## Sign up for emergency alerts

Robin Richards, Needles Desert Star

Posted: May 13, 2019

SAN BERNARDINO — The **county fire** department is urging residents to sign up for a reverse-911 Telephone Emergency Notification System (TENS).

The system uses landline numbers in the 911 database to alert of life-threatening emergencies; residents who want to receive an emergency alert text message on their cell phone or an emergency call on their Voiceover Internet Protocol (VoIP) phone must register the number in the system. To do so, visit [www.sbcounty.gov](http://www.sbcounty.gov) and click on the “Sign Up for Emergency Alerts” icon or register from the home pages of the fire or sheriff’s departments at [www.sbcfire.org](http://www.sbcfire.org) or [www.sbcasd.org](http://www.sbcasd.org).
