areas, storm water quality improvements, and off street parking. Compliance with these requirements, as well as all applicable conditions of approval, will ensure that the Project will have no substantial adverse effect upon abutting properties. Additionally, the use will not interfere with the present or future ability to use solar energy systems.

4. The proposed use and manner of development are consistent with the goals, maps, policies, and standards of the County General Plan and any applicable Community or Specific Plan. The Project is consistent with the County General Plan as well as the Phelan Community Plan. The Project specifically implements the following goals:

   General Plan Goal LU 1: The County will have a compatible and harmonious arrangement of land uses by providing a type and mix of functionally well-integrated land uses that are fiscally viable and meet general social and economic needs of the residents.

   • Goal Implementation: The Project as proposed is compatible and harmonious with the surrounding land uses. Potential adverse effects resulting from implementation of the Project have been sufficiently mitigated in the Project design and conditions of approval. Moreover, the Project is found to be a logical continuation of uses in the vicinity, intended to meet the needs of the surrounding residential areas for places of worship.

   General Plan Goal LU 9: Development will be in a contiguous manner as much as possible to minimize environmental impacts, minimize public infrastructure and service costs, and further countywide economic development goals.
Goal/Policy Implementation: The Project is located within a semi-developed area in the unincorporated community of Phelan that contains a mix of residential land uses. Considering features of the site design, the arrangement of land uses within the vicinity, and data included in the supporting studies, the Project is appropriately sited and compatible with the surrounding area.

Phelan Community Plan Goal LU 1: Retain the existing rural desert character of the community.

Goal Implementation: The Project is best categorized as an institutional development. The Project incorporates rural design features including maintaining native vegetation onsite, a proposed low impact parking design, and other rural design features.

5. There is supporting infrastructure, existing or available, consistent with the intensity of the development, to accommodate the proposed Project without significantly lowering service levels. Infrastructure, such as wet and dry utilities and street improvements, has been sufficiently accommodated in the development proposal pursuant to the requirements of the Development Code. Following review of the Project site plan and supporting documents, Staff has concluded that adequate services levels for infrastructure will be maintained when considering the development as proposed.

6. The lawful conditions stated in the approval are deemed reasonable and necessary to protect the overall public health, safety and general welfare. All conditions are proposed to implement standard requirements of the County Development Code.

7. The design of the site has considered the potential for the use of solar energy systems and passive or natural heating and cooling opportunities, through the orientation and design of the building to take advantage of passive solar heating capabilities. There will be ample area with sun exposure available on the site at full build out of the Project.

8. There are no circumstances that would result in standards or conditions not being able to adequately mitigate environmental impacts. In compliance with the California Environmental Quality Act (CEQA), the preparation of an Addendum to the approved Negative Declaration is the appropriate CEQA document to support the County’s consideration of the Project, as outlined in the State CEQA Guidelines Section 15162 and 15164.
CONDITIONS OF APPROVAL
Fountain of Living Waters Church (Douauda Traore) - P201400478
Conditional Use Permit

GENERAL REQUIREMENTS
Ongoing and Operational Conditions

LAND USE SERVICES DEPARTMENT– Planning (909) 387-8311

1. Project Approval Description. This Conditional Use Permit (CUP) is conditionally approved to establish a 3,996 square foot (sf) church (Place of Worship) in two phases on a portion of 4.03 acres in Phelan, in compliance with the San Bernardino County Code (SBCC), California Building Codes (CBC), the San Bernardino County Fire Code (SBCFC), the following Conditions of Approval, the approved site plan, and all other required and approved reports and displays (e.g. elevations).

   Phase 1 of the development consists of the construction of a 3,996 square foot church sanctuary building with related site improvements such as parking and landscaping.

   Phase 2 includes set-down of a modular class room building and development of a covered picnic area and play area.

   The developer shall provide a copy of the approved conditions and the site plan to every current and future project tenant, lessee, and property owner to facilitate compliance with these Conditions of Approval and continuous use requirements for the Project Site with APN: 3066-141-19 Project No. P201400278.

2. Project Location. The Project site is located on the northwest corner of Johnson Road and Yucca Terrace Drive in the Community of Phelan.

3. Revisions. Any proposed change to the approved use/activity on the site or any increase in the developed area of the site or any expansion or modification to the approved facilities, including changes to the height, location, bulk or size of structure or equipment shall require an additional land use review and application subject to approval by the County. The developer shall prepare, submit with fees and obtain approval of the application prior to implementing any such revision or modification. (SBCC §86.06.070)

4. Continuous Effect/Revocation. All Conditions of Approval applied to this Project shall be effective continuously throughout the operative life of the Project for the approved use. Failure of the property owner, tenant, applicant, developer, or any operator to comply with any or all of the conditions at any time may result in a public hearing and revocation of the approved land use, provided adequate notice, time and opportunity is provided to the property owner or other party to correct the non-complying situation.

5. Indemnification. In compliance with SBCC §81.01.070, the developer shall agree, to defend, indemnify, and hold harmless the County or its “indemnitees” (herein collectively the County’s elected officials, appointed officials (including Planning Commissioners), Zoning Administrator, agents, officers, employees, volunteers, advisory agencies or committees, appeal boards or legislative body) from any claim, action, or proceeding against the County or its indemnitees to attack, set aside, void, or annul an approval of the County by an indemnitee concerning a map or permit or any other action relating to or arising out of County approval, including the acts, errors or omissions of any person and for any costs or expenses incurred by the indemnitees on account of any claim, except where such indemnification is prohibited by law. In the alternative, the developer may agree to relinquish such approval.

Any condition of approval imposed in compliance with the County Development Code or County General Plan shall include a requirement that the County acts reasonably to promptly notify the developer of any claim, action, or proceeding and that the County cooperates fully in the defense. The developer shall reimburse the County and its indemnitees for all expenses resulting from such actions, including any court
costs and attorney fees, which the County or its indemnitees may be required by a court to pay as a result of such action.

The County may, at its sole discretion, participate at its own expense in the defense of any such action, but such participation shall not relieve the developer of their obligations under this condition to reimburse the County or its indemnitees for all such expenses.

This indemnification provision shall apply regardless of the existence or degree of fault of indemnitees. The developer's indemnification obligation applies to the indemnitees’ “passive” negligence but does not apply to the indemnitees' “sole” or “active” negligence or “willful misconduct” within the meaning of Civil Code Section 2782.

6. **Expiration.** This project permit approval shall expire and become void if it is not “exercised” within three (3) years of the effective date of this approval, unless an extension of time is approved. The permit is deemed “exercised” when either:
   a. The permittee has commenced actual construction or alteration under a validly issued building permit, or
   b. The permittee has substantially commenced the approved land use or activity on the project site, for those portions of the project not requiring a building permit. (SBCC §86.06.060)
   c. Occupancy of approved land use occupancy of completed structures and operation of the approved and exercised land use remains valid continuously for the life of the project and the approval runs with the land, unless one of the following occurs:
      - Construction permits for all or part of the project are not issued or the construction permits expire before the structure is completed and the final inspection is approved.
      - The land use is determined by the County to be abandoned or non-conforming.
      - The land use is determined by the County to be not operating in compliance with these conditions of approval, the County Code, or other applicable laws, ordinances or regulations. In these cases, the land use may be subject to a revocation hearing and possible termination.

   PLEASE NOTE: This will be the ONLY notice given of this approval’s expiration date. The developer is responsible to initiate any Extension of Time application.

7. **Enforcement.** If any County enforcement activities are required to enforce compliance with the conditions of approval, the property owner or developer shall be charged for such enforcement activities in accordance with the County Code Schedule of Fees.

8. **Continuous Effect/Revocation.** All of the conditions of this project approval are continuously in effect throughout the operative life of the project for all approved structures and approved land uses/activities. Failure of the property owner or developer to comply with any or all of the conditions at any time may result in a public hearing and possible revocation of the approved land use, provided adequate notice, time and opportunity is provided to the property owner, developer or other interested party to correct the non-complying situation.

9. **Extension of Time.** Extensions of time to the expiration date (listed above or as otherwise extended) may be granted in increments each not to exceed an additional three years beyond the current expiration date. An application to request consideration of an extension of time may be filed with the appropriate fees no less than thirty days before the expiration date. Extensions of time may be granted based on a review of the application, which includes a justification of the delay in construction and a plan of action for completion. The granting of such an extension request is a discretionary action that may be subject to additional or revised conditions of approval or site plan modifications. (SBCC §86.06.060)

10. **Project Account.** The Job Costing System (JCS) account number is P201400478. This is an actual cost project with a deposit account to which hourly charges are assessed by various county agency staff (e.g.
Land Use Services, Public Works, and County Counsel). Upon notice, the “developer” shall deposit additional funds to maintain or return the account to a positive balance. The “developer” is responsible for all expense charged to this account. Processing of the project shall cease, if it is determined that the account has a negative balance and that an additional deposit has not been made in a timely manner. A minimum balance of $1,000.00 must be in the project account at the time the Condition Compliance Review is initiated. Sufficient funds must remain in the account to cover the charges during each compliance review. All fees required for processing shall be paid in full prior to final inspection, occupancy and operation of the approved use.

11. Condition Compliance: In order to obtain construction permits for grading, building, final inspection and/or tenant occupancy for each approved building, the developer shall process a Condition Compliance Release Form (CCRF) for each respective building and/or phase of the development through the Planning Division in accordance with the directions stated in the Approval letter. The Planning Division shall release their holds on each phase of development by providing to County Building and Safety the following:
   - Grading Permits: a copy of the signed CCRF for grading/land disturbance and two “red” stamped and signed approved copies of the grading plans.
   - Building Permits: a copy of the signed CCRF for building permits and three “red” stamped and signed approved copies of the final approved site plan.
   - Final Occupancy: a copy of the signed CCRF for final inspection of each respective building or use of the land, after an on-site compliance inspection by the Planning Division.

