### PROGRAM INFORMATION

Agency Name: **Victor Valley Family Resource Center**

### Data Quality and Completeness

Complete and accurate records are required to ensure data quality. Required Data that is missing or not collected has a negative impact on the quality of data. The higher a programs' percentage of missing or erroneous data, the less useful the data becomes.

Fields with values over 5% errors.  
 Fields with values 5% or less.  
 0.00% Fields with no errors.

Missing data would include "Data Not Collected" or other invalid responses. A program should have less than a 5% missing field rate in order to ensure accurate data. Missing intake and exit data needs to be reviewed by staff on a regular basis. Any additional Universal Data Element information received from the client should be entered into the Homeless Management Information System (HMIS) within a timely manner.

**HUD Policy:** A 95% standard of completeness rate for all funded homeless projects should be established and expected. Programs should work toward ensuring that 95% of all required data elements for each client served are collected and entered correctly into the HMIS.

### Data Timeliness Report

| Type                  | 0 days | 1-3 days | 4-6 days | 7-10 days | Over 10 days | Average |
|-----------------------|--------|----------|----------|-----------|--------------|---------|
| Enrollment Timeliness | 8      | 38       | 5        | 2         |              | 1.51    |
| Exit Timeliness       | 9      | 19       | 3        |           | 3            | 4.24    |

This report calculates the difference between the program entry date specified for the client and the date the client's application was entered into the system. For example, if a client's Program Entry date of "April 4, 2016" was recorded on "April 9, 2016," then the report would calculate a 5 day lag time in recording data. The report groups the number of applications by program and has 5 buckets for the number of days an application has been lagging.

**HUD Policy:** Data entry should be current within 5 business days of intake, exit, and service provision.
