Background

The San Bernardino County Department of Behavioral Health (DBH) Substance Use Disorder and Recovery Services (SUDRS) and Mental Health Plan (MHP) understand the need to provide excellent services through the provision of client-centered, consumer-driven, recovery oriented, and culturally competent behavioral health care services that strives for integration with primary health care and seeks to address each client's unique needs. It is DBH's mission to assist individuals with issues of substance use disorders (SUD) and mental health (MH) to find solutions to challenges faced, so they may live full and healthy lives and function and thrive within their families and communities.

San Bernardino County DBH SUDRS staff is committed to continued program development and compliance efforts as detailed in the San Bernardino County DBH-SUDRS Drug Medi-Cal Organized Delivery System (DMC-ODS) implementation plan. San Bernardino County DBH SUDRS and MHP strive to provide services based on the annual contract between DBH and the Department of Health Care Services (DHCS) and as detailed in the annual Quality Improvement Performance Plan (QIPP).

The DBH Quality Management Program includes both SUDRS and MHP and is accountable to the DBH Director. The goal of the Quality Management Program is to improve DBH's established treatment outcomes through structural and operational processes and activities that are consistent with current standards of practice. QM conducts performance monitoring activities throughout its operations. These monitoring activities include, but are not limited to the following:

- Improve the access and availability of services;
- Conduct utilization review;
- Improve quality of care, which may include assessing client satisfaction;
- Review provider appeals and resolution of grievances;
- Ensure continuity of care and coordination of care;
- Comply with regulatory and contractual requirements associated with quality management; and
- Improve client outcomes of the service delivery system.

DBH contracts with multiple providers who operate in various locations, offering an array of services in the community. DBH provides behavioral health through its clinics, contract agencies or Fee For Service providers for children, youth, adolescents, transitional age youth, adults and older adults in the San Bernardino County cities, high and low deserts as well as rural and frontier areas

Purpose

The purpose of the QIPP is to organize and provide structure for Quality Management Program activities and outline DBH's plan in response to specific requirements with both its Implementation Plans, DMC-ODS and MHP.

The QIPP is essentially the Quality Improvement Work Plan for DBH. The QIPP meets the contractual requirements of the SUD and SMHS contracts with DHCS as well as additional areas of performance improvement as identified by California External Quality Review Organization (CAEQRO), the Countywide Vision Statement and DBH Strategic Plan. This is attained in part by the formation of the San Bernardino County DBH Quality Management Action Committee (QMAC). Participation for QMAC includes SUD and MHP practitioners, providers, clients and family members who participate in program activities. The QIPP conducts performance monitoring activities throughout SUDRS and/or MHP operations. These monitoring activities are designed to improve access, quality of care, and outcomes of the service delivery system. The QIPP has been organized into sections which relate to structure, implementation, and quantitatively measurable outcomes used to assess performance and to identify and prioritize areas for improvement. Outlined throughout are the goals, objectives, and outcomes for key areas that have been identified by DBH. They include but are not limited to the following elements: access to service, timeliness of services and/or appointments, service delivery capacity, client satisfaction, technology infrastructure, clinical issues, previously identified issues, provider appeals, continuity of care, and integration with physical health care.

Implementation of the QIPP is through department infrastructure which includes QMAC, subcommittees that function as work groups, focus groups, clients, peers and family advocates, DBH Management, as well as DBH and contract clinics.

The QIPP is evaluated annually and updated as necessary as it is considered a living document

Quality Improvement Program Committee / Work Group Functions

Quality Management Action Committee (QMAC):

San Bernardino County DBH SUDRS and MHP reviews the quality of services provided to clients. The committee duties include the following:

- Conduct performance monitoring activities using independently gathered information as well as information from the DBH Quality Management Division, DBH Research and Evaluation Division, and other DBH programs to track client and system outcomes, review access to care, review the quality of SUDRS and SMHS, improve the provision of care, and better meet the needs of clients.
- Review, track, and monitor the resolution of client grievances and appeals, state fair hearings, provider appeals, and inpatient and outpatient quality improvement referrals.
- Oversee, facilitate, review, and evaluate the results of Quality Improvement (QI)
 activities, including performance improvement projects. Institute needed QI actions
 and ensure follow-up of QI processes and efforts.
- Review, track, and monitor the implementation of technology infrastructure as it relates to electronic health records to ensure consistency with DHCS protocols.
- Oversee the Quality Management Section Work Group. Review reports from Quality Management Work Groups and recommend and institute appropriate actions.
- Document QMAC meetings minutes regarding decisions and actions taken.
- Provide recommendations for procedural and policy changes to improve the quality and delivery of mental health services.
- Participate in the development, evaluation, update and approval of the QIPP.

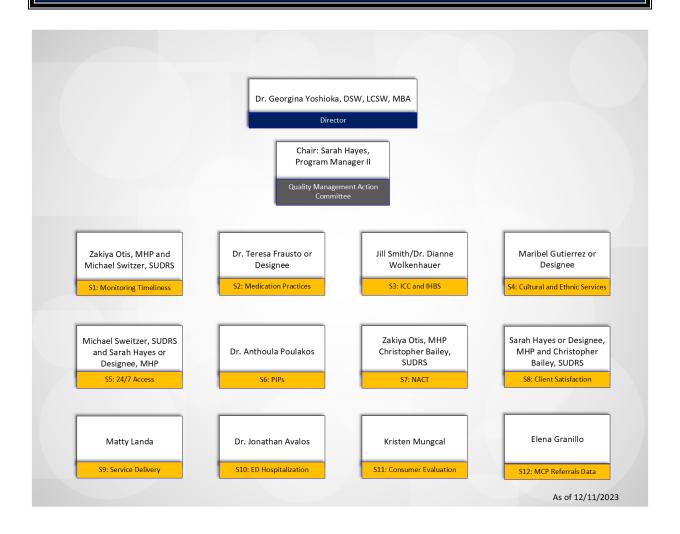

Quality Improvement Program Committee / Work Group Membership

- Work Groups are comprised of clinic, program, contract staff and inclusive of clients and family members. DBH strives to reflect diversity of the committees / work groups in the following areas: unserved/underserved/inappropriately served populations, children/youth, older adult, rural areas, military/veterans, and cooccurring conditions.
- Work Groups are led by the appropriate QMAC subject matter expert who will be responsible for the implementation, evaluation, objectives and goals for the specific objective.
- Responsible partners and Work Groups participate on QMAC as active members and represent their respective section of the QIPP and Work Group. They will report their findings to the committee as well as identify any system barriers and potential solutions.
- The information dissemination pathway is continuous from the Work Groups to QMAC and back to the Work Groups.

Quality Improvement Program Committee / Work Group Structure

Goals / Objectives

MONITORING TIMEL	LINESS
(Source: NACT, EQR	2O, 42CFR438.206(c)(1))
2 3 4	 Perform monitoring activities that gauge the MHP's effectiveness at providing timeliness for initial appointments: non-urgent, psychiatry and urgent. Conduct performance monitoring activities that gauge SUDRS' effectiveness at providing timely DMC-ODS services. Enhance reporting processes regarding timeliness reports. Conduct education regarding timeliness requirements for all levels of the MHP and DMC-ODS to increase knowledge and continue compliance with requirements. Conduct quality improvement activities regarding timeliness of services for clients who were recently discharged from
	psychiatric hospitalization in order to increase compliance rates.
	 Comply with new DHCS requirements of 80% compliance rate with the following Mental Health (MH) timeliness requirements: Initial request for non-urgent appointments with a non-physician specialty mental health care provider within 10 business days of the request. Initial psychiatric appointment within 15 business days of request for services. Requests for urgent services are provided within 48 hours without prior authorization or 96 hours with prior authorization. Non-Urgent Follow-up Appointment with a Non-Physician within 10 business days of the request for service. Meet Substance Use Disorders and Recovery Services (SUDRS) timeliness requirements: Offers an outpatient/intensive outpatient treatment (IOT) or residential treatment appointment within ten (10) business days of request/identified need. Offers Narcotic Treatment Program (NTP)/Opioid Treatment Program (OTP) within three (3) calendar days of request/identified need.

