

## Rebuttal to Argument Against Measure P

Did opponents bother to read Measure P's official language? Have they visited our Chaffey District schools or classrooms? Have they spoken to any of our students or teachers?

Imagine what your home would look like if 3,000 high school students trampled through it every day. Then imagine what it would look like after 10 years (our newest schools), 40 years (the average age of our schools) or 100 years (our oldest school).

**FACT: Yes on P** upgrades **every classroom in every high school**, including science labs, computer labs, and school libraries to ensure students have up-to-date technology for the next 20 years.

**FACT:** Measure P requires annual performance/financial audits, and an Independent Citizens Oversight Committee to ensure funds are spent as promised. By law, the Oversight Committee must include Taxpayer, Business and Senior representatives, and Parent/PTA representatives. Absolutely NO funds can be spent for administrators' salaries or pensions.

**Join Teachers, Students, Parents and Community Leaders in supporting YES on P:**

*"Our schools were built decades ago and are aging. These campuses need the essential upgrades and repairs that **YES on P** provides."*

**-Kay Pierce, Teacher of the Year**

*"**YES on P** gives our next generation of leaders up-to-date science, computer labs and school libraries so they're prepared for college, 21<sup>st</sup> century jobs and well-paying careers."*

**-Brooke VanDuin, ASB President**

*"I'm ready to support **YES on P** for our kids. Are you?"*

**-Anthony Munoz, NFL Hall of Fame, Chaffey Alum**