12. Development Impact Fees. Additional fees may be required prior to issuance of development permits. Fees shall be paid as specified in adopted fee ordinances.

13. Additional Permits. The developer shall ascertain compliance with all laws, ordinances, regulations and any other requirements of Federal, State, County and Local agencies that may apply for the development and operation of the approved land use. These may include but not limited to:
   a. FEDERAL: N/A;
   b. STATE: Lahontan RWQCB, Mojave AQMD
   c. COUNTY: Land Use Services – Building and Safety/Code Enforcement/Land Development, County Fire/HazMat; Public Health – Environmental Health Services, and
   d. LOCAL: N/A

14. Continuous Maintenance. The Project property owner shall continually maintain the property so that it is visually attractive and not dangerous to the health, safety and general welfare of both on-site users (e.g. employees) and surrounding properties. The property owner shall ensure that all facets of the development are regularly inspected, maintained and that any defects are timely repaired. Among the elements to be maintained, include but are not limited to:
   a. Annual maintenance and repair: The developer shall conduct inspections for any structures, fencing/walls, driveways, and signs to assure proper structural, electrical, and mechanical safety.
   b. Graffiti and debris: The developer shall remove graffiti and debris immediately through weekly maintenance.
   c. Landscaping: The developer shall maintain landscaping in a continual healthy thriving manner at proper height for required screening. Drought-resistant, fire retardant vegetation shall be used where practicable. Where landscaped areas are irrigated it shall be done in a manner designed to conserve water, minimizing aerial spraying.
   d. Dust control: The developer shall maintain dust control measures on any undeveloped areas where landscaping has not been provided.
   e. Erosion control: The developer shall maintain erosion control measures to reduce water runoff, siltation, and promote slope stability.
f. **External Storage**: The developer shall maintain external storage, loading, recycling and trash storage areas in a neat and orderly manner, and fully screened from public view. Outside storage shall not exceed the height of the screening walls.

g. **Metal Storage Containers**: The developer shall NOT place metal storage containers in loading areas or other areas unless specifically approved by this or subsequent land use approvals.

h. **Screening**: The developer shall maintain screening that is visually attractive. All trash areas, loading areas, mechanical equipment (including roof top) shall be screened from public view.

i. **Signage**: The developer shall maintain all on-site signs, including posted area signs (e.g. “No Trespassing”) in a clean readable condition at all times. The developer shall remove all graffiti and repair vandalism on a regular basis. Signs on the site shall be of the size and general location as shown on the approved site plan or subsequently a County-approved sign plan.

j. **Lighting**: The developer shall maintain any lighting so that they operate properly for safety purposes and do not project onto adjoining properties or roadways. Lighting shall adhere to applicable glare and night light rules.

k. **Parking and on-site circulation**: The developer shall maintain all parking and on-site circulation requirements, including surfaces, all markings and traffic/directional signs in an un-faded condition as identified on the approved site plan. Any modification to parking and access layout requires the Planning Division review and approval. The markings and signs shall be clearly defined, un-faded and legible; these include parking spaces, disabled space and access path of travel, directional designations and signs, stop signs, pedestrian crossing, speed humps and “No Parking”, “Carpool”, and “Fire Lane” designations.

l. **Fire Lanes**: The developer shall clearly define and maintain in good condition at all times all markings required by the Fire Department, including “No Parking” designations and “Fire Lane” designations.

15. **Performance Standards.** The approved land uses shall operate in compliance with the general performance standards listed in the County Development Code Chapter 83.01, regarding air quality, electrical disturbance, fire hazards (storage of flammable or other hazardous materials), heat, noise, vibration, and the disposal of liquid waste.

16. **Lighting.** The glare from any luminous source, including on-site lighting shall not exceed one-half (0.5) foot-candle at property line. All lighting shall be limited to that necessary for maintenance activities and security purposes. No light shall project onto adjacent roadways in a manner that interferes with on-coming traffic. All signs proposed by this project shall only be lit by steady, stationary, shielded light directed at the sign, by light inside the sign, by direct stationary neon lighting or in the case of an approved electronic message center sign alternating no more than once every five seconds.

17. **Clear Sight Triangle.** Adequate visibility for vehicular and pedestrian traffic shall be provided at clear sight triangles at all 90 degree angle intersections of public rights-of-way and private driveways. All signs, structures and landscaping located within any clear sight triangle shall comply with the height and location requirements specified by County Development Code (SBCC§ 83.02.030) or as otherwise required by County Traffic.

18. **Grading and Excavation.** During grading or excavation operations, should any potential paleontological or archaeological artifacts be unearthed or otherwise discovered, the San Bernardino County Museum shall be notified and the uncovered items shall be preserved and curated, as required. For information, contact the County Museum, Community and Cultural Section, telephone (909) 798-8570.

19. **Construction Hours.** Construction will be limited to the hours of 7:00 a.m. to 7:00 p.m., Monday through Saturday in accordance with the County of San Bernardino Development Code standards. No construction activities are permitted outside of these hours or on Sundays and Federal holidays.
20. **Construction Noise.** The following measures shall be adhered to during the construction phase of the project:

- All construction equipment shall be muffled in accordance with manufacturer’s specifications.
- All construction staging shall be performed as far as possible from occupied dwellings. The location of staging areas shall be subject to review and approval by the County prior to the issuance of grading and/or building permits.
- All stationary construction equipment shall be placed in a manner so that emitted noise is directed away from sensitive receptors (e.g., residences and schools) nearest the project site.

**LAND USE SERVICES DEPARTMENT – Code Enforcement (909) 387-8311**

21. **Enforcement.** If any County enforcement activities are required to enforce compliance with the conditions of approval, the property owner and “developer” shall be charged for such enforcement activities in accordance with the County Code Schedule of Fees. Failure to comply with these conditions of approval or the approved site plan design required for this project approval shall be enforceable against the property owner and “developer” (by both criminal and civil procedures) as provided by the San Bernardino County Code, Title 8 – Development Code; Division 6 – Administration, Chapter 86.09 – Enforcement.

22. **Weed Abatement.** The applicant shall comply with San Bernardino County weed abatement regulations and periodically clear the site of all non-complying vegetation. This includes removal of all Russian thistle (tumbleweeds).

**LAND USE SERVICES DEPARTMENT – Land Development Division – Drainage Section (909) 387-8311**

23. **Tributary Drainage.** Adequate provisions should be made to intercept and conduct the tributary off site - on site drainage flows around and through the site in a manner, which will not adversely affect adjacent or downstream properties at the time the site is developed.

24. **Natural Drainage.** The natural drainage courses traversing the site shall not be occupied or obstructed.

25. **Additional Drainage Requirements.** In addition to drainage requirements stated herein, other “on-site” and/or “off-site” improvements may be required which cannot be determined from tentative plans at this time and would have to be reviewed after more complete improvement plans and profiles have been submitted to this office.

26. **Continuous BMP Maintenance.** The property owner/“developer” is required to provide periodic and continuous maintenance of all Best Management Practices (BMP) devices/facilities listed in the County approved Water Quality Management Plan (WQMP) for the project. This includes but is not limited to, filter material replacement and sediment removal, as required to assure peak performance of all BMPs. Furthermore, such maintenance activity will require compliance with all Local, State, or Federal laws and regulations, including those pertaining to confined space and waste disposal methods in effect at the time such maintenance occurs.

27. **BMP Enforcement.** In the event the property owner/“developer” (including any successors or assigns) fails to accomplish the necessary BMP maintenance within five (5) days of being given written notice by County Public Works, then the County shall cause any required maintenance to be done. The entire cost and expense of the required maintenance shall be charged to the property owner and/or “developer”, including administrative costs, attorney’s fees and interest thereon at the rate authorized by the County Code from the date of the original notice to the date the expense is paid in full.

**PUBLIC HEALTH – Environmental Health Services [DEHS] (800) 442-2283**
28. **Refuse Storage/Removal.** All refuse generated at the premises shall at all times be stored in approved containers and shall be placed in a manner so that environmental public health nuisances are minimized. All refuse not containing garbage shall be removed from the premises at least 1 time per week, or as often as necessary to minimize public health nuisances. Refuse containing garbage shall be removed from the premises at least 2 times per week, or as often if necessary to minimize public health nuisances, by a permitted hauler to an approved solid waste facility in conformance with San Bernardino County Code Chapter 8, Section 33.0830 et. seq. For information, please call DEHS/LEA at: (800) 442-2283.

29. **Noise.** Noise level shall be maintained at or below County Standards, Development Code Section 83.01.080. For information, please call DEHS at 1-800-442-2283.

30. **Onsite Treatment.** The septic system shall be maintained so as not to create a public nuisance and shall be serviced by a DEHS permitted pumper. For information, please call DEHS/Wastewater Section at: 1-800-442-2283.

**COUNTY FIRE DEPARTMENT – Community Safety (760) 995-8190**

31. **Constriction Permits.** Construction permits, including Fire Condition Letters, shall automatically expire and become invalid unless the work authorized by such permit is commenced within 180 days after its issuance, or if the work authorized by such permit is suspended or abandoned for a period of 180 days after the time the work is commenced. Suspension or abandonment shall mean that no inspection by the Department has occurred with 180 days of any previous inspection. After a construction permit or Fire Condition Letter, becomes invalid and before such previously approved work recommences, a new permit shall be first obtained and the fee to recommence work shall be one-half the fee for the new permit for such work, provided no changes have been made or will be made in the original construction documents for such work, and provided further that such suspension or abandonment has not exceeded one year. A request to extend the Fire Condition Letter or Permit may be made in writing PRIOR TO the expiration date justifying the reason that the Fire Condition Letter should be extended.

32. **Jurisdiction.** The above referenced project is under the jurisdiction of the San Bernardino County Fire Department herein (“Fire Department”). Prior to any construction occurring on any parcel, the developer shall contact the Fire Department for verification of current fire protection requirements. All new construction shall comply with the current Uniform Fire Code requirements and all applicable statutes, codes, ordinances and standards of the Fire Department.

