

2019 Communicable Disease Section Annual Update San Bernardino

Heather Murphy, BS CAIR Specialist - Orange County CA Department of Public Health – Immunization Branch Heather.Murphy@cdph.ca.gov Phone: (714)834-7876

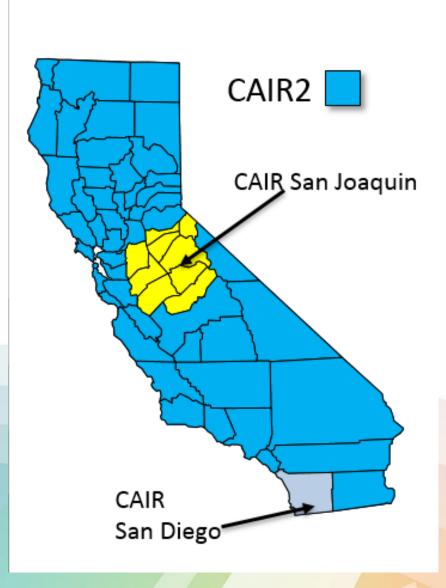

What is CAIR?

- A secure internet-based immunization registry for California
- Tracks patient immunization and TB test information & stores it in one permanent location.
- Reduces over immunization due to lost records by consolidating immunizations recorded by different providers.
- Helps reduce missed opportunities
- Increases immunization coverage rates

Many types of organizations use CAIR

Licensed Childcare Facilities College/Universities Corrections Facility – All Ages Fed-Qual or Rural HC **Foster Care** Local Health Departments **Health Plans** HIE/Data Aggregator Home Health Hospitals Indian Health Svcs Pediatrics **Pharmacies Private Practice** Schools/School Districts State Public Health **Urgent Care** WIC

Mac Users: Safari v.12 Is Not Saving Your Entered Doses How to Install Chrome or Firefox Browsers on Your Mac

Having Trouble Accessing CAIR2 With an Older Browser? Change Settings or Install a Newer Version

Enroll Your Organization in CAIR2! Enroll to submit information electronically from your EHR Enroll to enter information manually into CAIR2

CAIR2 Trainings

Enroll your organization with CAIR

2 options

- Enroll to submit information electronically from your EHR Data Exchange
- Or
 - Enroll to submit information into CAIR manually

CAIR User Interface (UI)

- CAIR User Interface (UI) providers log into CAIR directly and manually update existing records, create new patient records, add historical and new doses, and run patient and provider-level reports
- Providers may use the Inventory feature to track vaccine inventory in CAIR and pull inventorylinked reports
- Users must receive CAIR training to enter doses and manage inventory

What is DX?

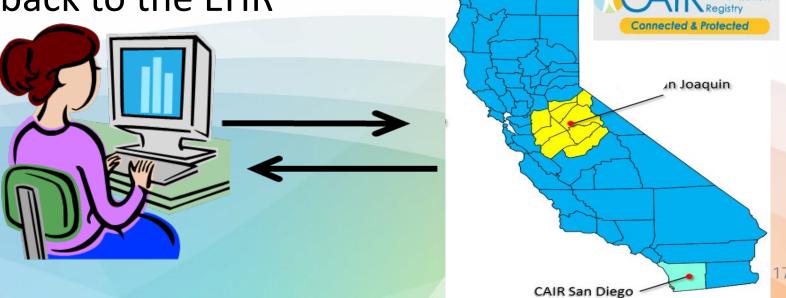

- Submit immunization data to CAIR from your EHR system
- Approximately 84% of sites submit electronically

CAIR – Data Exchange (DX)

Sites enrolled in CAIR Data Exchange-

- 1. Record doses given to patients in EHR
- 2. EHR sends dose information to CAIR
- 3. CAIR sends an Acknowledgement message back to the EHR

CAIR Bidirectional Data Exchange

- Ask for <u>and</u> receive data from CAIR, electronically
- Can send patient history with or without recommendations
- Learn more at **CAIRweb.org**

Data Exchange Submitters

View CAIR2 Patient Data In Your EHR – Sign Up Now for BiDX! Learn to Manage Inventory in CAIR2

*Formal Bidirectional enrollment & testing process required

Data Exchange Auto-decrement

- DX messages sent to CAIR can decrement doses from CAIR inventory for shots given in your EMR.
- Manage inventory in CAIR is required.
- Learn more at
