Fields with values over 5% errors.
 Fields with values 5% or less.
 0.00% Fields with no errors.

Missing data would include "Data Not Collected" or other invalid responses. A program should have less than a 5% missing field rate in order to ensure accurate data. Missing intake and exit data needs to be reviewed by staff on a regular basis. Any additional Universal Data Element information received from the client should be entered into the Homeless Management Information System (HMIS) within a timely manner.

Data Timeliness Report

Program	1 - 7 days	8 - 14 days	15 - 21 days	22 - 30 days	31 - 60 days	61 - 90 days	over 90 days
	101	6			2		

This report calculates the difference between the program entry date specified for the client and the date the client's application was entered into the system. For example, if a client's Program Entry date of "April 4, 2014" was recorded on "April 9, 2014," then the report would calculate a 5 day lag time in recording data. The report groups the number of applications by program and has 7 buckets for the number of days an application has been lagging.
