CAJON PASS, Calif. (VVNG.com) A major crash reported in the Cajon Pass Thursday night briefly halted traffic in anticipation of a helicopter landing.

It was first reported at 7:35 p.m. as a black sedan that rear-ended a semi-truck on the northbound 15 Freeway near the truck scales, near Highway 138.

The **San Bernardino County Fire Department** (SBCoFD) and California Highway Patrol responded to the scene and confirmed one person was trapped inside the sedan.

Fire Captain Jeremy Kern of SBCoFD, said in a tweet that an air ambulance was requested to the scene and to expect delays.

However, a few moments after the northbound traffic was stopped, it was reopened after the requests for a helicopter was canceled.

Kern confirmed that the air ambulance was canceled and the patient went by ground to a trauma center. He also reported extrication took 25 minutes to complete.

No further details were immediately available. Please check back for updates.
