

Rebuttal to Argument Against Measure L

Good schools make our community stronger. The quality of Snowline schools is better than other Districts in the area. Quality schools help our high school graduates effectively compete for jobs in a tough job market. Local realtors are right when they say that quality public schools help maintain strong property values.

The fact is, Snowline is under assault from Sacramento politicians and their money grabs and regulations. Should we just wring our hands and continue to take this abuse? Absolutely not! This is why the community supports Yes on L. Join business leaders, veterans, city leaders, residents, taxpayers, teachers, students, and homeowners who all support Measure L to maintain our schools and protect our property values!

FACT: Yes on L will prepare our students for high-paying in-demand careers by fixing the outdated, insufficient equipment and classrooms used to train them for jobs in fields including health care, technology, and engineering.

FACT: Yes on L requires annual independent financial audits. Legally, all funds must be used locally to improve Snowline District schools and no funds can be used for administrators' salaries or pensions.

Yes on L gives us LOCAL CONTROL of funds and helps us attract and retain quality teachers as well as basics like ensuring school drinking water is safe and repairing leaking roofs and electrical wiring.

FACT: The scope of work to which Measure L funds would be dedicated is identified in Snowline's Facilities Master Plan. To view the plan, visit: www.snowlineschools.com.
