Firefighters Respond to Residential Structure Fire in Adelanto

Date/Time: January 10, 2020 5:27PM
Location: 10500 Blk of Colusa Road, Adelanto
Incident: Residential Structure Fire

Summary: At 5:27 tonight, San Bernardino County Fire responded to reports of a Residential Structure Fire in the 10500 Blk of Colusa Rd in the City of Adelanto.

BC 147 arrived on scene in eleven minutes to find a single story, single family home charged with heavy smoke and a working attic fire. Crews immediately deployed multiple hose lines and took an offensive approach.

The fire rapidly spread from contents of a room into the attic space. The rapid utilization of hose lines from engine companies along with the support of the truck company on the roof above assisted in the removal of heat and smoke from the home. This coordinated effort helped limit the spread of fire along with improving conditions inside for firefighters and any potential trapped occupant.

Firefighters were able to get knock down on the fire approximately one hour after it started. No injuries to civilians or suppression personnel were reported. SBCoFD responded one Battalion Chief, five Engines, two Trucks and one Water Tender for a total of 22 personnel.