33. **Additional Requirements.** In addition to the Fire requirements stated herein, other onsite and offsite improvements may be required which cannot be determined from tentative plans at this time and would have to be reviewed after more complete improvement plans and profiles have been submitted to this office.

**PUBLIC WORKS/Solid Waste Management (909) 386-8701**

34. **Storage Capacity.** The developer shall provide adequate space and storage bins for both refuse and recycling materials. This requirement is to assist the County in compliance with the recycling requirements of Assembly Bill (AB) 2176.

35. **Mandatory Commercial Recycling.** Beginning July 1, 2012 all businesses defined to include a commercial or public entity that generates 4 or more cubic yards of commercial waste a week or is a multi-family residential dwelling of 5 units or more to arrange for recycling services. The County is required to monitor commercial recycling and will require businesses to provide recycling information. This requirement is to assist the County in compliance with AB 341.
36. Mandatory Trash Service. This project falls within a Uniform Handling Service area. If uniform handling is implemented in all or part of a particular franchise area, all owners or a dwelling or a commercial or industrial unit within the uniform handling area who are required to have uniform handling service shall, upon notice thereof, be required to accept uniform handling service from the grantee holding a franchise agreement and pay the rate of such services. This requirement is a stipulation of County Code Title 4, Division 6, Chapter 5, Section 46.0501.
PRIOR TO ISSUANCE OF GRADING PERMITS OR LAND DISTURBING ACTIVITIES
The Following Shall Be Completed

LAND USE SERVICES – Building and Safety Division (909) 387-8311

37. Retaining Wall Plans. Submit plans and obtain separate building permits for any required walls or retaining walls.

38. Geology Report. A geology report shall be submitted to the Building and Safety Division for review and approval by the County Geologist and fees paid for the review prior to final project approval.

39. Geotechnical (Soil) Report: When earthwork quantities exceed 5,000 cubic yards, a geotechnical (soil) report shall be submitted to the Building and Safety Division for review and approval prior to issuance of grading permits.

40. Grading Plans. Grading plans shall be submitted to Building and Safety for review and approval prior to grading/land disturbance of more than 50 Cu Yards.

41. Demolition Permit. Obtain a demolition permit for any building/s or structures to be demolished. Underground structures must be broken in, back-filled and inspected before covering.

42. Erosion & Sediment Control Plan. An erosion and sediment control plan and permit shall be submitted to and approved by the Building Official prior to any land disturbance.

43. Erosion Control Installation. Erosion control devices must be installed at all perimeter openings and slopes. No sediment is to leave the job site.

LAND USE SERVICES DEPARTMENT – Land Development Division – Drainage Section (909) 387-8311

44. Drainage Improvements. A Registered Civil Engineer shall investigate and design adequate drainage improvements to intercept and conduct the off-site and on-site drainage flows around and through the site in a manner, which will not adversely affect adjacent or downstream properties.

45. Drainage Easements. Adequate San Bernardino County Drainage Easements (minimum fifteen [15] feet wide) shall be provided over the natural drainage courses, drainage facilities/or concentration of runoff from the site. Proof of recordation shall be provided to the Land Development Division.

46. FEMA Flood Zone. The Project is located within Flood Zone X Shaded according to FEMA Panel Number 6450H dated 08/28/2008 and will require the first floor to be elevated a minimum 1 foot above natural highest adjacent ground in compliance with SBC regulations.

47. Topo Map. A topographic map shall be provided to facilitate the design and review of necessary drainage facilities.

48. Grading Plans. Grading plans shall be submitted for review and approval obtained. An $806 deposit for grading plan review will be collected upon submittal to the Land Development Division. Deposit amounts are subject to change in accordance with the latest approved fee schedule.

49. WQMP. A completed Water Quality Management Plan (WQMP) shall be submitted for review and approval obtained. A $2,650 deposit for WQMP review will be collected upon submittal to the Land Development
Division. Deposit amounts are subject to change in accordance with the latest approved fee schedule. The report shall adhere to the current requirements established by the Mojave Watershed Region. Copies of the WQMP guidance and template can be found at: (http://www.sbcounty.gov/dpw/land/npdes.asp)

50. WQMP Inspection Fee. The developer shall provide $3,600 deposit to Land Development Division for inspection of the approved WQMP.

51. PROJECT SPECIFIC CONDITIONS (Prior to Grading Permits). California Department of Fish and Wildlife must be notified per Fish and Game code number 1602. A streambed alteration agreement shall be provided prior to grading.
PRIOR TO ISSUANCE OF BUILDING PERMITS (Phase 1)
The Following Shall Be Completed:

LAND USE SERVICES DEPARTMENT – Planning (909) 387-8311

52. Landscape and Irrigation Plan. Landscape and Irrigation Plans shall be prepared in conformance with Chapter 83.10, Landscaping Standards, of the County Development Code. The developer shall submit four copies of a landscape and irrigation plan to County Planning, which include the following:
   • Full landscaping of the building setback area along all street frontages.
   • A decorative pedestrian entrance from the side walk, through the landscape setback area.

53. Signs. The developer shall submit a signs for review and approval. Each tenant shall submit for approval any additions or modifications to the approved signs. The signs shall adhere to the following:
   • All signs shall be lit only by steady, stationary shielded light; exposed neon is acceptable.
   • All sign lighting shall not exceed one-half (0.5) foot-candle.
   • No sign or stationary light source shall interfere with a driver's or pedestrian's view of public right-of-way or in any other manner impair public safety.
   • There shall be no more than one freestanding sign per frontage. No freestanding sign shall be more than 25 feet above the road to which it is oriented.
   • Monument signs shall not exceed six feet above ground elevation and shall be limited to one per frontage.
   • Directional signs shall be allowed as shown on the sign plan submitted with landscape plans.

LAND USE SERVICES DEPARTMENT – Building and Safety (909) 387-8311

54. Construction Plans. Any building, sign, or structure to be constructed or located on site, will require professionally prepared plans based on the most current County and California Building Codes, submitted for review and approval by the Building and Safety Division.

LAND USE SERVICES DEPARTMENT – Land Development Division – Road Section (909) 387-8311

55. Road Dedication/Improvements. The developer shall submit for review and obtain approval from the Land Use Services Department the following dedications and plans for the listed required improvements, designed by a Registered Civil Engineer (RCE), licensed in the State of California. These shall be submitted to the Land Use Services Department, located at 385 N. Arrowhead Ave, San Bernardino CA 92415-0187. Phone: (909) 387-8311.

PHASE 1

Johnson Rd (Major Highway – 104’)

• Street Improvements. Design curb and gutter with match up paving 40 feet from centerline.

• Sidewalks. Design sidewalks per County Standard 109 Type "C”.

• Driveway Approach. Design driveway approach per 2010 Caltrans Driveway Standard Detail A87A (W=24’ min – 34’ max), and located per San Bernardino County Standard 130.
Yucca Terrace Dr (1/4 Section Line – 88’)

- **Road Dedication.** A 4 foot grant of easement is required to provide a half-width right-of-way of 44.
- **Curb Return Dedication.** A 35 foot radius return grant of easement is required at the intersection of Johnson Rd and Yucca Terrace Dr.

56. **Road Standards and Design.** All required street improvements shall comply with latest San Bernardino County Road Planning and Design Standards and the San Bernardino County Standard Plans. Road sections shall be designed to Desert Road Standards of San Bernardino County, and to the policies and requirements of the County Department of Public Works and in accordance with the General Plan, Circulation Element.

57. **Street Improvement Plans.** The developer shall submit for review and obtain approval of street improvement plans prior to construction. Final plans and profiles shall indicate the location of any existing utility facility or utility pole which would affect construction, and any such utility shall be relocated as necessary without cost to the County. Street improvement plans shall not be approved until all necessary right-of-way is acquired.

58. **Construction Permits.** Prior to installation of road and drainage improvements, a permit is required from County Public Works, Transportation Operations Division, Permit Section, (909) 387-8046, as well as other agencies prior to work within their jurisdiction. Submittal shall include a materials report and pavement section design in support of the section shown on the plans. Applicant shall conduct classification counts and compute a Traffic Index (TI) Value in support of the pavement section design.

59. **Encroachment Permits.** Prior to installation of driveways, sidewalks, etc., an encroachment permit is required from County Public Works, Transportation Operations Division, Permit Section, (909) 387-8046, as well as other agencies prior to work within their jurisdiction.

60. **Soils Testing.** Any grading within the road right-of-way prior to the signing of the improvement plans shall be accomplished under the direction of a soils testing engineer. Compaction tests of embankment construction, trench back fill, and all sub-grades shall be performed at no cost to San Bernardino County and a written report shall be submitted to the Transportation Operations Division, Permits Section of County Public Works, prior to any placement of base materials and/or paving.

61. **Transitional Improvements.** Right-of-way and improvements (including off-site) to transition traffic and drainage flows from proposed to existing, shall be required as necessary.

62. **Street Gradients.** Road profile grades shall not be less than 0.5% unless the engineer at the time of submittal of the improvement plans provides justification to the satisfaction of County Public Works confirming the adequacy of the grade.

**COUNTY FIRE DEPARTMENT – Community Safety (760) 995-8190**

63. **Building Plans.** No less than three (3) complete sets of Building Plans shall be submitted to the Fire Department for review and approval. [F42]

64. **Fire Flow.** Your submittal did not include a flow test report to establish whether the public water supply is capable of meeting your project fire flow demand. You will be required to either produce a current flow test report from your water purveyor demonstrating that the fire flow demand is satisfied or you must install an
approved fire sprinkler system. This requirement shall be completed prior to combination inspection by Building and Safety.

65. **Combustible Protection.** Prior to combustibles, being placed on the project site an approved paved road with curb and gutter and fire hydrants with an acceptable fire flow shall be installed. The topcoat of asphalt does not have to be installed until final inspection and occupancy.

