Program	1 - 7 days	8 - 14 days	15 - 21 days	22 - 30 days	31 - 60 days	61 - 90 days	over 90 days
	17	11	5	15	2		

This report calculates the difference between the program entry date specified for the client and the date the client's application was entered into the system. For example, if a client's Program Entry date of "April 4, 2014" was recorded on "April 9, 2014," then the report would calculate a 5 day lag time in recording data. The report groups the number of applications by program and has 7 buckets for the number of days an application has been lagging.
