HOW ARE SHORT-TERM RENTALS IMPACTING THE HOUSING MARKET?

WHAT ARE WE TALKING ABOUT?

In response to community concerns and as directed by San Bernardino County's Housing Element, the County is preparing a study to evaluate the impacts of short-term rental activity on renter households and the availability of long-term rental housing in Mountain and Desert unincorporated communities.

At each meeting, the County will share findings to date and ways that the community can contribute to the study. The presentation will cover:

- Study background
- Data sources and methodologies
- Market trends for short-term rentals
- Preliminary findings
- Requests for community input
- Next steps
