

Rebuttal to Argument Against Measure P

We agree with the author of the opposing argument that, when it comes to Chaffey College, there's an important need for good facilities. That's why we're supporting Measure P.

Measure P funds can only support projects outlined in the voter-approved legally-binding project list. The District has a proven track record of saving \$21.8 million with bond refinancings and spending taxpayers' dollars carefully and responsibly, as evidenced by the Citizens' Oversight Committee reports and annual audits for its last bond, passed in 2002.

Chaffey College provides an outstanding education for local residents and veterans and Measure P addresses our most urgent needs that cannot be ignored.

Many college buildings are 50 years old and student growth and regular wear and tear has taken place in the 16 years since Chaffey College passed a bond. There is no other funding source to address these problems —and the longer we wait, the more expensive these improvements will become. Measure P will:

- Establish a comprehensive campus focusing on transfer programs and local job training in Ontario
- Upgrade aging classrooms and lab capacity in Chino, Fontana and Rancho for science, technology, engineering, and math to better prepare students for transfer and good-paying jobs
- Repair deteriorating gas, electrical and sewer lines and fix leaky roofs
- Upgrade job training facilities
- Improve student safety and security systems
- Upgrade and expand facilities for veterans' services and job training

Chaffey College is an essential part of the community. Protecting high-quality, affordable higher education is a wise investment. Join us in voting YES on Measure P.