66. **Primary Access Paved.** Prior to building permits being issued to any new structure, the primary access road shall be paved or an all weather surface and shall be installed as specified in the General Requirement conditions (Fire # F-9), including width, vertical clearance and turnouts, if required.

67. **Fire Lanes.** The applicant shall submit a fire lane plan to the Fire Department for review and approval. Fire lane curbs shall be painted red. The "No Parking, Fire Lane" signs shall be installed on public/private roads in accordance with the approved plan. Standard 901.4 [F93]

68. **Hood And Duct Suppression.** An automatic hood and duct fire extinguishing system is required. A Fire Department approved designer/installer shall submit three (3) sets of detailed plans (minimum 1/8" scale) with manufacturers’ specification sheets to the Fire Department for review and approval. The required fees shall be paid at the time of plan submittal.

69. **FS-2.** The County General Plan designates this property as being within the Fire Safety Review Area 2 (two) and all future construction shall adhere to all applicable standards and requirements of this overlay district.

70. **Primary Access Paved.** Prior to building permits being issued to any new structure, the primary access road shall be paved or an all-weather surface and shall be installed as specified in the General Requirement conditions (Fire # F-9), including width, vertical clearance and turnouts, if required.

71. **Access - 150+ feet.** Roadways exceeding one hundred fifty (150) feet in length shall be approved by the Fire Department. These shall be extended to within one hundred fifty (150) feet of and shall give reasonable access to all portions of the exterior walls of the first story of any building. Standard 902.2.1

72. **Access.** The development shall have a minimum of 2 points of vehicular access. These are for fire/emergency equipment access and for evacuation routes.

All buildings shall have access provided by approved roads, alleys and private drives with a minimum twenty six (26) foot unobstructed width and vertically to fourteen (14) feet six (6) inches in height. Other recognized standards may be more restrictive by requiring wider access provisions.

Buildings three (3) stories in height or more shall have a minimum access of thirty (30) feet unobstructed width and vertically to fourteen (14) feet six (6) inches in height.

73. **Combustible Vegetation.** Combustible vegetation shall be removed as follows: " Where the average slope of the site is less than 15% - Combustible vegetation shall be removed a minimum distance of thirty (30) feet from all structures or to the property line, whichever is less. " Where the average slope of the site is 15% or greater - Combustible vegetation shall be removed a minimum one hundred (100) feet from all structures or to the property line, whichever is less. County Ordinance # 3586

74. **Water System Commercial.** A water system approved and inspected by the Fire Department is required. The system shall be operational, prior to any combustibles being stored on the site. All fire hydrants shall be spaced no more than three hundred (300) feet apart (as measured along vehicular travel-ways) and no more than three hundred (300) feet from any portion of a structure.
75. Water System Certification. The applicant shall provide the Fire Department with a letter from the serving water company, certifying that the required water improvements have been made or that the existing fire hydrants and water system will meet distance and fire flow requirements. Fire flow water supply shall be in place prior to placing combustible materials on the job site.

PUBLIC WORKS – Traffic (909) 387-8186

76. Regional Transportation Fee Plan. This project falls within the High Desert Local Area Transportation Facilities Fee Plan. This fee shall be paid by a cashier’s check to the Department of Public Works Business Office. These fees are subject to change. Based on the ITE Trip Generation Manual (9th Edition) and a 3,996 sq. ft. building as shown on the site plan, this project generates approximately 146 vehicle trips on a Sunday. This fee is $193.55 per trip multiplied by the number of Vehicle Trips (146) and multiplied by an induced trip adjustment factor of 20% as shown in the fee plan. Therefore, the total estimated Local Transportation Fees for this project is $5,651.66. The current High Desert Local Area Transportation Facilities plan can be found at the following website: http://www.sbcounty.gov/dpw/transportation/transportation_planning.asp

PUBLIC WORKS/Solid Waste Management (909) 386-8701

77. Construction and Demolition Waste Management Plan (CDWMP) Part 1 – The developer shall prepare, submit, and obtain approval from SWMD of a CDWMP Part 1 for each phase of the project. The CWMP shall list the types and weights or volumes of solid waste materials expected to be generated from demolition. The CDWMP shall include options to divert from landfill disposal, materials for reuse or recycling by a minimum of 50% of total weight or volume. Forms can be found on our website at www.sbcounty.gov/dpw/solidwaste. An approved CDWMP Part 1 is required before a demolition permit can be issued.

Upon completion of demolition, the developer shall complete SWMD’s CDWMP Part 2 and shall provide documentation of diversion of materials including but not limited to receipts, invoices or letters showing material type(s) and weights or volume from diversion facilities or certification of reuse of materials on site. An approved Part 2 of the CDWMP is required prior to issuance of building permits.

PUBLIC HEALTH – Environmental Health Services [DEHS] (800) 442-2283

78. Water Purveyor. Water purveyor shall be Sheep Creek Water.

79. Water Letter. Applicant shall procure a verification letter from the water agency with jurisdiction. This letter shall state whether or not water connection and service shall be made available to the project by the water agency. This letter shall reference the Assessor’s Parcel Number. For projects with current active water connections, a copy of water bill with project address may suffice. For information, contact the Water Section at (800) 442-2283.

80. Wastewater. Method of sewage disposal shall be EHS approved onsite wastewater treatment system (OWTS).

81. Wastewater Systems. Applicant shall procure a verification letter from the sewering agency with jurisdiction. This letter shall state whether or not sewer connection and service shall be made available to the project by the sewering agency. The letter shall reference the Assessor’s Parcel Number.

82. Additional Wastewater. If sewer connection and/or service are unavailable, onsite wastewater treatment system(s) may then be allowed under the following conditions: A soil percolation report shall be submitted to DEHS for review and approval. A plot plan showing the location of the septic system may be required.
by DEHS prior to the issuance of building permits. If the percolation report cannot be approved, the project may require and alternative OWTS. For information, please contact the Wastewater Section at 1-800-442-2283.

83. **Acoustical Study.** Submit preliminary acoustical information demonstrating that the proposed project maintains noise levels at or below San Bernardino County Noise Standard(s), San Bernardino Development Code Section 83.01.080. The purpose is to evaluate potential future on-site and/or adjacent off-site noise sources. If the preliminary information cannot demonstrate compliance to noise standards, a project specific acoustical analysis shall be required. Submit information/analysis to the DEHS for review and approval. For information and acoustical checklist, contact DEHS at (800) 442-2283.

84. **Verification.** Submit verification of annexation to DEHS for any project that requires water or sewer connection outside a purveyor's jurisdiction. For information, contact LAFCO at: 909-383-9900.

85. **RWQCB Clearance.** Written clearance shall be obtained from the designated California Regional Water Quality control Board (listed below) and a copy forwarded to the Division of Environmental health Services.

   Lahontan Region, 15428 Civic Dr., Suite 100, Victorville, CA 92392, 760-241-6583.

86. **Food Establishment Plan Checks.** Plans for food establishments shall be reviewed and approved by DEHS. For information, call DEHS/Plan Check at: 1-800-442-2283.
PRIOR TO FINAL INSPECTION OR OCCUPANCY (Phase 1)

The Following Shall Be Completed

**LAND USE SERVICES DEPARTMENT – Planning (909) 387-8311**

87. **CCRF/Occupancy.** Prior to occupancy/use of Phase 1, all Phase 1 Condition Compliance Release Forms (CCRF) shall be completed to the satisfaction of County Planning with appropriate authorizing signatures from each reviewing agency.

88. **Landscaping/Irrigation.** All landscaping, dust control measures, all fences, etc. as delineated on the approved Landscape Plan shall be installed. The developer shall submit the Landscape Certificate of Completion verification as required in SBCC Section 83.10.100. Supplemental verification should include photographs of the site and installed landscaping.

**LAND USE SERVICES DEPARTMENT – Building and Safety (909) 387-8311**

89. **Condition Compliance Release Form Sign-off.** Prior to occupancy all Department/Division requirements and signoffs shall be completed.

**LAND USE SERVICES – Land Development Division – Drainage Section (909) 387-8311**

90. **Drainage Improvements.** All required drainage improvements if any shall be completed by the applicant. The private registered engineer shall inspect improvements outside the County right-of-way and certify that these improvements have been completed according to the approved plans. Certification letter shall be submitted to Land Development.

91. **WQMP Improvements.** All required WQMP improvements shall be completed by the applicant, inspected and approved by County Public Works. An electronic file of the final and approved WQMP shall be submitted to Land Development Division, Drainage Section.

**LAND USE SERVICES DEPARTMENT – Land Development Division – Road Section (909) 387-8311**

92. **Road Improvements.** All required on-site and off-site improvements shall be completed by the applicant, inspected and approved by County Public Works.

93. **Open Roads/Cash Deposit.** Existing County roads, which will require reconstruction, shall remain open for traffic at all times, with adequate detours, during actual construction. A cash deposit shall be made to cover the cost of grading and paving prior to issuance of road encroachment permit. Upon completion of the road and drainage improvement to the satisfaction of the Department of Public Works, the cash deposit may be refunded.

94. **Structural Section Testing.** A thorough evaluation of the structural road section, to include parkway improvements, from a qualified materials engineer, shall be submitted to County Public Works.

95. **Parkway Planting.** Trees, irrigation systems, and landscaping required to be installed on public right-of-way shall be approved by County Public Works and Current Planning and shall be maintained by the adjacent property owner or other County-approved entity.

96. **Phased Projects.** Projects within any phase of a phased project shall have all required on-site and off-site public road and drainage improvements required for such a phase sufficiently completed by the applicant,
inspected and approved for construction of that phase, prior to final inspection or occupancy for any buildings or other structures in that phase.

The term “phase” as used here shall mean the following: “The block of building permits drawn on less than the whole project” or “A plan of building construction which indicates blocks of construction of less than the whole project.”

