

JUST RIGHT

Before you adopt; make sure it's a match!

5 THINGS TO THINK ABOUT BEFORE YOU ADOPT

ARE YOU ALLERGIC?

Pets can trigger allergies and be an issue for those with asthma. Consider if a "low-allergen" pet is right for you.

DO YOU HAVE THE TIME?

Care needs differ; some pets need more time and attention than others. Choose a pet whose needs align with the care you can provide.

DO YOU HAVE ENOUGH SPACE?

Some pets can require a lot of space or may need specific accommodations. If renting, consider your landlord's pet policy.

DO YOU HAVE THE NECESSARY FUNDS?

Giving appropriate care to a pet can be costly. Calculate the cost to see if your budget allows for it.

ARE YOU BOTH A MATCH?

A pet's personality and energy level that matches your own is always best. Meet each other before you adopt.

DOG NEEDS VS. CAT NEEDS

Some needs are shared by both cats and dogs. Before adopting ask about the specific needs of our furry friends

- | | |
|--|---|
|  Socialization |  Security |
|  Safe sleeping place |  Places to hide or perch |
|  Exercise |  Play time |
|  Enriched environment |  Enriched indoor environment |
|  Training |  Litter boxes |
