A man died after being struck by a car while riding his skateboard in western Fontana on Halloween night, Oct. 31.

At about 10:31 p.m., the California Highway Patrol and **San Bernardino County Fire** Department responded to the incident, which took place in the 13400 block of Arrow Boulevard.

According to a CHP officer, a man was riding his skateboard in the middle of the road and was struck by the driver of a blue Volkswagen Jetta. The driver was traveling eastbound on Arrow and the skateboard rider was traveling westbound.

CHP officials said that at least three motorists stopped in the very dark area to see if they could help the injured man, but he was pronounced deceased at the scene.

The driver of the Volkswagen stayed at the scene and was fully cooperating with the investigation, the CHP said. Drugs and alcohol do not appear to be factors in the collision.

The car was towed away for evidence.

The man has not yet been identified by the San Bernardino County Sheriff Coroner's Division.

The CHP is handling the investigation.

## COUNTY DECLARES MORONGO BASIN AREA STORM DAMAGE A LOCAL EMERGENCY

Staff Writer, Z107.7 FM

Posted: November 1, 2018

Last weekend's effort by the county Office of Emergency Services, with help from dozens of local CERT volunteers, to better assess damage from the storm event that began October 12, has placed the event in a whole new category. With nearly \$5.5 million dollars already spent on road repairs, and the number of homes damaged figured to be 100, county supervisors yesterday ratified an emergency declaration. Managing editor Tami Roleff has more on what that means for local communities...

For residents in and around Flamingo Heights, Joshua Tree, Landers, Twentynine Palms, and Yucca Valley the declaration opens the door for assistance from Governor Jerry Brown's Office of Emergency Services as well the Federal Highway Administration's Emergency Relief Program.

According to a statement released yesterday by county administrators, storm damaged roads are "clear and passable" thanks to the efforts of County Public Works, Special Districts, Caltrans and others. However, the county will now look to Sacramento and D.C. for funds to continue repairs and restoration of roads to their previous condition. Landers was singled out because Special Districts has stopped work there due to depletion of reserves. County Emergency Services personnel and local volunteers will be out on Saturday canvassing neighborhoods assessing damage and offering assistance.

If you've suffered storm-related property damage and have questions about assistance call Shanna Jensen with the county Office of Emergency Services at 909-356-3998 Monday through Friday from 8 a.m. to 5 p.m.

PINON HILLS, Calif. (VVNG.com) — A crash involving a semi and a van on Highway 138 left two people injured on Halloween night.

It happened on October 31, 2018, at 9:05 pm, on SR-138 near Mountain Road in the community of Pinon Hills.

Two people inside of a white work van were injured after they crashed with a semi.

According to the California Highway Patrol incident logs, the big rig jack-knifed into the eastbound lanes near the Chevron.

**San Bernardino County Fire** responded to the scene and located two patients, one of them described as having critical injuries. Due to his injuries, firefighter-paramedics requested helicopter H325. The second patient was transported by ground ambulance to a local hospital.

Officials at the scene briefly shut down the roadway to allow the helicopter to land at the scene and airlift the patient to Arrowhead Regional Medical Center.

The no. 2 lane will remain closed for an unknown duration as officials work on clearing the jack knifed semi that's blocking.

The California Highway Patrol is investigating the crash. Additional information will be updated as it becomes available.