In each phase, the installation of any on-site or off-site public road improvements shall be sufficiently completed so as to assure protection from storm or drainage run off, a safe and drivable access for fire and other emergency/safety vehicles, and the ordinary and intended use of the buildings or structures. The Building Official, with the concurrence of the Land Development Division may approve any plan or approve a change to an approved plan, which complies with the intent of this policy.

COUNTY FIRE DEPARTMENT – Community Safety (760) 995-8100

97. **Street Sign.** This project is required to have an approved street sign (temporary or permanent). The street sign shall be installed on the nearest street corner to the project. Installation of the temporary sign shall be prior any combustible material being placed on the construction site. Prior to final inspection and occupancy of the first structure, the permanent street sign shall be installed. Standard 901.4.4

98. **Commercial Addressing.** Commercial and industrial developments of 100,000 sq. ft or less shall have the street address installed on the building with numbers that are a minimum six (6) inches in height and with a three quarter (3/4) inch stroke. The street address shall be visible from the street. During the hours of darkness, the numbers shall be electrically illuminated (internal or external). Where the building is two hundred (200) feet or more from the roadway, additional non-illuminated contrasting six (6) inch numbers shall be displayed at the property access entrances. Standard 901.4.4 [F82]

99. **Key Box.** An approved Fire Department key box is required. The key box shall be provided with a tamper switch and shall be monitored by a Fire Department approved central monitoring service. In commercial, industrial and multi-family complexes, all swing gates shall have an approved fire department Knox Lock. Standard 902.4 [F85]

100. **Fire Extinguishers.** Hand portable fire extinguishers are required. The location, type, and cabinet design shall be approved by the Fire Department.

101. **Fire Lanes.** The applicant shall submit a fire lane plan to the Fire Department for review and approval. Fire lane curbs shall be painted red. The "No Parking, Fire Lane" signs shall be installed on public/private roads in accordance with the approved plan. Standard 901.4

102. **Inspection by the Fire Department.** Permission to occupy or use the building (Certification of Occupancy or Shell Release) will not be granted until the Fire Department inspects, approves and signs off on the Building and Safety job card for the "fire final".

103. **Hydrant Marking.** Blue reflective pavement markers indicating fire hydrant locations shall be installed as specified by the Fire Department. In areas where snow removal occurs or non-paved roads exist, the blue reflective hydrant marker shall be posted on an approved post along the side of the road, no more than three (3) feet from the hydrant and at least six (6) feet high above the adjacent road. Standard 901.4.3.

PUBLIC WORKS – Solid Waste Management Division (909) 386-8701
104. C&D Plan – Part 2. The developer shall complete SWMD’s C&D Plan Part 2”. This summary shall provide documentation of actual diversion of materials including but not limited to receipts or letters from diversion facilities or certification reuse of materials on site. The C&D Plan – Part 2 shall provide evidence to the satisfaction of County Solid Waste that demonstrates that the project has diverted from landfill disposal materials for reuse or recycling by a minimum of 50 percent of total volume of all construction waste.
PRIOR TO ISSUANCE OF BUILDING PERMITS (Phase 2)

The Following Shall Be Completed:

LAND USE SERVICES DEPARTMENT – Building and Safety (909) 387-8311

105. Construction Plans. Any building, sign, or structure to be constructed or located on site, will require professionally prepared plans based on the most current County and California Building Codes, submitted for review and approval by the Building and Safety Division.

LAND USE SERVICES DEPARTMENT – Land Development Division – Road Section (909) 387-8311

106. Road Dedication/Improvements. The developer shall submit for review and obtain approval from the Land Use Services Department the following dedications and plans for the listed required improvements, designed by a Registered Civil Engineer (RCE), licensed in the State of California. These shall be submitted to the Land Use Services Department, located at 385 N. Arrowhead Ave, San Bernardino CA 92415-0187. Phone: (909) 387-8311.

PHASE 2

Johnson Rd (Major Highway – 104’)

- Street Improvements. Design curb and gutter with match up paving 40 feet from centerline.
  - Sidewalks. Design sidewalks per County Standard 109 Type “C”.
  - Sidewalk Ramp. Design sidewalk ramp per County Standard 110.
  - Driveway Approach. Design driveway approach per 2010 Caltrans Driveway Standard Detail A87A (W=24’ min – 34’ max), and located per San Bernardino County Standard 130.
  - Curb Returns. Curb Returns shall be designed per County Standard 110.

Yucca Terrace Dr (1/4 Section Line – 88’)

- Street Improvements. Design curb and gutter with match up paving 18 feet from centerline.
  - Sidewalks. Design sidewalks per County Standard 109 Type “C”.
  - Driveway Approach. Design driveway approach per 2010 Caltrans Driveway Standard Detail A87A (W=24’ min – 34’ max), and located per San Bernardino County Standard 130.

107. Road Standards and Design. All required street improvements shall comply with latest San Bernardino County Road Planning and Design Standards and the San Bernardino County Standard Plans. Road sections shall be designed to Desert Road Standards of San Bernardino County, and to the policies and requirements of the County Department of Public Works and in accordance with the General Plan, Circulation Element.

108. Street Improvement Plans. The developer shall submit for review and obtain approval of street improvement plans prior to construction. Final plans and profiles shall indicate the location of any existing utility facility or utility pole which would affect construction, and any such utility shall be relocated as necessary without cost to the County. Street improvement plans shall not be approved until all necessary right-of-way is acquired.
109. **Construction Permits.** Prior to installation of road and drainage improvements, a permit is required from County Public Works, Transportation Operations Division, Permit Section, (909) 387-8046, as well as other agencies prior to work within their jurisdiction. Submittal shall include a materials report and pavement section design in support of the section shown on the plans. Applicant shall conduct classification counts and compute a Traffic Index (TI) Value in support of the pavement section design.

110. **Encroachment Permits.** Prior to installation of driveways, sidewalks, etc., an encroachment permit is required from County Public Works, Transportation Operations Division, Permit Section, (909) 387-8046, as well as other agencies prior to work within their jurisdiction.

111. **Soils Testing.** Any grading within the road right-of-way prior to the signing of the improvement plans shall be accomplished under the direction of a soils testing engineer. Compaction tests of embankment construction, trench back fill, and all sub-grades shall be performed at no cost to San Bernardino County and a written report shall be submitted to the Transportation Operations Division, Permits Section of County Public Works, prior to any placement of base materials and/or paving.

112. **Transitional Improvements.** Right-of-way and improvements (including off-site) to transition traffic and drainage flows from proposed to existing, shall be required as necessary.

113. **Street Gradients.** Road profile grades shall not be less than 0.5% unless the engineer at the time of submittal of the improvement plans provides justification to the satisfaction of County Public Works confirming the adequacy of the grade.

**COUNTY FIRE DEPARTMENT – Community Safety (760) 995-8190**

114. **Building Plans.** No less than three (3) complete sets of Building Plans shall be submitted to the Fire Department for review and approval. [F42]

115. **Fire Flow.** Your submittal did not include a flow test report to establish whether the public water supply is capable of meeting your project fire flow demand. You will be required to either produce a current flow test report from your water purveyor demonstrating that the fire flow demand is satisfied or you must install an approved fire sprinkler system. This requirement shall be completed prior to combination inspection by Building and Safety.

116. **Combustible Protection.** Prior to combustibles, being placed on the project site an approved paved road with curb and gutter and fire hydrants with an acceptable fire flow shall be installed. The topcoat of asphalt does not have to be installed until final inspection and occupancy.

117. **Primary Access Paved.** Prior to building permits being issued to any new structure, the primary access road shall be paved or an all weather surface and shall be installed as specified in the General Requirement conditions (Fire # F-9), including width, vertical clearance and turnouts, if required.

118. **Fire Lanes.** The applicant shall submit a fire lane plan to the Fire Department for review and approval. Fire lane curbs shall be painted red. The “No Parking, Fire Lane” signs shall be installed on public/private roads in accordance with the approved plan. Standard 901.4 [F93]

119. **Hood And Duct Suppression.** An automatic hood and duct fire extinguishing system is required. A Fire Department approved designer/installer shall submit three (3) sets of detailed plans (minimum 1/8” scale) with manufactures’ specification sheets to the Fire Department for review and approval. The required fees shall be paid at the time of plan submittal.
120. **FS-2.** The County General Plan designates this property as being within the Fire Safety Review Area 2 (two) and all future construction shall adhere to all applicable standards and requirements of this overlay district.

121. **Primary Access Paved.** Prior to building permits being issued to any new structure, the primary access road shall be paved or an all-weather surface and shall be installed as specified in the General Requirement conditions (Fire # F-9), including width, vertical clearance and turnouts, if required.

122. **Access - 150+ feet.** Roadways exceeding one hundred fifty (150) feet in length shall be approved by the Fire Department. These shall be extended to within one hundred fifty (150) feet of and shall give reasonable access to all portions of the exterior walls of the first story of any building. Standard 902.2.1

123. **Access.** The development shall have a minimum of 2 points of vehicular access. These are for fire/emergency equipment access and for evacuation routes.

All buildings shall have access provided by approved roads, alleys and private drives with a minimum twenty six (26) foot unobstructed width and vertically to fourteen (14) feet six (6) inches in height. Other recognized standards may be more restrictive by requiring wider access provisions.

Buildings three (3) stories in height or more shall have a minimum access of thirty (30) feet unobstructed width and vertically to fourteen (14) feet six (6) inches in height.

124. **Combustible Vegetation.** Combustible vegetation shall be removed as follows: "Where the average slope of the site is less than 15% - Combustible vegetation shall be removed a minimum distance of thirty (30) feet from all structures or to the property line, whichever is less. " Where the average slope of the site is 15% or greater - Combustible vegetation shall be removed a minimum one hundred (100) feet from all structures or to the property line, whichever is less. County Ordinance # 3586

125. **Water System Commercial.** A water system approved and inspected by the Fire Department is required. The system shall be operational, prior to any combustibles being stored on the site. All fire hydrants shall be spaced no more than three hundred (300) feet apart (as measured along vehicular travel-ways) and no more than three hundred (300) feet from any portion of a structure.

