

## Argument in Favor of Measure P

Join us in voting Yes on Measure P to upgrade Chaffey College and continue to prepare students, veterans and workers for good-paying jobs and transfer to four-year colleges and universities.

Several Chaffey College buildings were built in the 1960s and need basic health, safety and technology improvements.

Chaffey College is an essential resource for local students and businesses in Rancho Cucamonga, Chino, Chino Hills, Fontana, Montclair, Ontario, Upland, and areas of Guasti and Mt. Baldy. Measure P will allow the college to continue providing students with job training in much needed areas including fire safety, vocational education, technical knowledge and up-to-date skills to compete for good-paying and modern careers.

As the cost of four-year college skyrockets, more and more local families rely on Chaffey College's excellent, affordable higher education. Measure P will ensure that local students are provided the college credits, certifications and job skills necessary to compete in a global economy, all while benefiting our local businesses and industries.

Every penny from Measure P will benefit Chaffey College; absolutely no funds can be taken by the State.

### Vote YES on Measure P:

- Upgrade aging classrooms and labs for science, technology, engineering, and math to better prepare students for good-paying jobs
- Upgrade classrooms and facilities that support transfer programs
- Repair deteriorating gas, electrical and sewer lines and fix leaky roofs
- Upgrade job training facilities
- Improve student safety and security systems
- Upgrade and expand facilities for veterans' services and job training

### Measure P Requires Strict Fiscal Accountability:

- All funds will support our local community college
- No funds can be taken by the State
- No funds can be spent on administrator salaries or pensions
- Independent citizens' oversight is required

Join business leaders, veterans, educators, students, and community leaders and Vote Yes on Measure P – to prepare students for the future, improve our local economy, and benefit the communities we serve.