	D	
	Physician within 10 business days of the request for services.	
GOALS, Continued	 C. Monitor bed capacity procurement process for agencies interested in providing IOT and residential treatment with the goal to meet timely access. D. Enhance report process between SUDRS and Research and Evaluation (R&E), including a specialized report to measure timeliness. E. Educate MH and SUDRS staff and contract agencies of the following: Timeliness requirements when scheduling initial clients with the goal to increase timeliness and Initial contact log requirements with the goal of increasing the accuracy of the logs and increase the compliance rates. F. Continue to monitor post-hospitalization appointments within seven (7) calendar days of discharge. Strive for compliance 	
	rate of 50% or higher.	
RESPONSIBLE PARTNERS	Quality Management (QM), SUDRS, Research and Evaluation, Regional Operations, Information Technology (IT) and Clinic Program Managers.

	Avatar Scheduler	
	Darlaharada	
	 Initial Contact Log (ICL) 	
WORKGROUP ACTIVITIES	 Develop strategies to be compliant with minimum percentage and timeliness of appointments including hospital discharges, monitor timeliness and disseminate information to QMAC and DBH Leadership. Provide education through quarterly notices aimed to inform all levels of staffing for DBH MH and SUD clinics and contract agencies of the timeliness requirements to improve compliance. Conduct education of Initial Contact Log refresher trainings for staff to increase accuracy in the timeliness data and increase timeliness compliance. Continue to work on strategizing viable options to address post-hospital discharge appointments and processes inorder to increase the percentage of clients who receive a service within seven (7) days of hospital discharge.

SECTION 12 WOR	K GROUP MHP AND SUDRS			
IMPROVING DATA COLLECTION FOR MANAGED CARE PLAN (MCP) REFERRALS (Source: EQRO Recommendation, MCP contract, and APL				
22-024)				
OBJECTIVE 12	 Implement aggregate tracking and trending of bidirectional MHP/MCP referrals, including analysis of trend issues in the referrals where repeat bidirectional referrals occur in a short period of time. 			
GOALS	 A. Establish an improved data collection process for analyzing metrics related to timeliness, engagement, and recurring referrals from same clients. B. Enhance quality improvement via a "close the loop" process geared towards bridging the gap with the Managed Care plans by January 1, 2025. 			
RESPONSIBLE PARTNERS	QM – Managed Care Coordination Unit (MCCU)			
EVALUATION TOOL(S)	MCCU referral Log			
WORKGROUP	 Verify data entries in the master log to ensure accuracy logging of all Transition of Care Tools (TOC) received from Managed Care Plans. Review the master log for accuracy in logging of all returned disposition forms for TOC sent in by DBH providers. Confirm the TOC master log to guarantee correct recording of all outgoing TOC submissions from DBH providers. Generate monthly report for tracking the statistics of recurring incoming referral received bi-annually to trend the aggregate per period. Execute quarterly update and distribution strategies of the TOC information materials. Develop a framework that incorporates effective and collaborative communication approach with the Manage Care Plans. Develop an internal reporting tool for tracking and analyzing the average time required to complete referrals to the MCP. This reporting tool would track: The number of days from referral initiation i.e., when the MHP refers the member to an MCP, to referral completion i.e., when the MHP confirms that the MCP has connected the beneficiary with a provider and services have been made available to the beneficiary. 			

WORKGROUP ACTIVITIES, continued

- Identifies when the MHP receives a referral from an MCP.
- Confirms that the beneficiary has been connected to a provider that accepts the beneficiary's care.
- Confirms that services have been made available to the beneficiary (e.g., appointment(s) have been offered).

Conclusion

It is the goal of San Bernardino County DBH, SUDRS and SMHS to assist individuals with needed services to find solutions to the challenges they face so they may live full and healthy lives and thrive within their families and communities.

San Bernardino County DBH is committed to the implementation of the QIPP as described. However, other challenges may arise needing attention. All such items will be addressed and identified through quarterly committee meetings.