126. **Water System Certification.** The applicant shall provide the Fire Department with a letter from the serving water company, certifying that the required water improvements have been made or that the existing fire hydrants and water system will meet distance and fire flow requirements. Fire flow water supply shall be in place prior to placing combustible materials on the job site.

**PUBLIC WORKS – Traffic (909) 387-8186**

127. **Regional Transportation Fee Plan.** This project falls within the High Desert Local Area Transportation Facilities Fee Plan. This fee shall be paid by a cashier’s check to the Department of Public Works Business Office. These fees are subject to change. Phase 2 shall be evaluated upon submittal of building plans for this phase. The current High Desert Local Area Transportation Facilities plan can be found at the following website:

http://www.sbcounty.gov/dpw/transportation/transportation_planning.asp

**PUBLIC WORKS/Solid Waste Management (909) 386-8701**

128. **Construction and Demolition Waste Management Plan (CDWMP) Part 1 –** The developer shall prepare, submit, and obtain approval from SWMD of a CDWMP Part 1 for each phase of the project. The CWMP shall list the types and weights or volumes of solid waste materials expected to be generated from
demolition. The CDWMP shall include options to divert from landfill disposal, materials for reuse or recycling by a minimum of 50% of total weight or volume. Forms can be found on our website at www.sbcounty.gov/dpw/solidwaste. An approved CDWMP Part 1 is required before a demolition permit can be issued.

Upon completion of demolition, the developer shall complete SWMD’s CDWMP Part 2 and shall provide documentation of diversion of materials including but not limited to receipts, invoices or letters showing material type(s) and weights or volume from diversion facilities or certification of reuse of materials on site. An approved Part 2 of the CDWMP is required prior to issuance of building permits.
PRIOR TO FINAL INSPECTION OR OCCUPANCY (Phase 2)
The Following Shall Be Completed

LAND USE SERVICES DEPARTMENT – Planning (909) 387-8311

129. Fees Paid. Prior to final inspection by Building and Safety Division and/or issuance of a Certificate of Conditional Use by the Planning Division, the applicant shall pay in full all fees required under actual cost job number P201400278.

130. CCRF/Occupancy. Prior to occupancy/use of Phase 2 improvements, all Phase 2 Condition Compliance Release Forms (CCRF) shall be completed to the satisfaction of County Planning with appropriate authorizing signatures from each reviewing agency.

LAND USE SERVICES DEPARTMENT – Building and Safety (909) 387-8311

131. Condition Compliance Release Form Sign-off. Prior to occupancy all Department/Division requirements and signoffs shall be completed.

LAND USE SERVICES – Land Development Division – Drainage Section (909) 387-8311

132. Drainage Improvements. All required drainage improvements if any shall be completed by the applicant. The private registered engineer shall inspect improvements outside the County right-of-way and certify that these improvements have been completed according to the approved plans. Certification letter shall be submitted to Land Development.

133. WQMP Improvements. All required WQMP improvements shall be completed by the applicant, inspected and approved by County Public Works. An electronic file of the final and approved WQMP shall be submitted to Land Development Division, Drainage Section.

LAND USE SERVICES DEPARTMENT – Land Development Division – Road Section (909) 387-8311

134. Road Improvements. All required on-site and off-site improvements shall be completed by the applicant, inspected and approved by County Public Works.

135. Open Roads/Cash Deposit. Existing County roads, which will require reconstruction, shall remain open for traffic at all times, with adequate detours, during actual construction. A cash deposit shall be made to cover the cost of grading and paving prior to issuance of road encroachment permit. Upon completion of the road and drainage improvement to the satisfaction of the Department of Public Works, the cash deposit may be refunded.

136. Structural Section Testing. A thorough evaluation of the structural road section, to include parkway improvements, from a qualified materials engineer, shall be submitted to County Public Works.

137. Parkway Planting. Trees, irrigation systems, and landscaping required to be installed on public right-of-way shall be approved by County Public Works and Current Planning and shall be maintained by the adjacent property owner or other County-approved entity.

138. Phased Projects. Projects within any phase of a phased project shall have all required on-site and off-site public road and drainage improvements required for such a phase sufficiently completed by the applicant, inspected and approved for construction of that phase, prior to final inspection or occupancy for any buildings or other structures in that phase.
The term “phase” as used here shall mean the following: “The block of building permits drawn on less than the whole project” or “A plan of building construction which indicates blocks of construction of less than the whole project.”

In each phase, the installation of any on-site or off-site public road improvements shall be sufficiently completed so as to assure protection from storm or drainage run off, a safe and drivable access for fire and other emergency/safety vehicles, and the ordinary and intended use of the buildings or structures. The Building Official, with the concurrence of the Land Development Division may approve any plan or approve a change to an approved plan, which complies with the intent of this policy.

COUNTY FIRE DEPARTMENT – Community Safety (760) 995-8100

139. Street Sign. This project is required to have an approved street sign (temporary or permanent). The street sign shall be installed on the nearest street corner to the project. Installation of the temporary sign shall be prior any combustible material being placed on the construction site. Prior to final inspection and occupancy of the first structure, the permanent street sign shall be installed. Standard 901.4.4

140. Commercial Addressing. Commercial and industrial developments of 100,000 sq. ft or less shall have the street address installed on the building with numbers that are a minimum six (6) inches in height and with a three quarter (3/4) inch stroke. The street address shall be visible from the street. During the hours of darkness, the numbers shall be electrically illuminated (internal or external). Where the building is two hundred (200) feet or more from the roadway, additional non-illuminated contrasting six (6) inch numbers shall be displayed at the property access entrances. Standard 901.4.4 [F82]

141. Key Box. An approved Fire Department key box is required. The key box shall be provided with a tamper switch and shall be monitored by a Fire Department approved central monitoring service. In commercial, industrial and multi-family complexes, all swing gates shall have an approved fire department Knox Lock. Standard 902.4 [F85]

142. Fire Extinguishers. Hand portable fire extinguishers are required. The location, type, and cabinet design shall be approved by the Fire Department.

143. Fire Lanes. The applicant shall submit a fire lane plan to the Fire Department for review and approval. Fire lane curbs shall be painted red. The "No Parking, Fire Lane" signs shall be installed on public/private roads in accordance with the approved plan. Standard 901.4

144. Inspection by the Fire Department. Permission to occupy or use the building (Certification of Occupancy or Shell Release) will not be granted until the Fire Department inspects, approves and signs off on the Building and Safety job card for the “fire final”.

145. Hydrant Marking. Blue reflective pavement markers indicating fire hydrant locations shall be installed as specified by the Fire Department. In areas where snow removal occurs or non-paved roads exist, the blue reflective hydrant marker shall be posted on an approved post along the side of the road, no more than three (3) feet from the hydrant and at least six (6) feet high above the adjacent road. Standard 901.4.3.

PUBLIC WORKS – Solid Waste Management Division (909) 386-8701

146. C&D Plan – Part 2. The developer shall complete SWMD’s C&D Plan Part 2”. This summary shall provide documentation of actual diversion of materials including but not limited to receipts or letters from diversion facilities or certification reuse of materials on site. The C&D Plan – Part 2 shall provide evidence to the
satisfaction of County Solid Waste that demonstrates that the project has diverted from landfill disposal materials for reuse or recycling by a minimum of 50 percent of total volume of all construction waste.

APPROVED PROJECT and ENVIRONMENTAL DETERMINATION:

The Proposed Project is a Conditional Use Permit to establish a church in two phases on 4.03 Acres in Phelan. Phase One of the development consists of the construction of a 3,996 square foot church sanctuary building with related site improvements such as parking and landscaping. The Second Phase includes set-down of a modular class room building and development of a covered picnic area and play area.

The proposed project was the subject of a previous Negative Declaration and entitlement approved by the County of San Bernardino in 2000. That Project expired in 2008. This document constitutes an Addendum to the June 2000 Initial Study/Negative Declaration originally prepared for the Fountain of Living Water Church Project. The original project identified no significant impacts and no mitigation measures based upon the scope and scale of the proposed project implementation. This addendum confirms the modified project will have no additional or new impacts upon the environment.
MODIFIED PROJECT:

The Modified Project reduces the building size from 6,000 square feet to 3,996 square feet, and adds a second development phase consisting of a play area, covered picnic area, and multipurpose classroom. The total developed area (area consisting of landscaping, parking and other site improvements) will be increased from 55,996 square feet to 69,370 square feet. A new Conditional Use Permit has been applied for, due to the expiration of the previous entitlement in 2008. The applicant for the project remains the same.

ADDENDUM:

This addendum analyzes the proposed Project revisions as required under the CEQA Guidelines, Sections 15162 and 15164.

Under CEQA Guidelines Section 15164, an addendum to an adopted negative declaration shall be prepared if only minor technical changes or additions are necessary or none of the conditions described in Section 15162 calling for the preparation of a subsequent negative declaration or Environmental Impact Report (EIR) have occurred. Under Section 15162, the lead agency shall prepare an EIR if there are any new significant environmental effects associated with the refined project. With respect to the proposed Project, the revisions are only minor technical changes that do not result in any new significant environmental effect(s); therefore, the revised Project does not require an EIR.

JUSTIFICATION:

As noted above, a Negative Declaration was adopted for the Original Project. No significant impacts were identified for the project at that time. As a standard requirement for development review within the County of San Bernardino and prior to the determination that an addendum would apply for the Modified Project, the Applicant provided new background documentation for the Modified Project related to the areas of hydrology, biological resources, and storm water quality. These studies were reviewed and did not identify any additional impacts resulting from the implementation of the Modified Project. A select number of environmental factors are discussed in the analysis below to further affirm the applicability of the Addendum. This analysis is in support of an Addendum pursuant to CEQA Guidelines Section 15162 (a) and 15164.

