

This Argument in Favor of Measure O was submitted pursuant to Section 9282 of the California Elections Code. It is the opinion of the author(s), and has been printed exactly as submitted.

The City of Adelanto has the potential to be a great City with its ample space and preferred logistical location to State highways 18 and 395. The community is filled with passionate families who care about their schools, parks, and community's safety. Citizens are free to walk the streets of the City nightly as they walk their dogs and participate in youth sports at City parks. With all of that in mind the City of Adelanto is a community and to remain as such we, as citizens, need to have the financial support of this tax that is levied by us and controlled by us, with no interference or threat of the State or County taking the money. With the approval, we as Citizens can dictate to the City Council our wishes for how it is to be used.

Adelanto has been ignored by commercial retailers historically and we have been forced to drive to neighboring cities for services, only to have the sales tax dollars benefit those cities and not Adelanto. A positive response to the passing of this tax sends a message to the commercial retailers that we care enough about our community to do our part to maintain and take care of it.

Additional revenue can help City management address our concerns for more amenities to keep us in Adelanto and not be forced to seek entertainment and amenities elsewhere. During the downturn in the economy, many of us have stayed with hopes of eventually continuing on the path of being the great community that attracted all of us here originally. Namely, affordable housing, a small town sense of community and pride, and the potential to be a part of a newly emerging, vibrant and innovative City who prides itself on sensible and responsible growth.
