SAN BERNARDINO, Calif. (KABC) –

A fire on Little Mountain in San Bernardino burned 10 acres, but unlike past wildfires this one was intentionally set to help firefighters.

The **San Bernardino County Fire** Department set several fires on the mountainside during a live fire training exercise.

Hot and dry conditions mimicked what firefighters typically deal with on wildfires along with terrain and dry vegetation acting as fuel.

Firefighters got to hone their skills with realistic scenarios to prepare for the 2018 wildfire season.

The training also benefited the surrounding neighborhood. The controlled burn targeted areas in an effort to eliminate threats of uncontrolled fire.

Last December, a 260-acre fire burned in the same area causing mandatory evacuations.

The training will be held Tuesday, Wednesday and Thursday.

A big rig truck that was traveling southbound on the Interstate 15 Freeway just north of the 210 Freeway overpass near Fontana was destroyed by fire on Monday, June 4.

At about 1:55 p.m., the California Highway Patrol and the **San Bernardino County Fire** Department responded to the scene and found that the truck was fully engulfed by fire and in the emergency lane of the I-15.

According to a firefighter, the truck was hauling candy.

Traffic on the southbound I-15 freeway was stopped for about 15 minutes while the Fire Department used foam and water to extinguish the blaze.

No injuries to the truck driver or the firefighters were reported.

The California Highway Patrol is handling the investigation.