III. AIR QUALITY

No new or additional impacts have been identified to Air Quality. Due to the size and scale of the proposed development, and the nature of the improvements proposed under the Modified Project, the Lead Agency has determined that the standard rules and conditions applicable during construction and operation will keep the Project below the applicable thresholds of significance for Air Quality.

IV. BIOLOGICAL RESOURCES

The original Negative Declaration for the Approved Project indicated that no threatened, endangered or otherwise rare plants or animals were observed on the site and none were expected to occur. The newly submitted biological background report affirms this assertion, finding that the presence of protected or threatened species is not likely to occur.
The Modified Project will not result in new impacts with respect to Biological Resources. Therefore, the Modified Project would not result in a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service.

IX. HYDROLOGY AND WATER QUALITY

The Project will not violate any water quality standards or waste discharge requirements because the Project’s design incorporates design features to diminish water quality impacts to an acceptable level as required by state and federal regulations. These design features are identified in the WQMP prepared for the Project. Additionally, the Project must prepare a Storm Water Pollution Prevention Plan (SWPPP) to determine and reduce the Project’s potential impacts on water quality caused by storm event runoff during construction. Since the Project construction exceeds disturbance greater than an acre, the Project proponent needs to obtain a General Construction Permit under the National Pollutant Discharge Elimination System (NPDES) permit program of the federal Clean Water Act. The SWPPP requires submittal of a Notice of Intent to the Lahontan Regional Water Quality Control Board prior to construction activities. The objectives of a SWPPP are to identify pollutant sources (i.e., sediment) that may affect storm water discharge quality, and reduce the pollutants using Best Management Practices. The Project site can be served by Sheep Creek Water Company. On-site wastewater treatment systems must be approved by the County Environmental Health Services based on the requirements of the Lahontan Regional Water Quality Control Board. All the above are mandatory requirements and are not considered mitigation measures.

XII. NOISE

The Modified Project is not expected to expose persons to or generate noise levels or ground borne in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies, because the project is not located in the Noise Hazard (NH) Overlay District and will not be subject to severe noise levels according to the General Plan Noise Element.

Prior to the issuance of a building permit for the proposed project the County Department of Environmental Health Services will require the submittal of a preliminary acoustical questionnaire demonstrating that the proposed project maintains noise levels at or below San Bernardino County Noise Standard(s), San Bernardino Development Code Section 83.01.080. The purpose is to evaluate potential future on-site and/or adjacent off-site noise sources. If the preliminary information cannot demonstrate compliance to noise standards, a project specific acoustical analysis shall be required and appropriate noise attenuating measures may be required of this project. Therefore, no significant adverse impacts are anticipated and no mitigation measures are required.

XVI. TRAFFIC

The Modified Project is with the boundary of the High Desert Local Area Transportation Facilities Fee Plan. No Traffic Report or Project Specific Trip Generation Letter was required for the
proposed project, though the Public Works Department – Traffic Division reviewed the ITE Trip Generation Manual (9th Edition) for the proposed Project. The Project is projected to generate 146 vehicle trips on a Sunday. Prior to occupancy or final inspection, the required fees for the proposed development will be paid to the Department of Public Works Business Office. Payment of this fee is a standard requirement for any proposals within the boundary of the Local Area Transportation Facilities Fee Plan Area. It is not a mitigation measure. The proposed Project will include improvements to Johnson Road and the Yucca Terrace Drive where adjacent to the Project site. The Modified Project has also been determined through internal project review to have safe and adequate access and is not anticipated to create any new or significant impact to traffic safety locally or county-wide.

CONCLUSION:

The changes proposed by the Modified Project have been evaluated against the analysis of environmental impacts in the Negative Declaration adopted for the Approved Project in 2000 to ensure the proposed changes did not create new significant impacts or substantially increase the severity of previously analyzed impacts as compared to those identified previously. The analyses in the preceding sections conclude that the changes proposed by the Modified Project would not create any new significant impacts, or impacts that are significantly different than those identified for the Project. Therefore, the preparation of an Addendum to the approved Negative Declaration is the appropriate CEQA document to support the County’s consideration of the Modified Project, as outlined in the State CEQA Guidelines Section 15162 and 15164.

PROJECT DESCRIPTION:

1. Project title: Conditional Use Permit to establish a 6,000 sq. ft. multi-purpose church facility with sanctuary and office on 5.45 acres in the community of Phelan

2. Lead agency name and address: County of San Bernardino, Land Use Services Department, Current Planning Division, 385 North Arrowhead, San Bernardino CA 92415-0182

3. Contact person and phone number: Mike Williams, Senior Associate Planner, (760) 243-8245

4. Project location: Phelan

5. Project sponsor's name and address: Fountain of Living Waters Foursquare Church, P.O. Box 290100, Phelan CA 92329

6. Description of project: (Describe the whole action involved, including but not limited to later phases of the project, and any secondary, support, or off-site features necessary for its implementation. Attach additional sheets if necessary.):

The applicant is proposing to construct a 6,000 sq. ft. multi-purpose church facility with sanctuary and office on 5.45 acres in the community of Phelan. The facility being processed under the Additional Uses Section 84.041O(d) of the County Development Code.

ENVIRONMENTAL/EXISTING SITE CONDITIONS:

The site is currently vacant and is flat with soil consisting of course sand and rock. Vegetation found on the property is typical of high elevation desert-juniper transition. The site is moderately disturbed by human activity. Small portions have been cleared and there is scattered trash and other debris found throughout the property.

Other public agencies whose approval is required (e.g., permits, financing approval, or participation agreement.):

- Land Use Services Department/Building & Safety Division – Building Permits
- Public Works Department – Offers of Dedication for Johnson & Yucca Terrace Roads; Offer of Dedication for San Bernardino County Drainage Easement
- Lahontan RWQCB – NPDES Notice of Intent
- Special Districts Department – Possible Street Lighting Requirement
- Environmental Health Services Division – Water & Sewer Requirements

### ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" as indicated by the checklist on the following pages.

- [ ] Aesthetics
- [ ] Agriculture Resources
- [ ] Air Quality
- [ ] Biological Resources
- [ ] Cultural Resources
- [ ] Geology /Soils
- [ ] Hazards & Hazardous Materials
- [ ] Hydrology / Water Quality
- [ ] Land Use/ Planning
- [ ] Mineral Resources
- [ ] Noise
- [ ] Population / Housing
- [ ] Public Services
- [ ] Recreation
- [ ] Transportation/Traffic
- [ ] Utilities / Service Systems
- [ ] Mandatory Findings of Significance

### DETERMINATION: (To be completed by the Lead Agency)

On the basis of this initial evaluation, the following finding is made:

- [ ] The proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.

- [X] Although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.

- [ ] The proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.
The proposed project MAY have a "potentially significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.

Although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

Signature                                      Date
For Land Use Services Department Director
I. AESTHETICS — Would the project:

a) Have a substantial adverse effect on a scenic vista? ☐ ☐ ☒ X

b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway? ☐ ☐ ☒ X

c) Substantially degrade the existing visual character or quality of the site and its surroundings? ☐ ☐ ☒ X

d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area? ☐ ☐ ☒ X

SUBSTANTIATION (check __ if project is located within the viewshed of any Scenic Route listed in the General Plan):

The proposed project is not within the viewshed of any road designated as a scenic route in this area. The proposed project is not expected to degrade the existing visual character of the area.

II. AGRICULTURE RESOURCES — In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Dept. of Conservation as an optional model to use in assessing impacts on agriculture and farmland. Would the project:

a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use? ☐ ☐ ☒ X

b) Conflict with existing zoning for agricultural use, or a Williamson Act contract? ☐ ☐ ☒ X

c) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use? ☐ ☐ ☒ X

SUBSTANTIATION (check __ if project is located in the Important Farmlands Overlay):

The project site is not in agricultural production. The location, size and topography of the site make this area unsuitable for agricultural crop production and therefore, no significant impact to soils or agriculture will occur.
III. AIR QUALITY — Where available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:

a) Conflict with or obstruct implementation of the applicable air quality plan? ☐ ☐ ☐ X

d) Expose sensitive receptors to substantial pollutant concentrations? ☐ ☐ ☐ X

e) Create objectionable odors affecting a substantial number of people? ☐ ☐ ☐ X

SUBSTANTIATION (discuss conformity with the Mojave Desert Air Quality Management Plan, if applicable):

The proposed project may result in minor short term air quality impacts generated by construction activities. Short term impacts are dust/airborn particles from soil disturbance and exhaust emissions from the operation of construction equipment. Daily watering and the implementation of an erosion and sediment control plan is expected to reduce dust generation to nonsignificant levels. Construction related equipment emissions are expected to remain below significant levels primarily because the project is relatively small and the number of construction vehicles would be limited. Also, no long term air quality impacts are anticipated with this project.

IV. BIOLOGICAL RESOURCES — Would the project:

a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service? ☐ ☐ ☐ X
b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or US Fish and Wildlife Service? | Potentially Significant Impact | Less than Significant with Mitigation Incorp. | Less than Significant Impact | No Impact |

c) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means? | Potentially Significant Impact | Less than Significant with Mitigation Incorp. | Less than Significant Impact | No Impact |
|                             | X                           | X                        | X                         | X       |

d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites? | Potentially Significant Impact | Less than Significant with Mitigation Incorp. | Less than Significant Impact | No Impact |
|                             | X                           | X                        | X                         | X       |

e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance? | Potentially Significant Impact | Less than Significant with Mitigation Incorp. | Less than Significant Impact | No Impact |
|                             | X                           | X                        | X                         | X       |

f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan? | Potentially Significant Impact | Less than Significant with Mitigation Incorp. | Less than Significant Impact | No Impact |
|                             | X                           | X                        | X                         | X       |

SUBSTANTIATION (check if project is located in the Biological Resources Overlay X or contains habitat for any species listed in the California Natural Diversity Database __):

The proposal is located in a Desert tortoise Category 3 Biological Resources Overlay. A Desert Tortoise Survey was completed by Thomas H. Irwin for Robert F. McGowan Designs on October 7, 1998. No tortoises or evidence of tortoises were found on site or in the area adjacent to the site. No mitigation measures are being proposed.

