San Bernardino HHW Collection Facility Re-Opening with COVID-19 Safety Precautions

To help communities dispose of their Household Hazardous Waste during the COVID-19 crisis, the San Bernardino Household Hazardous Waste (HHW) collection facility will reopen to the public on Monday, May 4th. The HHW collection facility hours of operation are Monday through Friday from 9:00 a.m. – 4:00 p.m. Extra precautions and restrictions are being implemented to protect residents and staff from COVID-19 when collecting HHW from participants. Conditionally Exempt Small Quantity Generators (CESQG) appointments will be scheduled during business hours. The material re-use store will remain closed to the public until further notice.

Additionally, the following Household Hazardous Waste (HHW) locations will be open to the public as follows:

- The City of Rialto will continue their HHW services to the public every 2nd and 4th Friday and Saturday of the month from 8:00 a.m. – 12:00 p.m. Next opening is May 8th.
- The City of Upland will open their HHW site to the public every Saturday from 9:00 a.m. – 2:00 p.m. beginning May 16th.
- All other HHW locations will remain closed until further notice.

Residents who are displaying or experiencing any COVID-19 symptoms, will be turned away and asked to return to the HHW collection site 2 weeks after symptoms subside. Residents who are unable to bring in their HHW during these times are asked to safely store their items at their homes until the situation improves. The public can contact the HHW collection facility from 7:30 a.m. – 4:30 p.m., Monday through Friday at 909-382-5401, 1-800-Oily Cat or visit www.greensb.net for more up to date information.

We thank you for your patience and understanding during these trying times. #SBCountyTogether