V. CULTURAL RESOURCES — Would the project:

a) Cause a substantial adverse change in the significance of a historical resource as defined in §15064.5? | Potentially Significant Impact | Less than Significant with Mitigation Incorp. | Less than Significant Impact | No Impact |
|                             | X                           | X                        | X                         | X       |

b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to §15064.5? | Potentially Significant Impact | Less than Significant with Mitigation Incorp. | Less than Significant Impact | No Impact |
|                             | X                           | X                        | X                         | X       |

c) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature? | Potentially Significant Impact | Less than Significant with Mitigation Incorp. | Less than Significant Impact | No Impact |
|                             | X                           | X                        | X                         | X       |

d) Disturb any human remains, including those interred outside of formal cemeteries? | Potentially Significant Impact | Less than Significant with Mitigation Incorp. | Less than Significant Impact | No Impact |
<p>|                             | X                           | X                        | X                         | X       |</p>

**VI. GEOLOGY AND SOILS** — Would the project:

a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:

   i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.

   ii) Strong seismic ground shaking?

   iii) Seismic-related ground failure, including liquefaction?

   iv) Landslides?

b) Result in substantial soil erosion or the loss of topsoil?

c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse?

d) Be located on expansive soil, as defined in Table 18 1-B of the Uniform Building Code (1994), creating substantial risks to life or property?

e) Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water?

**SUBSTANTIATION** (check __ if project is located in the Geologic Hazards Overlay District):

The project site is not located within a Geologic Hazards Overlay or Alquist-Priolo Zone. However, the site is subject to ground shaking in the event of an earthquake in the local area. New structures shall be required to meet current earthquake standards as required by the Uniform Building code.
### VII. HAZARDS AND HAZARDOUS MATERIALS —
Would the project:

</tr>
</tbody>
</table>

**SUBSTANTIATION:**

The proposed development is not anticipated to introduce any significant additional hazards into the community.
VIII. HYDROLOGY AND WATER QUALITY — Would the project:

a) Violate any water quality standards or waste discharge requirements?  
   - Potentially Significant Impact: ☐  
   - Less than Significant with Mitigation Incorp.: ☐  
   - Less than Significant Impact: ☐  
   - No Impact: ☑

b) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?  
   - Potentially Significant Impact: ☐  
   - Less than Significant with Mitigation Incorp.: ☐  
   - Less than Significant Impact: ☐  
   - No Impact: ☑

c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on- or off-site?  
   - Potentially Significant Impact: ☐  
   - Less than Significant with Mitigation Incorp.: ☐  
   - Less than Significant Impact: ☐  
   - No Impact: ☑

d) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or off-site?  
   - Potentially Significant Impact: ☐  
   - Less than Significant with Mitigation Incorp.: ☐  
   - Less than Significant Impact: ☐  
   - No Impact: ☑

e) Create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?  
   - Potentially Significant Impact: ☐  
   - Less than Significant with Mitigation Incorp.: ☐  
   - Less than Significant Impact: ☐  
   - No Impact: ☑

f) Otherwise substantially degrade water quality?  
   - Potentially Significant Impact: ☐  
   - Less than Significant with Mitigation Incorp.: ☐  
   - Less than Significant Impact: ☐  
   - No Impact: ☑

g) Place housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?  
   - Potentially Significant Impact: ☐  
   - Less than Significant with Mitigation Incorp.: ☐  
   - Less than Significant Impact: ☐  
   - No Impact: ☑

h) Place within a 100-year flood hazard area structures which would impede or redirect flood flows?  
   - Potentially Significant Impact: ☐  
   - Less than Significant with Mitigation Incorp.: ☐  
   - Less than Significant Impact: ☐  
   - No Impact: ☑

i) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam?  
   - Potentially Significant Impact: ☐  
   - Less than Significant with Mitigation Incorp.: ☐  
   - Less than Significant Impact: ☐  
   - No Impact: ☑

j) Inundation by seiche, tsunami, or mudflow?  
   - Potentially Significant Impact: ☐  
   - Less than Significant with Mitigation Incorp.: ☐  
   - Less than Significant Impact: ☐  
   - No Impact: ☑
SUBSTANTIATION:

No impacts are expected to occur as a result of developing the site.

X. LAND USE AND PLANNING — Would the project:

a) Physically divide an established community? □ □ □ X

b) Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to the general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect? □ □ □ X

c) Conflict with any applicable habitat conservation plan or natural community conservation plan? □ □ □ X

SUBSTANTIATION:

The proposed church facility is defined in the Development Code Section 84.0410(d) as an Additional Use permitted in any Land Use District subject to an approved Conditional Use Permit. The overall development is relatively small and will not have any significant impact on the environment.

X. MINERAL RESOURCES — Would the project:

a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state? □ □ □ X

b) Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan? □ □ □ X

SUBSTANTIATION (check ___if project is located within the Mineral Resource Zone Overlay):

The project is not located within the Mineral Resource Zone Overlay.

XI. NOISE — Would the project result in:

a) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies? □ □ □ X

b) Exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels? □ □ □ X
c) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project? □ □ □ X

d) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project? □ □ □ X

e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels? □ □ □ X

f) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels? □ □ □ X

SUBSTANTIATION (check if the project is located in the Noise Hazard Overlay District ___ or is subject to severe noise levels according to the General Plan Noise Element ___):

No significant increase in local noise levels is anticipated with the development of this project. Noise levels are to be maintained at or below County Standards.

XII. POPULATION AND HOUSING — Would the project:

a) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)? □ □ □ X

b) Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere? □ □ □ X

c) Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere? □ □ □ X

SUBSTANTIATION:

This proposal will have little or no effect on the regional or local residential development patterns.

XIII. PUBLIC SERVICES —

a) Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant
environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:

<table>
<thead>
<tr>
<th>Service</th>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorpor</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fire protection?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒ X</td>
</tr>
<tr>
<td>Police protection?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒ X</td>
</tr>
<tr>
<td>Schools?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒ X</td>
</tr>
<tr>
<td>Parks?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒ X</td>
</tr>
<tr>
<td>Other public facilities?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒ X</td>
</tr>
</tbody>
</table>

SUBSTANTIATION:

This development can be absorbed by all public agencies serving this community without having a significant impact.

XIV. RECREATION —

a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?

<table>
<thead>
<tr>
<th>Service</th>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorpor</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fire protection?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒ X</td>
</tr>
<tr>
<td>Police protection?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒ X</td>
</tr>
<tr>
<td>Schools?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒ X</td>
</tr>

<td>Parks?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒ X</td>
</tr>
<tr>
<td>Other public facilities?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒ X</td>
</tr>
</tbody>
</table>

SUBSTANTIATION:

The proposed project will not impact local recreation opportunities.

XV. TRANSPORTATION/TRAFFIC — Would the project:

a) Cause an increase in traffic which is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in either the number of vehicle trips, the volume to capacity ratio on roads, or congestion at intersections)?

<table>
<thead>
<tr>
<th>Service</th>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorpor</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fire protection?</td>

</tr>
<tr>
<td>Schools?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒ X</td>
</tr>
<tr>
<td>Parks?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒ X</td>
</tr>
<tr>
<td>Other public facilities?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒ X</td>
</tr>
</tbody>
</table>
c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?  

<table>
<thead>
<tr>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorp.</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>X</td>
</tr>
</tbody>
</table>

d) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?  

<table>
<thead>
<tr>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorp.</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>X</td>
</tr>
</tbody>
</table>

e) Result in inadequate emergency access?  

<table>
<thead>
<tr>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorp.</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>X</td>
</tr>
</tbody>
</table>

f) Result in inadequate parking capacity?  

<table>
<thead>
<tr>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorp.</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>X</td>
</tr>
</tbody>
</table>

g) Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?  

<table>
<thead>
<tr>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorp.</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>X</td>
</tr>
</tbody>
</table>

SUBSTANTIATION:

The development will not generate any significant increase in traffic.

XVI. UTILITIES AND SERVICE SYSTEMS —

Would the project:

a) Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?  

<table>
<thead>
<tr>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorp.</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>X</td>
</tr>
</tbody>
</table>

b) Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?  

<table>
<thead>
<tr>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorp.</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>X</td>
</tr>
</tbody>
</table>

c) Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?  

<table>
<thead>
<tr>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorp.</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>X</td>
</tr>
</tbody>
</table>

d) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?  

<table>
<thead>
<tr>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorp.</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>X</td>
</tr>
</tbody>
</table>

e) Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?  

<table>
<thead>
<tr>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorp.</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>X</td>
</tr>
</tbody>
</table>
f) Be served by a landfill(s) with sufficient permitted capacity to accommodate the project’s solid waste disposal needs?  

<table>
<thead>
<tr>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorp.</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>X</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

g) Comply with federal, state, and local statutes and regulations related to solid waste?  

<table>
<thead>
<tr>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorp.</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>X</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

SUBSTANTIATION:

There are existing utilities and infrastructure in the local area to support this development.

XVII. MANDATORY FINDINGS OF SIGNIFICANCE—

a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?  

<table>
<thead>
<tr>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorp.</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>X</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

b) Does the project have impacts that are individually limited, but cumulatively considerable? (“Cumulatively considerable” means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects)?  

<table>
<thead>
<tr>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorp.</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>X</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?  

<table>
<thead>
<tr>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorp.</th>
<th>Less than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>X</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

SUBSTANTIATION:

The proposed church facility is defined in the Development Code Section 84.0410(d) as an Additional Use permitted in any Land Use District subject to an approved Conditional Use Permit. The overall development is relatively small and will not have any significant impact on the environment.

XVIII. MITIGATION MEASURES

(Any mitigation measures which are not ‘self-monitoring’ shall have a Mitigation Monitoring and Reporting Program prepared and adopted at time of project approval)

None proposed.
